Self-Retracting Safety Knives

Minimally exposed knife blade automatically retracts when button is released. For left- or right-handed operation. Use round-tip or standard utility blades.

WAVETECH™

These knives use a new feature that precisely controls the cutting depth by controlling the blade exposure at 1/4", 7/16" or 11/16". "Wave" stops molded into the body of the knife reliably protect the contents of a box being opened or the work surface beneath a product as it's cut. Heavy-duty one-piece polypropylene body with stainless steel track.
