

Hydrofarm—Tools for Growing

Dear Gardener,

We are pleased to present volume 16 of our Retail Catalog, featuring a new products section. Hydrofarm offers a wide range of value with over 5,000 great tools for growing.

For a complete directory of all the new products added, please see pages 2–23. Featured products include:

- **The Autopilot Digital PX1 Lighting Controller** provides centralized, dual-zone digital control of your DE lighting, allowing you to switch, dim and boost up to 512 USB-compatible Hydrofarm ballasts at once.
- **Phantom Ballast Commercial DE 1000W HPS e-ballast** features state-of-the-art microprocessor technology and operates on a 120, 208, 240, 277, 347, 480V, 60 Hz power supply.
- **Phantom CMh Reflector, Ballast and Bulb Kit** combines high efficiency, high intensity, and cutting-edge performance.
- **Sunburst CMh** pairs the amazing full-spectrum CMh lamp with the convenience and compact size of the Sunburst.
- **DE Reflectors** added to our lineup this year include the Raptor DE, Radiant DE, Hammerhead DE, and Xtrasun DE.
- **Sunburst 250/400W Adjustable Grow Light** is an efficient electronic ballast and reflector in one compact package.
- **Fluorowing Compact Fluorescent System** is now redesigned with a compact, sleek look and metallic film specular for even greater reflectivity!
- **Upstart Garden Mat** is simple to use—just roll the mat out on your prepared patch, staple it down, attach your hose, and plant the included 65 non-GMO “seed balls.”
- **Salad Box Passive Hydroponics System** is ideal for leaf crops such as loose leaf lettuce, romaine lettuce, basil, spinach, Swiss chard, leafy herbs, and more.
- **The oxyCLONE Pro Series System** is a simple, compact, recirculating cloning system now powered by Active Aqua’s premium, BPA-free water and air pumps!
- **Autopilot Desktop CO₂ Monitor** delivers accuracy, innovative features, and unbeatable affordability in one small, user-friendly CO₂ monitor.
- **Active Air Carbon Filters** are loaded with virgin activated Australian granular carbon.

Thank You!

Since 1977, quality and service have made Hydrofarm a trusted source in the indoor gardening industry. Your support and feedback have been instrumental in our growth. We thank you for the opportunity to be a part of your sustainable gardening experience and success.

autopilot®

Environmental Controllers

Seriously connected.

Experience centralized, dual-zone digital control—exclusively for Phantom DE lighting

AUTOPILOT DIGITAL PX1 LIGHTING CONTROLLER

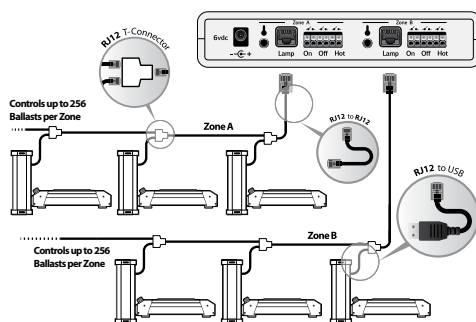

Now you can switch, dim, and boost multiple USB-compatible Hydrofarm ballasts* at once—up to 256 in each of two independent zones, for a total capacity of 512 ballasts. Trunk-line cable connections ensure perfect communication between the controller and all ballasts in the chain.

The PX1 has two dedicated temperature sensors—one for each zone—that provide real-time data for automated temperature-based dimming, as well as an emergency auto-shutdown of lights upon user-defined overtemperature events.

The PX1 replaces traditional analog lighting relays, and eliminates inrush current. Each of its dual zones provides precise and independent:

- Photoperiod timing to control light and dark cycles
- Wattage output control, which allows users to control the intensity of the light being emitted from fixtures
- Configurable restrike delay times to eliminate lamp-damaging hot starts
- Sunrise/sunset simulation settings to provide gradual ramp-up and down at both ends of your photoperiod

ITEM CODE	DESCRIPTION	SRP
APDPX1	Autopilot Digital PX1 Lighting Controller	\$299.99

For Complete Lighting System kits with ballast, reflector, and lamp, see page 47.

The Phantom Commercial DE 1000W HPS E-Ballast series was created with state-of-the-art microprocessor technology to utilize the industry's double-ended 1000W HPS lamps. All Phantom 40 Series Ballasts now feature USB connectivity that allows data communication with the optional Autopilot PX1 Lighting Controller (RJ12 connection cables and splitter are included). The power cord has also been redesigned with a ferrite collar that suppresses radio frequency interference.

PHANTOM CMh

CERAMIC METAL HALIDE REFLECTOR

PHANTOM CMh REFLECTOR, BALLAST AND BULB KIT

Hydrofarm's new Phantom CMh System combines our Phantom CMh reflector with the multi-voltage Phantom ceramic halide-specific digital ballast and the Philips double-jacketed Mastercolor 315W T12 ceramic metal halide lamp.

Ceramic metal halide technology represents a major advancement in HID evolution. These lamps provide high-quality growth spectrum, amazing PAR per watt performance, and extra energy in the ultraviolet range—which all contribute to increased crop quality. Excellent maintenance of PAR/PPF over long lamp life means great value and far longer re-lamping intervals.

High efficiency along with high intensity and cutting-edge performance make the Phantom CMh System a smart choice.

- Excellent PPF (Photosynthetic Photon Flux)—1.95 $\mu\text{mol/s}$
- Longevity—90% PAR output at 8,000 hours and 20,000-hour average life
- Horticulturally-optimized spectrum and increased UV promote enhanced plant quality
- Double jacketed lamp does not require reflector safety lens
- Digital ballast features low frequency, square wave technology
- Multi-voltage: 120/208/240V
- 95% reflective European hammertone aluminum specular

- Phantom multi-voltage ceramic halide-specific digital ballast
- Philips double-jacketed Mastercolor 315W T12 ceramic metal halide lamp

Super compact, all-in-one CMh lighting

SUNBURST CMh

The Sunburst CMh system combines two of our most popular products—the Sunburst and CMh systems—into a single unit that brings the benefits of ceramic metal halide lighting to the Sunburst's compact, all-in-one format. The Sunburst CMh has a built-in, square wave digital ballast designed specifically to run the 315W ceramic metal halide lamp, which in this system operates in the horizontal position. The reflector's interior is 95% European hammertone aluminum and offers excellent uniformity and diffusion.

RAPTOR® DE

High PAR output plus
super-wide light spread!

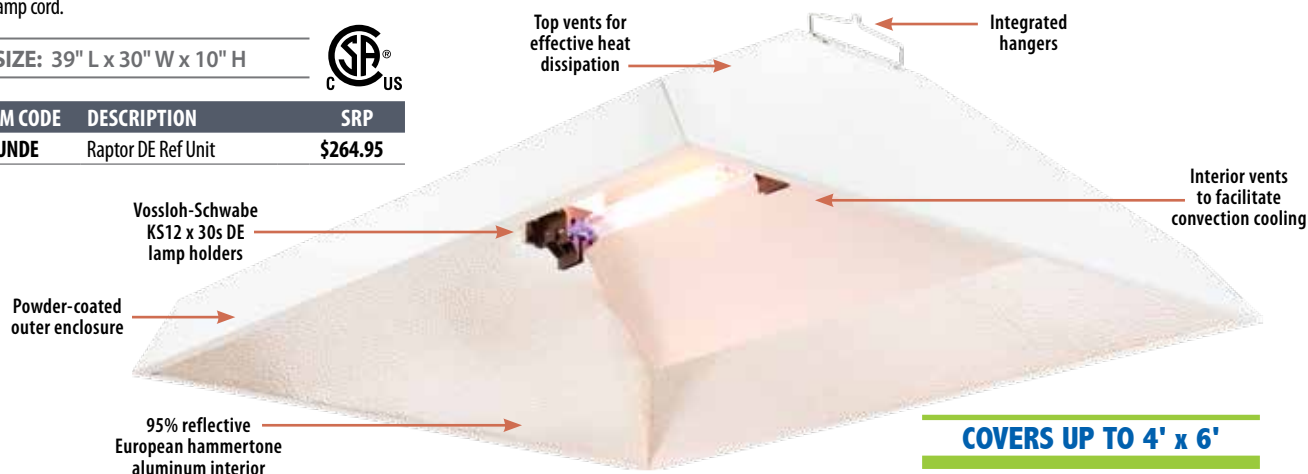

RAPTOR DE REFLECTOR

The Raptor 1000W Double-Ended Reflector combines the proven performance and design quality of our Raptor with the amazing intensity of DE lighting. The Raptor's super-wide light spread complements the high PAR output of DE lamps by distributing it with brightness and uniformity to your grow space. The Raptor DE provides ideal primary light coverage for up to a 4' x 6' area (depending on desired PAR levels). Integrated 15' lamp cord.

SIZE: 39" L x 30" W x 10" H

ITEM CODE	DESCRIPTION	SRP
RPUNDE	Raptor DE Ref Unit	\$264.95

RADIANT® DE

Efficient double-ended design offers longer lamp life and a more balanced light spread

RADIANT DE REFLECTOR

The Radiant's reflective interior is designed to deliver the brightest possible light down to your plants, while its patented double-wall design helps to keep it running cool. Its heavy duty pre-galvanized steel construction is lined with premium European aluminum for years of dependable growing performance.

- World's finest European reflective specular aluminum: 99.85% pure, 95% reflective
- Integrated 15' lamp cord
- Designed in conjunction with America's foremost lighting design engineers
- Includes instructions and lighting recommendations

SIZE: 21" L x 20½" W x 9½" H

HAMMERHEAD® DE

Lightweight and
low profile

PRO HAMMERHEAD DE REFLECTOR

The Hammerhead DE features wide light delivery in a super lightweight reflector. Patterned after our popular Raptor reflector, the Pro Hammerhead DE is made from highly reflective hammertone aluminum and is compatible with with double-ended lamps up to 1000W.

- 95% reflective European hammertone aluminum
- Efficient double-ended design offers longer lamp life and a more balanced light spread
- Double-ended K12 x 30s lamp holders
- Lightweight—only 7 lbs!
- Super compact box takes up little shelf space
- Includes built-in sockets and 15' cordset
- Folded and rounded corners
- Instructions and lighting recommendations included

NEW DE LAMP CHOICES!

XTRASUN® DE

XTRASUN 1000W HPS DE LAMP

An excellent choice for your double-ended High Pressure Sodium (HPS) system. Xtrasun lamps are engineered specifically for horticultural use, and offer exceptional performance. They consistently provide intense light in the correct spectral range for vigorous flowering growth and can even be used, if desired, throughout the full cycle (in both the vegetative and flowering phases). Your clear choice for HID lamps that provide long-lasting and reliable operation is Xtrasun.

LONG-LASTING
AND RELIABLE

ITEM CODE	DESCRIPTION	SRP
XTB5000	Xtrasun 1000W HPS Double-Ended Bulb	\$84.95

AGROSUN DOUBLE-ENDED 750W HPS LAMP

Ideal for cultivation with high light intensity requirements, this lamp delivers high proportions of red and blue light to guarantee efficient solid growth.

- High output of PAR light (1,450 µmol/s) promotes photosynthesis
- Lots of red light for strong plant development
- Blue light for a robust, compact plant structure
- Specifically designed for high frequency electronic ballasts
- Made in EU

250/400W GROW LIGHT

SUNBURST®

Cooler and quieter than any other compact system!

3 Year Warranty!
on ballast components

SUNBURST 250/400W ADJUSTABLE GROW LIGHT

The Sunburst is an efficient electronic ballast and reflector in one compact package. It delivers more usable light energy for maximum plant performance and operates at cooler, quieter levels than any other compact systems on the market. Accepts most High Pressure Sodium (HPS) and Metal Halide (MH) lamps, in 250 and 400 Watt models. The integrated ballast automatically senses which type of lamp it is running and operates accordingly.

- High intensity grow light with built-in digital ballast
- Switchable between 250W and 400W output
- Delivers excellent usable light energy for maximum plant performance
- Includes instructions, hangers and lighting recommendations
- Lamp sold separately

SIZE: 4½" H x 8¾" W x 17½" L

**SWITCHABLE BETWEEN
250W AND 400W LAMPS**

PHANTOM DIMMABLE DIGITAL BALLAST

High-precision microprocessor control—now with 250W/400W switching capability

PHANTOM 250/400W 120/240V

The Phantom PHB2040 Digital Ballast retains all of the reliability and engineering superiority of the Phantom II models and adds 250W/400W switching capability. Its industry-leading Smart Alert Technology utilizes a 32 MHz fully integrated microprocessor to keep your setup running smoothly. The Phantom PHB2040 has built-in hot re-strike programming to protect the lamp and ballast in the event of a temporary loss of power. The ballast will not attempt to restart a hot lamp for at least 15 minutes.

- Ignition voltage control
- Intelligent lamp ignition and power control
- End-of-life lamp protection and indication
- Intelligent lamp detection
- Precision thermal controls alert the user to high heat and overheat conditions
- Totally silent, energy efficient, reliable, and lightweight

Three-way output control:
Dim (85%),
Standard (100%),
and Boost (110%)

LIGHTING FIXTURES***

**Shown with Agrobrite Designer T5 fixture (available separately—see p. 61). Also compatible with FLT T5 fixture, JSF T5 strips, and other LED bars.*

Mounting holes for adjusting shelf height

Slots for mounting lighting fixtures

Brakes on two wheels keep the rack secure

Casters allow the rack to be moved smoothly in any direction

Maximize the grow space in your greenhouse or grow room!

HYDROFARM ROLLING BENCH SYSTEM

Eliminate the need for multiple costly aisles on your grow room floor. These space-saving benches allow you to roll your bench tops easily to create an aisle where you need it, when you need it. Our 4' x 8' rolling bench system is made of heavy duty galvanized steel and will maximize the grow space in your greenhouse or grow room.

The benches are designed to accept flood tables, expanded metal, or wire mesh bench tops and come with angled anchors to secure the table to the floor. The rolling bench has a unique design: connect the benches at the end to customize the length of the bench in 8 foot increments while maintaining smooth and easy rolling. The peaked roll bars allow for easier and smoother rolling while preventing soil, chemical and water buildup that can otherwise interfere with or corrode flat roll bars.

Our rolling bench system is constructed to prevent tipping while maintaining structural integrity that can hold a 200 pound concentrated load.

**HOLDS UP TO
30 LBS/SQ FT**

Features:

- 4' x 8' x 28 $\frac{3}{4}$ "
- Heavy duty construction with galvanized steel
- Connecting feature to allow for custom lengths
- Can handle 30 lbs/sq ft
- Unique channel to accept all standard 4' x 8' flood tables, expanded metal, or wire mesh bench tops
- Parts come with pre-punched holes and instructions

Includes:

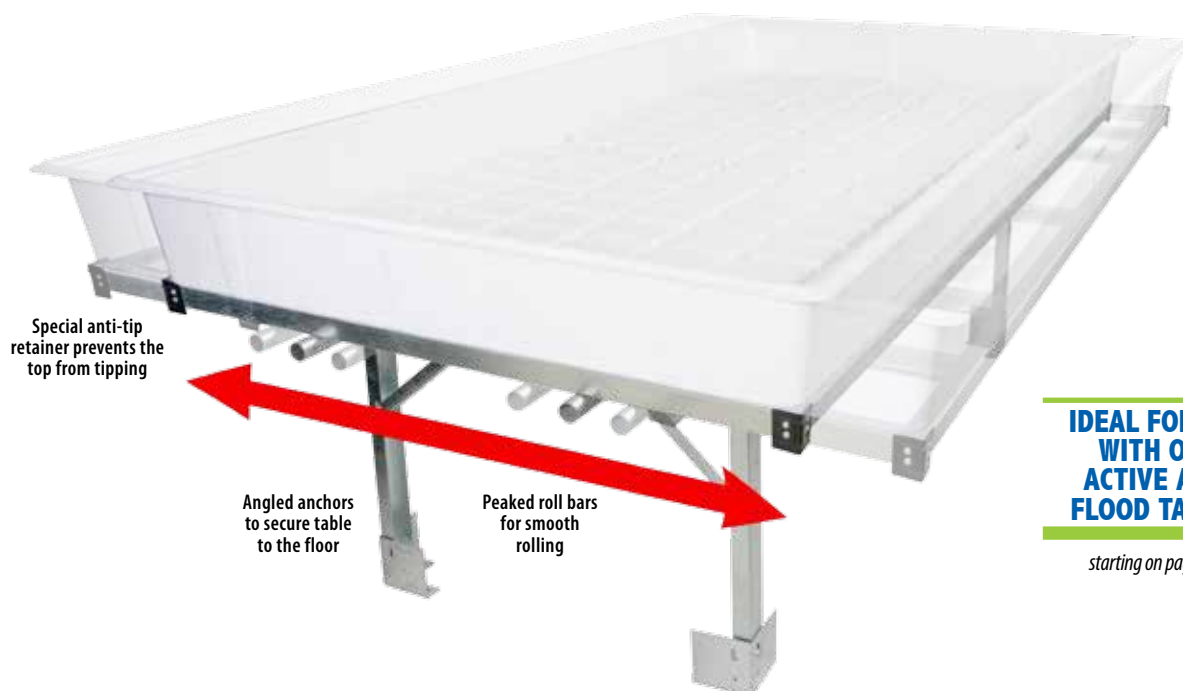

- Rolling bench system
- Angled anchors
- Peaked roll bars

SIZE: 28 $\frac{3}{4}$ " H x 4' W x 8' L

AGROBRITE COMPACT FLUORESCENT LAMPS

Agrobrite CFLs provide your plants with lots of usable light for best growth and yield. They emit very little heat, allowing you to place light close to your plants for maximum intensity. Because this lamp is self-ballasted, you simply screw it into your CFL reflector, giving you convenience and flexibility.

Daylight (6500K) – Ideal for propagation, side lighting, and vegetative growth.

Dual Spectrum (6500K/2700K)– Ideal for propagation, side lighting, and vegetative growth, as well as for flowering.

Warm (2700K) – Ideal for flowering.

LOW HEAT, MAXIMUM LIGHT INTENSITY

PRODUCTS from HYDROFARM

upstart GardenMat™

All-in-one planting mat
that Jump Starts your garden!

UPSTART GARDEN MAT

Simple to use—just roll the mat out on your prepared patch, staple it down, attach your hose, and then plant seeds using the included 65 non-GMO “seed balls.” Match the included herb, vegetable, and flower seed balls to the labeled mat and press them into the soil. Water by hand initially then irrigate daily for 10-15 minutes (or as needed) and watch them grow!

The Upstart Garden Mat™ blocks weeds and acts as a water saving mulch while the built-in soaker hose keeps watering simple. Get started growing your own food and herbs with the Upstart Garden Mat.

**INCLUDES MAT,
SEED BALLS,
AND BUILT-IN
SOAKER HOSE**

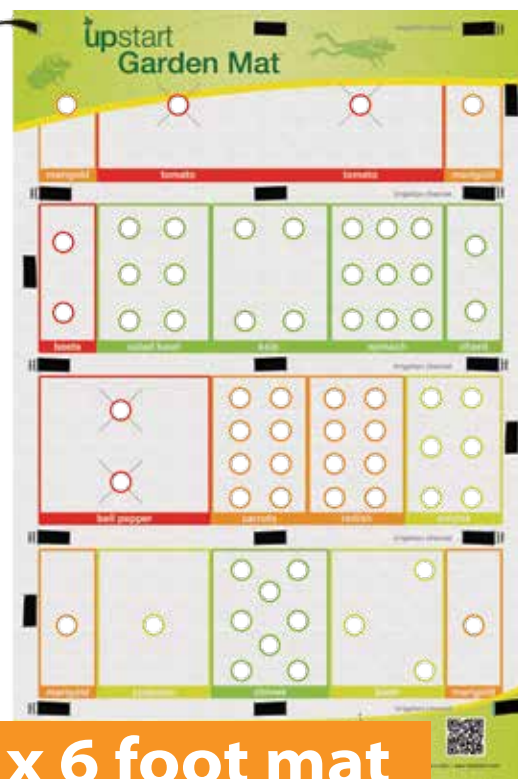

ITEM CODE	DESCRIPTION	SRP
JS90002	Upstart Garden Mat - 4' x 6' Complete Kit w/Mat, Seeds* & Hose	\$74.99

*Includes 3 basil, 2 beets, 2 bell pepper, 8 carrots, 2 chard, 8 chives, 1 jalapeño, 4 kale, 4 marigold, 6 onions, 8 radish 6 salad bowl, 9 spinach, and 2 tomato.

BENEFITS OF THE UPSTART GARDEN MAT:

- Optimum planting layout for 14 plant varieties
- Major reduction in garden setup time
- Built-in BPA-free weed barrier means low maintenance and better water retention—reduces water use by up to 70%!
- Built-in soaker hose
- Great educational tool to teach children the joy of gardening

**PLANT THE SEEDS...
AND SKIP THE WEEDS!**

4 x 6 foot mat

GREAT FOR RAISED BEDS

ELECTRONIC WATER TIMER

Simply attach the timer directly to your garden hose to automatically control sprinklers, drip systems or soaker systems. You can set the frequency of watering from 1 hour to 1 week, and the run time from 1 minute to 2 hours. Easy to use—no wiring required!

SALAD BOX™

SALAD BOX PASSIVE HYDROPONICS SYSTEM

The salad box is ideal for leaf crops such as loose leaf lettuce, romaine lettuce, basil, spinach, swiss chard, leafy herbs, and more. Soil-free—clean and easy. Up to 30% faster growth than soil. Extremely low maintenance—no electricity required. Great for indoor (under lighting) and outdoor use. Not recommended for fruiting/flowering plants.

SIZE: 19" H x 11¾" W x 22¾" L

ITEM CODE	DESCRIPTION	SRP
GCSB	Salad Box Hydroponic Salad Garden Kit	\$49.99

TRIM FAST™ BLADE LUBRICANT

Trim Fast Blade Lubricant is ideal for use on snips, trimming machines, and anywhere else a sterile, food-grade lubricant is required. Trim Fast's natural lubricant never goes rancid, and creates a faster, smoother cutting action while reducing buildup of waxes and resins. Safe to use with live plants. Helps maintain a sterile environment for pruning and propagation, reducing the risk of transferring pathogens between plants.

- Protects blades from dulling and corrosion
- Odorless and colorless
- Evaporates rapidly
- Speeds up trimming
- Reduces sticky buildup

dirt pot

Everyone's favorite fabric pot—new and improved!

DIRT POTS

Made from porous breathable fabric, Dirt Pots allow your plants to thrive, promoting exceptional root health and vigorous plant growth. The soft-sided construction allows the pot to conform to your terrain, making them the perfect choice for all growing areas. Our pots are stronger than similar products, with reinforced seams and strength-tested fabric, so they won't tear when supporting even the heaviest crop. Two colors to choose from — gray and tan.

ActiveAQUA
HYDRO CULTURE

Now you can use your Active Aqua water pumps three ways—
as a submersible, inline, or bottom draw pump.

ACTIVE AQUA BOTTOM DRAW PUMP ADAPTER

Active Aqua bottom draw fittings allow you to convert your premium submersible pump* into a practical bottom draw pump. No need to purchase additional sump pumps to remove that last bit of water in your reservoir or tank—simply connect your bottom draw fitting to the threaded inline port of an Active Aqua water pump. No more lifting heavy reservoirs to get rid of the stubborn remaining water!

- Available for submersible pump models between 250–1000 GPH
- Draw water from as low as 3/16" depth
- Adjustable lock height
- Steady flow rate
- No leaking

**EASY TO INSTALL—
NO TOOLS REQUIRED!**

ITEM CODE	DESCRIPTION	SRP
AAPBD075	Active Aqua Bottom Draw Pump Adapter 3/4" — AAPW250, AAPW400	\$3.45
AAPBD085	Active Aqua Bottom Draw Pump Adapter 7/8" — AAPW550, AAPW800	4.45
AAPBD100	Active Aqua Bottom Draw Pump Adapter 1" — AAPW1000	5.54

**DRAW WATER
FROM AS
LOW AS
3/16" DEPTH**

Environmental Controllers

AUTOPILOT DESKTOP CO₂ MONITOR

Accuracy, innovative features, and unbeatable affordability in one small, user-friendly CO₂ monitor. The Autopilot APCEM2 Desktop CO₂ Monitor features a clear display system that boasts a digital chart of memory-logged CO₂, relative humidity, and temperature readings over an adjustable 24-hour or 7-day period. With the industry-new feature Trend Chart, the device is able to trace the above quantities through past minutes, hours, or up to 7 days.

PATENT PENDING!

- CO₂/RH/Temperature monitor on a clear display
- Trend chart: shows variable Min/Hr/Day/Wk for readings of CO₂/RH/Temperature
- 2-Channel low drift NDIR (non-dispersive infrared) gas sensor
- Audible alarm for low/high CO₂ levels
- Comes with USB AC adapter and two micro USB cables for power

ACTIVE AIR™

DETAILS ON PAGE 430

ACTIVE AIR CARBON FILTERS

Active Air Carbon Filters are loaded with virgin activated Australian granular carbon. This carbon adsorbs VOCs (volatile organic compounds) therefore trapping every odor molecule that passes through the filter onto the microporous carbon surface. These filters are lightweight and incredibly effective at removing the most potent and dankest odors. Each filter is machine packed and includes a pre-filter.

- Attached flange
- 1.8" carbon bed depth
- Powder coated aluminum tops & bases
- 2-year life

COMES WITH 2 PRE-FILTERS

ACTIVE AIR™

PREMIUM DUCTING

Active Air Premium Ducting is made of tough 3-ply aluminum foil laminate. It is designed for air-cooling and can be used in different forms of heating and ventilation applications. This product is made to resist puncture and tears. One continuous and corrosion resistant helix wire is placed in the duct wall for structural support. Active Air Premium Ducting is perfect for the air-cooled reflectors in your grow room.

- Includes (2) EZ Turn duct clamps
- Air Pressure: Max 25 mm WG (2500 Pa or 10" WG)
- Air Velocity: Max 25 mm/sec (4900 ft/min)

GREEN CLEANER & ROOT CLEANER

Eliminate pests and pathogens, naturally—no respirators, gloves, or suiting up required. While Green Cleaner treats the foliage above ground, Root Cleaner takes care of the problems in the soil and root zone. It treats the issue of pest control in a safe and consumer conscious manner. Best of all, it solves the issue of “immunity” by killing eggs and preventing pests from becoming resistant to it.

- All natural
- Concentrated—never watered down for profit
- Pests can't build immunity to it
- No gloves, respirator, or suiting up required
- Kills pests and their eggs! No “product stacking” required
- Use from start to harvest

Green Cleaner kills spider mites and their eggs, aphids, whiteflies, all soft bodied insects, including the dreaded broad and russet mites on contact. It also washes off and eliminates powdery mildew.

Root Cleaner kills fungus gnats and their larvae, pythium and rhizoctonia, root rot and root damping-off, thrips, nematodes, root aphids, and more. For use in soil and coco.

Z7 ENZYME CLEANSER

Z7 is a super concentrated, two-part, proprietary probiotic enzymatic cleanser that cleanses the root system of bio-film and micro-sized particulates that can clog roots' semi-permeable membrane, making it easier for roots to transfer water, minerals and oxygen. Naturally brewed with 100% certified organic, natural or food grade ingredients. Contains no oils, detergents, soaps, surfactants, chlorine, hydrogen peroxide, colloidal silver, or harsh chemicals. Suitable for soil, hydroponics or aquaponics.

ITEM CODE	DESCRIPTION	SRP

FSMI015	Z7 Enzyme Cleanser, 5 gal	779.95

CLONE GUARD

Locks out pests while locking in water! Clone Guard dries to form a thin biodegradable proactive film that helps to keep clones safe by locking out invading insects, mildew and mold while locking in precious water molecules inside leaf and stem cells. Clone Guard allows the leaf to breathe but not to lose excessive amounts of water. Helps control broad mites, spider mites, whitefly, aphids, thrips, powdery mildew, black spot, and more.

ITEM CODE	DESCRIPTION	SRP
FSMI016	Clone Guard, 4 oz	\$11.95
FSMI017	Clone Guard, 16 oz	29.95
FSMI018	Clone Guard, 1 qt	49.95

70% NEEM OIL

OMRI Listed for Organic Gardening. A broad spectrum insecticide, miticide and fungicide that controls numerous diseases as well as insects and mites. Use on vegetables, fruit trees, ornamentals, etc.

EPA Reg. # 70051-2-54705

BI-CARB OLD FASHIONED FUNGICIDE

Potassium bicarbonate soluble powder for control of powdery mildew on roses, vegetables, grapes, fruit trees and ornamentals.

EPA Reg. # 54705-10

EPSOM SALTS

Promotes bloom in roses and other flowering plants. Absorbed through the roots and foliage of plant to help plant produce chlorophyll. OMRI Listed for organic gardening.

FLOREL BRAND GROWTH REGULATOR

This growth regulator prevents fruit formation on apple, buckeye, carob, crab apple, elm, flowering pear, horse chestnut, maple, oak, olive, sour orange, sweet gum/ liquidambar, sycamore and many more. Apply during full bloom. Controls both leafy and dwarf mistletoe. Also used on greenhouse ornamentals.

EPA Reg. # 54705-8

FOLI-CAL

Foli-Cal is a liquid calcium formulation based on 10% calcium acetate. For use on tomatoes, peppers, eggplant to prevent calcium-deficiency disorders such as blossom end-rot and bitter-pit in apples. Foli-Cal can be used on vegetables as well as tree and vine crops.

FRUIT TREE & VEGETABLE SOIL DRENCH

Apply once for season-long control of aphids, leafhoppers, whiteflies, foliage-feeding thrips, and other listed insects. For use on listed fruit and nut trees including citrus, apple, peach, cherry, and plum; vegetables including tomatoes, carrots, peppers, melons, cucumbers, and herbs; and berries including strawberries, raspberries, blueberries and grapes.

EPA Reg. # 53883-275-54705

MONTEREY B.T.

Kills caterpillar-type insects, but has no effect on birds, earthworms, or beneficial insects such as honeybees and ladybugs when used as directed. Caterpillars eat treated foliage, then immediately stop feeding and damaging plants. For use on fruits, vegetables, ornamentals and shade trees. Can be used on edible plants up to the day of harvest. OMRI Listed for organic gardening.

EPA Reg. # 70051-106-54705

MONTEREY GARDEN INSECT SPRAY

A bacterial product produced by fermentation, can be used on outdoor ornamentals, lawns, vegetables, fruit trees, etc. to control caterpillars, leafminers, codling moth, tent caterpillars, gypsy moth, thrips, borers and more. Also used to control fire ants in lawns and other outdoor areas. Fast-acting and odorless. Contains spinosad.

EPA Reg. # 62719-314-54705

MONTEREY ONCE A YEAR INSECT CONTROL II

This soil drench controls adelgids, leaf beetles, leafhoppers, mealy bugs, scale, whiteflies, borers, and many others for a full year on ornamental trees, shrubs and certain fruit and nut trees. No spraying, just use around the roots as a soil drench for full season insect control.

EPA Reg. # 228-525-54705

SLUGGO (IRON PHOSPHATE)

An alternative to traditional slug and snail baits, Sluggo® contains iron phosphate and can be used around pets and wildlife. This product is labeled for use in vegetable gardens up until harvest and remains effective after rain or sprinkling. New lower rate—1 lb covers up to 2,000 sq ft. OMRI Listed for Organic Gardening.

EPA Reg. # 67702-3-54705

SLUGGO PLUS

This formulation of Sluggo® controls slugs, snails, earwigs, sow bugs (roly poly), pill bugs and cutworms too. Sluggo® Plus can be used on ornamentals, vegetables, fruit trees, berries, turf and in non-commercial greenhouses. OMRI Listed for organic gardening.

EPA Reg. # 67702-24-54705

TAKE DOWN GARDEN SPRAY

Dormant and growing season insect spray that kills all accessible stages of listed insects and eggs, including exposed aphids, beetles, caterpillars, mealybugs, mites, leafhoppers, scale, thrips, fungus gnats, whitefly, and more. For use indoors on houseplants, outdoors on ornamentals and food producing plants, and in greenhouses.

EPA Reg. # 67702-5-54705

REMO'S BLOOM, GROW, AND MICRO

REMO Bloom, Grow, and Micro bring a quality and simplicity to your garden. These proprietary blends of macro and micronutrients provide your plants with the foundation needed to achieve maximized yield. REMO uses only pharmaceutical grade minerals, marine extracts and the finest chelates to ensure consistency and pH balance. Can be used in soil, soilless and hydroponic gardens. Proprietary blend of chelated micro and macro nutrients. Provides a balanced foundation for maximized plant flowering and growth.

GREENSCREEN PLANT GENDER ID KIT

The GreenScreen Plant Sex ID Kit is a plant sex identification kit that enables growers to identify the sex of their baby plants after only 2 weeks from germination!

- Kick-start your crop and avoid high plant numbers by eliminating males early
- Maintain an efficient crop by reducing unnecessary labor, energy costs and crop square footage
- Maximize your grow space

NOTE: Each Kit contains everything you need to send GreenScreen your imprints for up to 10 plants.

To access test results, a testing fee of \$24.99 per plant applies.

ITEM CODE	DESCRIPTION	SRP
RN71760	GreenScreen Plant Gender ID Kit, set of 10 tests	\$9.99

AZOMITE NATURAL TRACE MINERALS

AZOMITE® trace minerals help remineralize nutrient-depleted soils, for improved root systems, yields and general plant vigor. Azomite is 100% naturally derived and is OMRI Listed for use in organic production and farming. Azomite is odorless and is ideal for blending with other fertilizers and amendments to help meet a plant's nutritional needs.

ITEM CODE	DESCRIPTION	SRP
AM10044	Azomite Micronized Natural Trace Minerals, 44 lbs	\$45.95

EXHALE—THE ORIGINAL CO₂ BAG

The Original ExHale CO₂ Bag produces CO₂ 24 hours a day with no need to refill bottles or use expensive CO₂ production units. The mycelial mass inside the vented bag produces CO₂ and the microporous breather patch releases a steady supply of CO₂ for 6 months—guaranteed! On average our CO₂ bags will raise the CO₂ level by 500 ppm above ambient air levels. ExHale comes complete, simply follow the instructions and place the ExHale bag in your grow space and leave it alone to do its job.

ExHale can be used for both vegetative plant growth as well as for fruit and flower production.

ITEM CODE	DESCRIPTION	SRP
EX50001	ExHale Original CO ₂ Bag (128 cu ft/6 months)	\$33.95
EX50002	ExHale XL CO ₂ Bag (288 cu ft/6 months)	55.95
EX50003	ExHale 365 Self-Activated CO ₂ Bag (128 cu ft/9months)	34.95

WATER GARDEN

This 3-gallon fish tank is a closed-loop, self-cleaning ecosystem. Using the science of aquaponics, the fish waste naturally fertilizes the plants above, and the plants, in turn, clean the water for the fish. Great for small pet fish and growing fresh herbs. Includes 3-gallon tank, water pump, all-natural aquatic supplies, organic seeds, 5 grow pots, fish food, and a coupon for a 99 cent Betta fish from Petco.

ITEM CODE	DESCRIPTION	SRP
BRWG001	Water Garden	\$64.95

GARDEN-IN-A-CAN

Ready-to-grow cans that include organic seeds and nutrient rich soil with special moisture-balancing biochar technology to easily grow organic herbs right out of the can. No messy drainage holes, no chemicals, and no transplanting—just plant the seeds, water, harvest, and enjoy!

**EASY AND FUN—
JUST PLANT,
WATER & GROW!**

GORILLA GROW TENTS LITE LINE

The all new LITE LINE from Gorilla Grow Tent has been engineered for discerning customers that crave Gorilla quality, but are on a tight growing budget.

- Height adjusting with the patent pending adjustable extension poles (sold separately) allowing you to increase the height of your grow tent from 6'7" to 7'7"
- Dependable and durable canvas provides a safe and secure growing environment
- 100% steel interlocking frame
- Biggest zippers on the market
- Doorways and wraparound zippers offer 360 degree convenient access
- Diamond reflection technology
- Large 10" double cinching ducting ports
- Tool pouch, sturdy spill tray, and large EZ view windows
- Bug resistant adjustable micro mesh pre-filters
- Sturdy flood pool

EZ-CLONE 9-SITE SYSTEM

With a mere 10 inch footprint, this little unit packs quite the punch and utilizes the same great Aeroponic Misting Technology as our larger systems. It's perfect for cloning plants in small areas—the sleek design looks great and fits right in on any kitchen counter top. Made from durable ABS plastic and available in black or white. It's simple to assemble and operate, and is so small that it can be moved very easily, even while filled with water.

SIZE: 12" H x 10½" W x 10½" L

ITEM CODE	DESCRIPTION	SRP
EZCL9BL	EZ-CLONE 9 System, Black	\$119.95
EZCL9WH	EZ-CLONE 9 System, White	129.95

EZ-CLONE LOW PRO 128

Every aspect of this Aeroponic Cloning System has been carefully thought out and designed with the utmost passion, to produce the most effective and user friendly cloning system ever seen. The overall height has been reduced by four inches, while increasing the structural integrity of the new proprietary lid and reservoir. Now available in white, it is manufactured from durable UV protected HDPE plastic. The lid has alpha numeric symbols formed directly into the plastic, which allows simple identification of multiple strains of cuttings, and comes with four way finger slots for improved cloning collar extraction. The reservoir has an increased lip height, with an extended flange and drainage gutters, to ensure a leakproof design, and improved interface when opening the system to view cuttings. The waterpump has an extended baseplate and additional suction cups to prevent any possible tipping. It also includes four different colored cloning collars, and a sample set of new EZ-COCO cloning collars.

SIZE: 11" H x 25" W x 43½" L

POWERBOX®

POWERBOX LIGHT CONTROLLERS

Whether you are running one light, or 100 lights, be safe! HID lights consume tons of power, so building the proper electrical foundation is essential. By choosing a Powerbox® lighting controller, you eliminate many of the risks associated with running your operation.

- Heavy-duty construction with industrial-grade components
- Durable powder coated seamless steel enclosure with no holes or visible screws
- Programmable digital timer to control light cycles
- Battery backup to store programs during power outages
- Includes power cord (custom lengths available)
- Keyhole tabs for easy mounting
- Must be installed with a properly rated main circuit breaker
- Designed and manufactured in California

ELECTRONIC BALLAST EMI FILTER

The Ballast EMI Filter from Revolution is designed to suppress the electromagnetic interference (EMI) that radiates from the cables of poorly designed electronic ballasts. EMI can interfere with TV, WiFi, radio, and cordless telephone reception, creating an unintended nuisance to neighbors. The Ballast EMI Filter lets you address the EMI issue from inferior ballasts before it becomes a problem.

Experience the state-of-the-art in split air conditioner systems

MIRAGE AIR CONDITIONERS

These units have proven themselves throughout Europe, Africa, Australia, Asia and the Middle East for many years, and now we're proud to offer them to you. They offer many features that make them exceedingly well-suited for horticultural climate control.

Mirage inverter technology ensures lower operation costs, longer compressor life, and more effective room cooling than A/C systems of comparable price and capacity. The speed of its unique inverter compressor (double that of a conventional compressor) provides a much faster transition to your desired room temperature, automatically adjusting to changing conditions while using only the energy that is needed. The Magnum also features a special hydrophobic coating on the coils which prevents fungal and calcium buildup, as well as rifled copper coil lines which bring superior cooling efficiency.

- 5 year warranty on compressor (void if not installed by HVAC professional)
- 220V
- Includes 25' lineset
- Cooling temperature range: 5°F to 115°F
- Heating temperature range: -2°F to 75°F

MIRAGE QUICK CONNECT UNITS

Mirage Quick Connect units come with pre-charged line sets, making it easy to install the entire system yourself without needing to call in an HVAC expert to charge the unit during installation.

ACMA12, ACMA18, ACMA24

ACMA11QC, ACMA22QC, ACMA32QC

**QUICK CONNECT
UNITS AVAILABLE**

ACMA30, ACMA36

ALL UNITS FEATURE:

SMART MODE Automatically selects the proper operating mode according to current temperature in the room.

ON/OFF TIMER Set the timer to turn the unit off automatically when you are not home and turn on before you return.

CLIMATE BY ZONES Turn the desired area in your home into a comfortable place without wasting any electricity in any of the empty rooms.

R410A REFRIGERANT Environment friendly, next-generation refrigerant that does not contribute to ozone depletion.

AUTOMATIC SPEED Increase or decrease air flow automatically according to heat load in the room.

SAFE OPERATION In case of failure a monitoring system detects abnormalities and protects the unit from severe damage.

RELOAD SWING Nine different movement motions helps distribute air flow efficiently inside the room.

MEMORY FUNCTION High Density Memory retains all operation parameters, keeping your personal configurations safe.

HIGH EFFICIENCY Up to 40% savings on electricity costs over legacy A/C systems of comparable BTU specs.

REMOTE CONTROL Offers you a huge range of possibilities by pressing a button.
