FLAME GENIE™

A UNIQUE PELLET FIRE PIT EXPERIENCE
WITHOUT SMOKE, SPARKS, AND CLEAN-UP

Be captivated by the mesmerizing flames while adding a warm glow to your patio, campsite, or outdoor adventure. Flame Genie's smoke-free and spark-free features make it the perfect backyard, stream-side, or wilderness fire pit companion for all outdoor enthusiasts.

Easily assembled and easily lit, the Flame Genie's streamlined design and simple operation provide enjoyment in a matter of minutes. Its efficient use of pellet fuel makes the Flame Genie convenient, portable and not subject to firewood transportation restrictions. Magnified by secondary combustion, the Flame Genie's captivating visible flames and substantial heat output never fail to impress.

Relax with peace of mind knowing that Flame Genie's ash pan captures ash and ensures safety. When the fire goes out, it's out -- there's no spontaneous combustion!

Less Work. More Enjoyment.

FLAME TOWER AND FLAME CRADLE

FIRE ACCENTS TO COMPLEMENT
YOUR OUTDOOR LIVING EXPERIENCE

Illuminate any outdoor living space with the soft flickering light of the Flame Tower and Flame Cradle.

Portable and convenient to use, the Flame Tower and Flame Cradle burn any brand of fire log providing instant hassle-free enjoyment with an extended 3-4 hour burn time. Dancing flames develop immediately with each fire log's quick and easy ignition. No reason to reload – just set, light, and enjoy!

Use them independently as a focal point on your patio, at the beach, or around your campsite to enhance your space. Or, use them in combination with additional Flame Cradles, Flame Towers, and Flame Genies to define a larger outdoor living space.

Less Work. More Enjoyment.

Visible Flame	25-35 min.
Heat Time	60-90 min.
Initial Fuel Load	6 lbs. of pellets
Box Dimensions	14 1/4" x 7 7/8" x 14 7/8"
Box Weight	15 lb.
Pallet Qty	60
UPC	020729370239

FLAME GENIE™ INFERNO

FLAME GENIE INFERNO | STAINLESS STEEL

Model No.	FG-19-SS
Color	Stainless Steel
Product Dimensions	19" x 19" x 16 1/4"
Visible Flame	55-65 min.
Heat Time	2-3 hrs.
Initial Fuel Load	17 lbs. of pellets
Box Dimensions	21 5/8" x 10" x 19 3/4"
Box Weight	28 1/2 lb.
Pallet Qty	32
UPC	020729370215

FLAME GENIE™

FLAME GENIE | BLACK

Model No.	FG-16
Color	Black
Product Dimensions	13 1/2" x 13 1/2" x 12 1/2"
Visible Flame	25-35 min.
Heat Time	60-90 min.
Initial Fuel Load	6 lbs. of pellets
Box Dimensions	14 1/4" x 7 7/8" x 14 7/8"
Box Weight	14 1/2 lb
Pallet Qty	60
UPC	020729370185

FLAME GENIE™ INFERNO

FLAME GENIE INFERNO | BLACK

Model No.	FG-19
Color	Black
Product Dimensions	19" x 19" x 16 1/4"
Visible Flame	55-65 min.
Heat Time	2-3 hrs.
Initial Fuel Load	17 lbs. of pellets
Box Dimensions	21 5/8" x 10" x 19 3/4"
Box Weight	27 1/2 lb.

DESTINATION OUTDOORS

HY-C is committed to making your Outdoor Living experiences more enjoyable. As outdoor living enthusiasts, we value the community and comradery that are built around the fire and desire to create products which enhance your outdoor gatherings. All of our Outdoor Living products are manufactured in the USA, and are fully supported through our dedicated local customer service team.

KEEP THE FIRE BURNING

LOAD AND RE-LOAD YOUR FLAME GENIE

Step One | Fill the inner burn chamber of your Flame Genie fire pit with premium hardwood pellets up to the bottom of the interior fill-line indicator holes. Do not over-fill.

Step Two | Evenly distribute your premium hardwood pellets around the interior of the Flame Genie burn chamber ensuring they do not cover the fill-line indicator holes.

Step Three | Apply pellet gel or lighter fluid in a circular motion working from the center of the pellets to the perimeter wall. Carefully light the pellets in several locations. The fire will quickly build, providing near immediate enjoyment.

Periodically scatter additional pellets over the surface of the ignited Flame Genie to maintain burning. Pellets should be added while flames are visible. Do not smother the fire by adding too many pellets at one time.

SCAN ME

LOAD YOUR FLAME TOWER AND FLAME CRADLE

Flame Tower | Place any brand of fire log vertically into the Flame Tower chamber and light according to fire log instructions.

Flame Cradle | Place any brand of fire log horizontally into the Flame Cradle chamber and light according to fire log instructions.
