

PRODUCT GUIDE | 2016

WHAT WE DO

Harper Brush has been making brushes and brooms in America since 1900. Based in the heart of America, Harper's Fairfield facility in Iowa uses **quality components** to build products that **stand the test of time**. Known for their trademark painted ends on their brooms, Harper products are easily identified by people who know quality craftsmanship. Now a part of Cequent Consumer Products, Harper has the heritage and quality to provide brooms and brushes for heavy duty users across the globe – for durability YOU can rely on, chose the painted ends!

DURABILITY PROS RELY ON

Tough, reliable and hardworking, every product we manufacture is "Pro-Perfected". Manufactured in the USA, our products have the features that set the bar high when it comes to quality and durability. Successfully combining old-fashioned quality with 21st century innovation, we've taken full advantage of technological advances to streamline business operations and enhance our products while continuing to focus on how it all began—an American reputation steeped in quality and integrity to create Durability Pros Rely On.

Our extensive line of high-quality, heavy-duty cleaning tools meet the needs of any customer. Whether the cleaning project is light dust or gravel, liquids or sludge, Harper® has the right tool to tackle the job.

UTILITY BRUSHES

Whether it's a large, small or difficult-to-reach area, Harper® utility brushes feature a variety of quality synthetic and natural fibers for every cleaning need. Our extensive assortment includes everything from handheld scrub brushes and outdoor deck brushes to indoor counter brushes. From gentle light-duty washing to detailed cleaning and acid-resistant brushes for heavy duty scrubbing, Harper has a Utility Brush for every cleaning need at home or in an industrial workplace. Each is constructed with quality materials tested and engineered to meet the demands of a professional, and feature an ergonomic, easy grip block or our patented finger-groove handle for quick, efficient and comfortable cleaning.

WASH BRUSHES

Built to remove the toughest grime, but soft enough to use on the finest finishes, Harper® wash brushes are made to retain water and perform well when immersed for long durations even when used with the harshest cleaning solutions. Available with a variety of fiber bristle types for multiple uses — best-in-class nylon, premium polyester, or gentle polystyrene. Designed for commercial uses or when cleaning RVs, trucks, motor homes, windows, siding and more. So, whether it's a large area or a hard-to-clean space, Harper has a wash brush to fit any cleaning need to get the job done right.

 **ENGINEERED FOR PROFESSIONAL DAILY USE**

BROOMS

- Corn Brooms
- Angle Brooms
- Upright Brooms

Harper has three families of quality brooms to choose from, each designed and engineered to get the job done right. Need to sweep up pet hair and crumbs in the kitchen? Doing spring clean-up in the garage or outside on the patio? Need to do some detailed cleanup on the job site? No matter what the location, the surface or type of debris, there's a Harper broom designed to meet the challenge- at home, in the yard, or on the job site.

ENGINEERED FOR PROFESSIONAL DAILY USE

CORN BROOMS

FLOOR SQUEEGEES

Whether you're cleaning a pool deck or patio, garage or warehouse bay, Harper has a squeegee to move water, liquid debris, snow and slush. There's a tool designed for any task, from light duty for the home to heavy duty for professional daily use. Multiple materials and designs are available, making every job an easy one.

Unique to the Harper line of squeegees is the PowrWave® with its patented Fluid Control System. Liquids are moved forward in a powerful wave-like action, making cleanup a breeze.

 **ENGINEERED FOR PROFESSIONAL DAILY USE**

FLOOR SQUEEGEES

Fluid Control System
Pushes liquid forward better than conventional designs

1524224A

Squeegee View

- PowrWave® patented design
- Dual sided, extra-durable rubber blades
- Gated squeegee creates a Fluid Directional Control
- 40% more effective than traditional squeegees at moving liquid forward
- Extra-strong plastic frame
- Best for semi-smooth to smooth surfaces indoors or out
