

Crowne Slate™

IKO.COM

IKO CROWNE SLATE DESIGNER SHINGLES

Before the first lullaby; before training wheels, summer camps and the big job promotion; ahead of summer vacations and high school graduations – there was one thing that mattered most: safeguarding your family members by providing a roof over their heads.

Many of life's most memorable moments unfold under the **UNCOMPROMISING PROTECTION** of your roof.

Since 1951, IKO has been there for North American families just like yours, quietly enduring the elements to protect families, homes and everything dear – while providing the luxury of not having to worry.

Now that it's time to replace your roof, don't take it for granted. Keeping your family comfortable and safe is just as important now as ever. And it's important to choose roofing products that not only look great, but also can go the distance. At IKO, four generations of family-owned-and-operated experience go into every product we make. The result? **Beauty you can see. Quality you can feel. And performance you can trust. Because at IKO, it's not just roofing. It's roofing elevated.**

BEAUTY YOU CAN SEE

Your home truly is your castle. Crown it with the look of slate, not the worry.

You've put great thought and care into the choices you've made inside your home – the high-end finishes, quality furnishings, perfect paint colors. When it's time to think outside the home, indulge in the luxury of IKO Crowne Slate designer laminated shingles.

Because nothing will elevate your home's appearance like a new roof with the upscale, sought-after look of genuine slate tiles. IKO Crowne Slate shingles mimic real stone, from the texture and subtle color gradations found in nature to the sharp definition that creates the look of individually square-cut, hand-hewn tiles.

Their generous 10" exposure and dimensional thickness combine beautifully to create an extremely high-definition, gracious appearance. Best of all, you can enjoy the sophistication of genuine slate without its worries and expense.

Can't decide on a shingle color? IKO **ROOFViewer**® to the rescue!

IKO's exclusive **ROOFViewer**® interactive shingle selector tool available at IKO.com, lets you mix 'n' match our shingles based on home style, color of siding and other elements. Or upload a photo of your actual home.

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our **ROOFViewer**® tool may not accurately reflect shingle color and do not fully represent the entire color blend range, nor the impact of sunlight.

QUALITY YOU CAN FEEL

You can tell at a touch that IKO Crowne Slate shingles have enduring qualities. We built them to last by laminating two shingles together. Then we coated the lower one ("shim") with oxidized asphalt and saturated the upper one ("lid" or "cap") with IKO's own modified asphalt. The result? A superior dimensional thickness designed to help create the stunning look of natural stone.

Try giving one a bend and you'll see how this shingle will remain flexible to resist warping and breakage, even in extreme cold. To top these shingles off, we embedded the surface with special colorfast granules that help protect against the damaging effects of UV radiation.

We take quality to a whole new dimension.

TOUGH TO THE CORE.

The strength of our shingles starts within thanks to our resilient fiberglass mat, coated top and bottom with weathering asphalt, then surfaced with colored granules.

AN EXCEPTIONAL BONDING EXPERIENCE.

Our shingles have IKO's FastLock® sealant along their bottom edge that helps prevent wind-driven rain from getting underneath them. When activated by the sun's heat, it gets extra tacky and creates an even stronger bond to help ensure maximum protection against wind uplift, blow-off and water infiltration.

BUILT-IN ALGAE RESISTANCE.

We embed colorfast algae resistant granules into our shingles to help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks and discoloration.

EXTRA COATING OF WEATHERING ASPHALT.

IKO's own modified asphalt provides exceptional flexibility to help resist the ravages of high wind, driving rain, snow, ice, and temperature extremes.

PERFORMANCE YOU CAN TRUST

Above all, IKO Crowne Slate is a brilliant performer.

We designed our shingles to be strong, tough and durable. To lie flat and stay put to protect your home against heavy winds, snow and relentless rain. That's performance you can count on. And the peace of mind your family deserves.

Weather life's storms
in total confidence.
IKO Crowne Slate has
you covered.

THE IKO ADVANTAGE

Limited Warranty ¹	Limited Lifetime
Iron Clad Protection ¹	15 Years
Limited Wind Warranty ¹	110 mph (177 km/h)
Limited High Wind Warranty Upgrade ^{1,2}	130 mph (210 km/h)
Blue-Green Algae Resistant ¹	Yes

PRODUCT SPECIFICATIONS³

Length	39 1/2 in (1003 mm)
Width	13 1/4 in (336 mm)
Exposure	10 in (254 mm)
Coverage Per Bundle	25 ft ² (2.32 m ²)

STANDARDS⁴

ASTM D3462, ASTM D3018, ASTM D3161 – Class F,

Shingles must be applied in accordance with application instructions and local building code requirements. ²High Wind Application is required. ³All values shown are approximate. ⁴Products developed with reference to these Standards.

We've left no stone unturned in our quest for the ultimate look of natural slate.

We challenge you to look at a genuine slate tile roof (perhaps on an historic building) then compare it to a roof

shingled with IKO Crowne Slate. From the nuanced colors to the shape of the "tiles", the resemblance is uncanny.

IKO quarries, crushes, and colors its own stone. Then these colored granules are expertly mixed to create a color blend that's just right to make an impressive statement for any style of home.

Two stunning color blends to tempt you. Each color blend is a visual symphony of individual color tones that emulate the natural variations of designer slate. In concert with the extra-large exposure of these shingles, your roof will be "slated" to stir the senses like never before. The affordable price will be music to your ears too.

Color Featured: Regal Stone

Color Featured: Regal Stone

Color Featured: Regal Stone

Natural slate shows its true colors in our blends.

While we usually think of slate as being grey, black or brown, Mother Nature has also produced it in hues that include varying shades of red, green and even cyan (blue).

We've followed her lead, to bring you truly unique and uncommon color blends.

REGAL STONE

Classically elegant, charming, refined, yet welcoming.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially white, beige or grey).

REGAL STONE

Look before you make the leap.

It's important to select a color blend for your roof the same way you'd select a paint color for a room in your home. Like a paint chip, an actual sample of our shingles

will help you decide when you see how the colors change their appearance according to varying degrees of light.

ROYAL GRANITE

Authentic, down-to-earth, unexpectedly dramatic.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially cream, beige, brown or red).

ROYAL GRANITE

Color Featured: Royal Granite

Do you want your home to blend in or stand out? IKO Crowne Slate shingles will elevate the look of any style of home and potentially boost its resale value as well. Whether you want an impressive, dramatic roof or one that quietly complements your natural surroundings, you've just met your match.

Shingles are your home’s first line of defense, but they protect, perform and look their best installed with the recommended **IKO Proformax Integrated Roofing Accessories** shown below.

DECK PROTECTION	SYNTHETIC UNDERLAYMENT	ROOF STARTERS	CAPPING SHINGLES
-----------------	------------------------	---------------	------------------

**1. IKO GoldSeam™
Roof Sealing Tape**

- 1a.** Apply where the fascia and eaves meet.
- 1b.** Apply over seams when sealing the deck using synthetic underlayment.

**ArmourGard™
or GoldShield™
Ice & Water**

- 1c.** Apply under shingled roofs to prevent water infiltration due to ice dams and wind-driven rain.

2. RoofGard-Cool Grey™

It’s lighter and easier to handle, making it faster to install. The synthetic, nonbreathable material provides a superior slip-resistant surface. It’s easy to install around vents, dormers, and other roof structures. And since it’s grey instead of black, it absorbs less of the sun’s radiant heat.

**3. Leading Edge Plus™
or EdgeSeal®**

Apply starter shingles with IKO’s own high-strength thermally activated sealant or use the double-sided starter roll at eaves and rakes to help ensure wind resistance at that critical first course of shingles.

4. IKO UltraHP® / IKO UltraHP® IR

Our specially constructed ridge cap shingles are designed to provide a high-quality alternative to using cut-up roof shingles to protect this important area. The “HP” stands for “High Profile,” which means that they’re also designed to add dimension, depth and texture to your roofline and rakes.

To find out more about Crowne Slate Designer shingles or additional IKO products, please talk to an IKO sales representative or a professional roofing contractor, or contact IKO directly.
