

DECORATIVE FLOOR FLAKES EGF-XXX

Features

- Colorfast, UV stable pigments
- Interior/Exterior use
- Optimal flexibility & strength
- Easy-to-use sprinkle top

General Description

Insl-x® Decorative Floor Flakes are made of water-based resin materials, inorganic minerals, additives and various pigments. This unique product is integrally pigmented, brilliantly colored, and random in shape, sized within a standardized range and custom blended with infinite options to achieve optimal appearance and texture qualities in a wide variety of floor coatings.

Recommended For

Garage floors, showroom floors, driveways, patios, laundry room floors, pool decks, basements and more.

Limitations

- Decorative Floor Flakes are random in shape due to the manufacturing process
- A small amount of finer particles will be present within each container

**KEEP OUT OF REACH OF CHILDREN
PROTECT FROM FREEZING**

**Refer to Safety Data Sheet for
additional health and safety information.**

Technical Data◇

Black

Application

Apply your choice of flooring product (according to instructions) in sections of about 3 feet by 4 feet starting in a corner and working toward the open end of the floor. Sprinkle the decorative flakes onto the wet paint to get the look you desire. (Do not wait more than 10 minutes before applying the flakes to the first section).

Gently toss the flakes up and let them drift down into the wet paint. Then, paint another 3 foot by 4 foot section adjoining the first and sprinkle flakes on that section as desired. Continue to paint the entire floor in sections, sprinkling the flakes as you go.

Coverage per 12 oz. container at Recommended Distribution Rate	20 – 150 Sq. Ft.
--	------------------

Coverage rates vary depending on customer preferences and application techniques. Insl-x does not guarantee exact coverage rates.

Storage

Store Insl-x® Decorative Floor Flakes in an air tight poly-bag in a dry environment at room temperature to avoid moisture, humidity and product against degradation.
