JACKSON*
SAFETY Brand

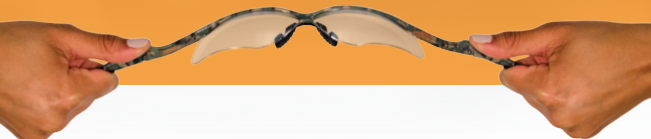

STYLISH COMFORT. LASTING PROTECTION.

There's a reason why Jackson Safety* Nemesis* Eyewear is one of the top-selling brands in North America and the most popular line in the Jackson Safety* Eyewear portfolio. MAKE THAT SEVERAL: comfort, style, durability, and a range of options to address individual needs. Like color choices. Different size frames. Vision assistance. They all affect how workers look and feel in protective eyewear – potentially tipping the scale between protection and injury. Why take a chance on anything else? Choose this trusted brand to enhance safety and productivity in your workplace.

COMFORT, STYLE, AND DURABILITY

These three attributes can have a major impact on compliance because, in many cases, workers will risk injury rather than compromise how they look and feel.

THE CONCERN? Becoming one of the estimated 2,000 workers who sustain a job-related injury every day.¹

Unsurpassed durability is just what you'd expect from a trusted leader recognized for high-quality, reliable eyewear²
