1840EVS WOODWORKING LATHE

- Sliding headstock includes newly designed locking handle accessible from the front of the lathe
- Extended spindle nose houses dual headstock spindle bearings
- Four-inch cast iron risers allow user to adjust height of lathe for maximum comfort
- Improved tailstock quill locking mechanism incorporates an anti-rotation key
- Tailstock features ACME threads for smooth and durable movement
- Banjo uses non-marring, positive locking wedge system to securely hold tool post
- Tool post locking mechanism designed for years of consistent strength
- Remote emergency stop button can be situated along the lathe bed
- Spindle lock latch frees up both hands
- Variable speed from 40–3200 RPM
- 36 integrated indexing positions
- Convenient leg-mounted tool holder

\$2,649.99

LATHE GUARD

- Mounts on bracket to headstock
- Easily flips away when not in use

TAILSTOCK SWING AWAY

- Heavy-duty tailstock quickly swings out of the way
- Securely locks to the lathe bed with a few turns of the handle
- Fits JET 14" and larger lathes

20" EXTENSION BED WITH POST

- Extends turning capacity up to 60"
- Tool rest post included

1221VS WOODWORKING LATHE

- Unrivaled speed control
- 60–3600 RPM variable speed
- Optimally designed speed ranges
- Forward to reverse is a smooth transition
- Innovative ratchet style belt tension system
- Integrated, spring-loaded spindle lock
- Conveniently located controls and DRO
- 24 integrated indexing positions

10" VARIABLE SPEED WET SHARPENER WITH ACCESSORIES

- Enclosed motor housing keeps debris and water from entering the machine
- Variable speed (90-150 RPM) allows for precise applications
- Built-in drawer offers convenient jig storage
- Water cooled stone grinding wheel prevents tools from overheating
- Leather strop removes burrs and leaves tools refined to a polished razor edge
- Aluminum oxide grinding wheel is 10 inches in diameter and a 2 inch surface for increased capacity
- Deep well trough reduces splash while keeping the stone cool
- Perfect for wood turning chisels, knives and hand carving tools
- Compliment to our market leading JET Lathes
- Accessories included: A 220 grit 10 inch aluminum oxide grinding wheel, leather strop wheel, support arm, stone grader, straight edge jig, leather honing compound, angle measuring device and chisel angle jig

8" WOODWORKING BENCH GRINDER

\$269.99

STOCK NO. 726101

- 1725 RPM, optimal for sharpening common tool steels
- Fits two 8" grinding wheels (not included)
- Oversized tool rests with integrated angle indicator
- Machined tool rest surface with reference lines
- Durable cast iron wheel covers
- Built-in spark arrestors

STOCK NO.	DESCRIPTION	PRICE
726101	8" WW Bench Grinder	\$269.99

BENCHTOP MORTISER

\$399.99

STOCK NO. 708580

- Heavy-duty cast iron and steel construction provides durability and stability during use
- Dependable rack-and-pinion head adjustment gives you accurate position control
- Long, multi-position mortising handle lets you reposition the feed handle for easier operation and optimum handle position
- Three-jaw drill chuck keeps a positive grip on mortising bits with up to 3/8" diameter shanks

WOODWORKING DRILLS

17" DRILL PRESS

- Spindle travels a full 5" with one revolution of the handle
- Large 14" x 19" precision-ground work table features twin T-slot grooves and 4 table slots to accommodate any project
- One-handed belt tensioning allows for rapid speed changes
- Power switch features a safety key and large, paddle-style off button
- Integrated depth stop makes repetitive drilling quick and easy
- XACTA®-X™ Precision Laser System easily identifies the drill center
- Long-lasting, built-in LED work light reduces shadows
- Table edge lip designed to make clamping easy
- Replaceable MDF table insert
- Large cast iron base provides stability
- Powered by an efficient 3/4HP, 1PH, 115V TEFC motor and poly-v belt drive system

WOODWORKING SANDERS

2244 OSCILLATING DRUM SANDER

- Exclusive variable speed oscillating drum moves from left to right—minimizing visual scratch patterns in workpieces and increasing the lifespan of abrasive paper
- Sandsmart™ control continuously monitors the load on the drum motor and automatically regulates the speed of the conveyor motor to maintain the highest feed rate without overload
- Dust hood includes a patented integrated channel that mirrors the shape of the drum and directs chips and dust to the 4" collection port
- Conveyor bed parallelism is easily adjusted by turning the dial on the outside of the bed - no tools required
- Redesigned conveyor system pulls the work piece through the sander instead of pushing

2550 DRUM SANDER

- Sandsmart™ control continuously monitors the load on the drum motor and automatically regulates the speed of the conveyor motor to maintain the highest feed rate without overload
- Conveyor bed parallelism is easily adjusted by turning the dial on the outside of the bed - no tools required
- Parallelism adjust dial features a stop to quickly return the conveyor bed to a flat position
- Dust hood includes a patented integrated channel that mirrors the shape of the drum and directs dust to the 4" collection port
- Precision-machined and dynamically balanced extruded aluminum drum is designed to dissipate heat to extend the life of the sandpaper as well as protect the work surface from heat damage
- Die cast drum carriage design is optimized for rigidity to provide years of consistent quality
- Precision-flattened reinforced steel conveyor bed

OSCILLATING SPINDLE SANDER

- Baffles create a chamber under the table for improved dust collection
- 4" dust port connects to your dust collection system to keep your work area clean
- Spindle lock for quick and easy spindle changes
- Table tilts 45° front and 15° back and features a 90° quick index
- Integrated storage provides designated slots for spindles and table inserts
- Sealed access door minimizes dust in the storage area
- 1-1/2" oscillating action reduces friction heat to protect wood and prolong sleeve life
- Main spindle support runs on precision ball bearings and is oscillated by a heavy-duty worm and gear mechanism for consistent performance
- Integrated paddle switch with safety key
- Powerful 1HP motor is independently mounted inside the base for easy access and service

\$1,699.99

WOODWORKING DUST COLLECTION

CYCLONE DUST COLLECTORS

- The Cyclone's two-stage separation provides more working CFM than comparable horsepower single-stage units
- Heavy debris is pulled down to collection drum before debris stream reaches the filter, providing constant suction
- Direct-mounted filter allows unrestricted airflow, increasing system efficiency
- Fine dust particles are filtered through pleated material that captures even the smallest particles down to 1 micron and below
- Heavy debris is captured in steel drum with quick release levers and independent casters for quick emptying
- Radio frequency remote control turns on dust collection from up to 50 feet away
- Remote timer settings allows system to run for 2, 4, 6, or 8 hours before automatic shutoff (2HP and 3HP models only)
- Double-paddle manual cleaning system quickly cleans the pleated filter
- Swivel casters make it easy to move the unit around the shop

VORTEX CONE® DUST COLLECTORS

- Industrial-quality construction effectively handles collection of wood chips and sawdust
- Quick-install collection bag makes emptying and re-attaching a snap
- Single-stage design for economical and quiet operation
- Includes four casters for maneuverability and total portability
- High-air velocity (CFM) design stands up to any competitive specifications
- Permanently lubricated, totally enclosed, fan-cooled motors are rated for continuous-duty
- Optional canister filter offers superior dust collection by capturing particles as small as 2 microns
- Optional remote control is radio frequency, no need for line of sight to turn machine on and off

WOODWORKING SAWING

15", 18", 20" STEEL FRAME BANDSAWS

- Large resaw capacity for cutting large pieces of wood, slicing veneers, and cutting book-matched panels
- Precision-ground cast iron table for added stability and work support
- Fence system features a micro-adjustable, dual-position side plate
- Tool-less, independently adjustable, upper and lower ball bearing guides
- Rigid, four-sided guide post with rack and pinion adjustment for optimum blade support
- Easy-to-read blade tension scale can be viewed through upper door window
- Single knob adjustment simplifies the blade tracking process
- Blade tracking window provides clear view of blade during tracking
- Heavy-duty tensioning with quick release features three settings: full tension, partial tension, and full release
- Cast iron trunnion for maximum support and stability
- Slotted table allows for front blade removal
- Cast iron handwheels and ergonomically designed knobs make adjustments smooth and easy

PERFORMANCE

A two-row 14 carbide blade cutterhead for a smooth, clean cut.

QUALITY

Cast iron fence *and* table give exceptional stability to this benchtop jointer.

VERSATILITY

Cast iron fence tilts +/- 45°, with locks at -45°, 90°, +45° and includes internal chip/dust blower with bag.

8" JOINTERS

- Available with high-speed steel knives or helical cutterhead for a superior finish
- Extra-long, heavy-duty cast iron infeed and outfeed tables with precision-machined finish
- Large chrome handwheels and easy-to-reach locks make table adjustments less of a hassle
- Tall, rigid fence provides added support
- Two-way tilting fence with positive stops at 45° and 90° to handle bevel operations
- Magnetic controls provide long life and reliability, protecting the motor from potential electrical supply issues
- Built-in 4" dust chute connects to your collection system for efficient dust/chip disposal
