

# JET FLIP TOP BENCHTOP MACHINE TABLE

728200

JET Flip Top Benchtop Machine Table is the perfect solution for almost any benchtop machine. With 5 inches of height adjustment, benchtop machines can be located at their optimal height for the user. The large 20 x 25 in. table top can hold up to 300 lbs and two machines. The ergonomic side handles pull out to flip the table and lock back into place. Designed for two benchtop machines to be stored on the same stand. Requires TWO benchtop machines to safely balance the top when flipping. Requires TWO benchtop machines to safely balance the top when flipping.

## FEATURES

- Bolt two machines, one on either side of the flip top, for maximum storage.
- Ergonomic handles on either side make rotating and locking the flip top easy.
- Fits many JET benchtop machines.
- Steel construction with solid top holds up to 300 pounds.
- Table height is adjustable from 30" to 35".
- The table has a 20" x 25" work surface.
