***PREMIUM STORAGE SOLUTIONS***

**THE LEADER IN SECURITY, STRENGTH AND DURABILITY  
FOR ON-SITE, SAFETY, AND TRUCK STORAGE**

# At JOBBOX we understand the importance of protecting your equipment.

Whether it's protection from theft, shelter from the elements, or improved on-site safety, JOBBOX on-site and truck storage solutions offer superior strength, security, and durability. We utilize innovative design, in-depth research, cutting-edge technology, and extensive testing to continually improve the performance and value of our products.

- **JOBBOX On-Site Storage Solutions** provide premium protection for valuable tools and equipment with features like our Site-Vault™ Security System, EZ-Loader® Skid Bolsters, Staked and Welded Hinges, and Heavily Reinforced Lids.
- **JOBBOX Truck Storage Boxes** offer ultimate security with our Self-Adjusting Dual Rotary GearLock II™ Latching Mechanism, RSL® Deep Beveled Edge Lids, and Industrial-Grade Steel Hinges.
- **JOBBOX Flammable Storage Cabinets and Cans** add improved safety and superior heat and fire resistance to legendary JOBBOX quality, security, and durability with innovative features like EZ-Level™ Bolsters, Bright White Cabinet Interiors, Anti-Tip Bolster Design, and Fork Lift Capability.

◀ PREMIUM FEATURES ▶

## EZ-LOADER®

### SKID BOLSTERS

- Patent-Pending Skid Bolsters provide time-saving and safety features
- Easily load or unload from any side on trucks, trailers, or docks
- One-piece 7-Gauge Steel Skid Bolsters reinforce the bottom of box for heavier loads and protect from drops

SEE THE  
▶ VIDEO

### STAKED & WELDED HINGES

- 14-Gauge Steel
- 3/8" Continuous Hinge with 1/4" Steel pin and extra-large 1" knuckles
- Pin cannot be driven out

### GRIP-RITE™ LIFTING CHANNEL

- Increases Door or Lid Strength and provides easier grasping and opening

### HEAVILY REINFORCED LID

- Patented Full-Length "A-Frame" Lid Bolster
- Resists bending from cargo placed on top of the box and from attempted break-ins

### RECESSED HANDLES

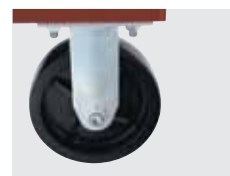

- Extra tall and deep recess areas prevent pinched fingers and damage to the handle

### OPTIONAL CASTERS

- Casters provide added mobility
- Set includes one pair each of fixed and swiveling casters

### TEXTURED POWDER PAINT FINISH

- High-Quality Powder Paint improves durability over liquid paint

# SAFETY STORAGE

◀ PREMIUM FEATURES ▶

## HI-VIZ SAFETY LABELS

- Safety and Warning Labels provide permanent reminder and reference for users to follow proper safety and usage practices
- Sharp Contrasting Colors for high visibility

## EXTRA-WIDE DOORS

- 2.5" Thick Doors provide greater insulation gap between metal panels for added durability and safety

## BRIGHT WHITE INTERIOR

- Maximum Visibility in low light conditions, allowing users to quickly and safely identify cabinet contents

## STAKED HINGES

- 14-Gauge Steel
- 3/8" Staked, Continuous Hinge with 1/4" steel pin and extra-large 1" knuckles
- Pin cannot be driven out for added security

## SPILL GUIDE SHELVING

- Safety Cabinet Shelves gently guide spills
- Liquids are guided toward the 2" deep leak-proof sump for easy clean-up

## TEXTURED POWDER PAINT FINISH

- High-Quality Powder Paint improves durability over liquid paint

**10x**

corrosion resistance

**5x**

abrasion resistance

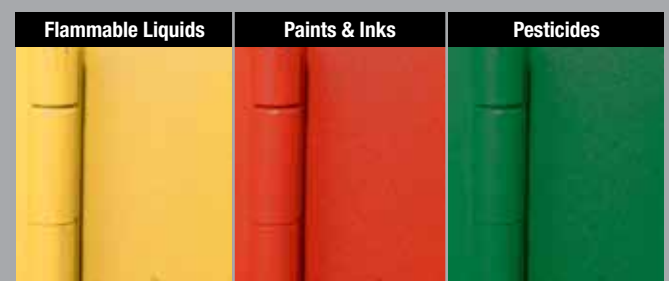

**2x**

chip resistance

**2x**

scratch resistance

Available in the Following Industry Standard Color Options

## SAFETY COMPLIANCE

JOBX cabinets and cans comply with all applicable specifications set forth by the Occupational Safety and Health Administration (OSHA) and the National Fire Protection Association (NFPA). JOBX self-closing cabinets also comply with the International Code Consortium/International Fire Code (IFC). Compliance to these specifications has been independently tested and listed by Underwriters Laboratories (UL) the internationally recognized third-party testing organization.

### SAFETY CANS

- NFPA Compliant Container for Storage of Kerosene (Blue can) or Diesel (Yellow can)
- NFPA Compliant Container for Storage of Gasoline (Red can)
- Specified by the Safety Professional ~ Required by OSHA in the Workplace
- Meets ASTM F839/F926

### SAFETY CABINETS

- Specified by the Safety Professional ~ Required by OSHA in the Workplace
- Meets requirements of OSHA 29 CFR 1910.106
- Meets requirements of NFPA 30

### SELF-CLOSING SAFETY CABINETS

- Specified by the Safety Professional ~ Required by OSHA in the Workplace
- Meets requirements of OSHA 29 CFR 1910.106
- IFC Compliant
- Meets requirements of NFPA 30

# HEAVY-DUTY SAFETY CABINETS, YELLOW

Keep flammable liquids organized, secure, and protected from fire with UL listed JOBBOX® safety cabinets. With exclusive features like EZ Level™ bolsters, permanent safety labels, and white interiors, these cabinets offer improved safety with the security and durability JOBBOX storage products are known for.

Hi-Viz Safety Labels

- Spill Guide Shelving
- 2" Leak-Proof Sump

Adjustable Shelving

3-Point Door Lock System

- EZ-Level™ Skid Bolsters
- Leveling-Screw Access Hole
- Unique Anti-tip Safety Bolster
- Forklift and Pallet Jack Accessible

High / Low Vent Connections

Staked Hinges

Extra-Wide 2.5" Doors

Pad-Lockable Paddle Handle

18-Gauge Double Wall Construction

Bright White Interior for Improved Visibility

Available in 12, 30, 45, 60 and 90 Gallon sizes

- Textured Powder Paint Finish
- Yellow: Flammable Liquid Storage

# SELF-CLOSING SAFETY CABINETS, YELLOW

- Self-Closing 3-Point Door Lock System
- Heavy-Duty Enclosed Staggering Mechanism
- Heavy-Duty Chain holds doors open during work
- Fusible Chain Link shears at 165°F to close doors

With JOBBOX® self-closing cabinets, users can work freely with peace of mind knowing that their flammable liquids will be secure. Extra-robust fusible link system will operate at 165°F to close the doors, and a heavy-duty, galvanized staggering mechanism ensures the doors close securely in the event of a fire. Fully-enclosed, the JOBBOX® self-closing system ensures safe operation while offering maximum storage space inside the cabinet.

◀ PREMIUM FEATURES ▶

## JOBBOX TRUCK STORAGE

Versatile, tough, and secure, JOBBOX truck boxes, drawer systems, ladder racks, and transfer tanks offer the best in mobile storage solutions.

## CROSSOVERS, INNERSIDES, & CHESTS

### GEAR-LOCK II™ LOCKING SYSTEM

- Self-adjusting dual rotary lock system
- Ratcheting action pulls lid tight to resist over 2,000 lb. of prying and pulling force
- Provides the highest level of security and moisture resistance available

SEE THE  
▶ VIDEO

### SELF-ALIGNING LATCH HOOPS

- Cannot be bent or pried out of the lock
- Hoops pivot from side-to-side to automatically align in the Gear-Lock II System
- Guarantees a tight seal first time-every time

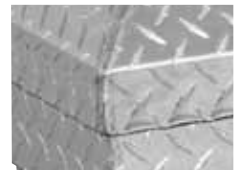

### HEAVY-DUTY GAS SPRINGS

- Provide easy lifting of Truck Box Lids

### RSL™ DEEP BEVELED EDGE LID

- RSL Rigid Structural Lid Three-Layer Lid has an inner core of rigid foam and reverse beveled liner for superior strength and rigidity
- Creates superior moisture protection and security for your cargo

# TRUCK STORAGE

◀ PREMIUM FEATURES ▶

## TOPSIDES & UNDERBED BOXES

### DRILL-RESISTANT PUSH BUTTON LOCK

- Provides easy open unlock action
- Creates superior moisture protection and security for your cargo

### HIGH-STRENGTH DOOR CABLES

- High-Strength, Coated, Galvanized Steel Cable supports 300 lb. load

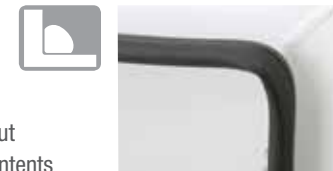

### THREE-POINT LOCKING SYSTEM

- Doors lock at top and both sides to resist break-ins
- Covers protect the locking system and reinforce the high-strength doors

### BULB-SHAPED WEATHER STRIPPING

- Surrounds door or lid to seal out moisture and dust, keeping contents and box protected

### ROTATING T-HANDLE

- T-Handles have reinforced cam locks and are sealed to prevent moisture from getting inside

## JOBBOX *StorAll* STEEL DRAWER STORAGE

### GRIP-AND-RELEASE™ DRAWER STOP SAFETY SYSTEM

- Release handle and the drawer safely locks into position
- Allows you to safely open and close heavy drawers on sloped surfaces

### UP TO 50% MORE DRAWER WEIGHT CAPACITY

- 650lb drawer weight capacity
- Drawer travels on 1,000 lb. rated rear roller bearings and 250 lb. rated front conveyor bearings
- 12-Gauge steel channels

### UP TO 20% MORE STORAGE CAPACITY

- Both Front-to-Rear sectional dividers and bin dividers are adjustable
- Customizable storage

# ALUMINUM SINGLE LID CROSSOVERS

-  High-Strength Deep Beveled Edge Lid
-  Full-Length Lid Bolster Reinforcements
-  RSL™ Three-Layer Rigid Structural Lid

The ultimate in truck storage security and capacity. Single lid provides best access to entire inside of box and more easily accommodates large and long items. The Rigid Structure Lid (RSL) has two layers of aluminum joined with rigid foam, plus additional full length bolsters for superior strength and rigidity.

# JOBBOX *StorAll* STEEL DRAWER STORAGE

14-Gauge Steel StorAll® drawer storage is designed to provide extreme durability and safety with unprecedented versatility. Perfect for work trucks, trailers, and vans, StorAll provides up to 50% more drawer weight capacity and up to 20% more storage capacity than competitive products. Drawers are customizable with adjustable front-to-rear dividers and bin dividers. Grip-And-Release™ system allows safe opening and closing of heavy drawers on sloped surfaces.

# ALUMINUM DRAWER STORAGE

Aluminum Drawer storage is perfect for use in service vans, mini-vans, SUV's or motor home basements. Removable dividers allow for segmenting small and larger tools, supplies, or parts. Heavy-gauge aluminum is light enough for easy mobility and transport and durable enough to stand up to heavy loads on top of and in drawers.

- Extruded Heavy-Duty Drawer Glides Support up to 75 lb. per Drawer
- Pins Prevent the Drawers From Rolling Off the Glides
- Latches Automatically Lock the Drawers When Closed

0.125" Aluminum Tops Support up to 200 lb. Load per Square Foot

## KARGO MASTER PRO II™ INDUSTRIAL-GRADE LADDER RACKS

PRO II Ladder Racks are made for superior load-carrying capacity and long-term durability with swaged joints and large gussets on the cross bars. They are extra-long, providing control for heavy loads and have a 1,700 lb. capacity. They also provide better protection for the cab roof and windshield.

- Made of High Tensile-Strength 2" Diameter Steel Tubing
- Removable Fourth Cross Bar Keeps Heavier Loads from Sagging
- Rear Cross Bar is Removable for Loading Taller or Bulky Cargo
- Smooth, Round Components Reduce Wind Noise and Resistance
- Yellow Zinc Dichromate Undercoat and Marine-Grade Powder Coat Epoxy Finish
- Four Standard Mounting Plates
- A complete PRO II Ladder Rack requires ordering a Side Channel Kit and a Leg & Cross Bar Kit, see below for fitment guide

Truck Type	Truck Model	Year	Side Channel Kit Cat. No.	Leg & Cross Bar Kit Cat. No.
<b>PICKUP TRUCKS WITHOUT CAMPER OR UTILITY SHELL</b>				
Fullsize Standard Cab Trucks - Long or Short Bed Racks	All Ford F Series, Silverado, Ram, Sierra & Tundra	All	S04000	L01000
Fullsize Extended Cab - Long Bed Racks	Silverado, Ram, Sierra, Tundra, F250 & F350	All	S06000	L01000
Fullsize Crew Cab - Long Bed Racks	F250 & F350	1999 & Up	S06000	L01040
Fullsize Crew Cab - Long Bed Racks	Silverado, Sierra & Ram	All	S06000	L01000
Fullsize Extended Cab - Short Bed Racks	F150, Silverado, Sierra, Ram, Tundra, F250 & F350	All	S06010	L01000
Fullsize Crew Cab - Short Bed Racks	F250 & F350	1999 & Up	S06010	L01040
Fullsize Crew Cab - Short Bed Racks	Silverado, Sierra & Ram	All	S06010	L01000

\*Note: Short Bed Applications Simply Require Cutting To Shorten Upper Side Channels

\*\* Note: 2002 & Up Ram Requires Cutting Of S06010 Upper Side Channels. Does Not Effect Strength

## KARGO MASTER PRO III STEEL ADJUSTABLE LADDER RACKS

The 1,000 lb. capacity PRO III Ladder Racks has easily positionable legs to fit trucks with short or long beds and with standard, extended, or four-door crew cabs. No cutting required. The height of these racks can be easily raised to fit trucks with taller cabs.

- Rugged 14" Long Mounting Plates Distribute Load Over a Large Area
- Removable Rear Cross Bar for Improved Access to the Bed
- Rear Grab Handles Improve Loading and Unloading Safety
- Optional no Drill Clamp-On Mounting Plates
- Fourth Cross Bar Available for Support of Long Cargo on L80000
- Yellow Zinc Dichromate Undercoat and Marine-Grade Powder Coat Epoxy Finish

Cat. No.	Size	App. Ship Wt.
L80000	155" Long Ladder Rack Fits ALL Fullsize Trucks	150.0 lb
L80020	142" Long Ladder Rack Fits ALL Mid-Size and Compact Trucks	140.0 lb

**KARGO MASTER** PRO IV ALUMINUM ADJUSTABLE LADDER RACKS

Swaged joints and fully gusseted crossbars for superior load capacity make the PRO IV Aluminum Ladder Rack a perfect choice. The rack has triple-plated fasteners with chrome plating over double nickel plating.

- Rugged 14" Long Mounting Plates Distribute Load Over a Large Area
- Removable Rear Cross Bar for Improved Access to the Bed
- Rear Grab Handles Improve Loading and Unloading Safety
- Optional no drill Clamp-On Mounting Plates
- Fourth Cross Bar Available for Support of Long Cargo on L80000
- Yellow Zinc Dichromate Undercoat and Marine-Grade Powder Coat Epoxy Finish

Cat. No.	Size	App. Ship Wt.
L90000	Aluminum Fully-Adjustable Ladder Rack Fits ALL Fullsize Trucks	95.0 lb

**KARGO MASTER** QUICK PAC REMOVABLE LADDER RACKS

Quick Pac Racks are easy to insert in the mounting bases when needed and easily lifted out of the bases until needed again. The side-mounted racks support 250 lb. and are ideal for occasional use or when a full-length or heavier-duty rack is not required.

- Easy-to-Install Removable Racks for Carrying a Ladder, Lumber or Other Long Material
- Support Arms Adjust From 18" to 32" in Width
- Yellow Zinc Dichromate Undercoat and Marine-Grade Powder Coat Epoxy Finish
- High-Strength Mounting Bases fit in any truck and can be used on either side
- 1-1/4" Square Steel Uprights have fully welded joints

Cat. No.	Size	App. Ship Wt.
L30090	Removable Side Ladder Racks	60.0 lb

**KARGO MASTER** FREE-STANDING ECONO RACKS

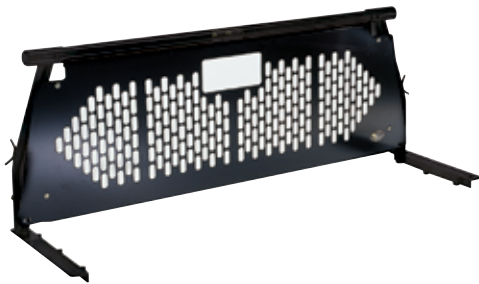

Econo Racks can be used as a pair for extra support or free-standing to provide a wide area for easy side access to bulky cargo. Long mounting plates provide stability without horizontal connecting bars. Can be paired with Window Guard A31090 to create Free-Standing Fullsize Cab Guard.

- High-Strength 2" Diameter Steel Racks Support up to 500 lb.
- Cross Bar Height can be set at 23-1/2" or 26-1/4" above the bed
- Rack width adjusts from 53" to 68"
- 14" Long Heavy-Duty Bolt-On Mounting Plates
- Yellow Zinc Dichromate Undercoat and marine-Grade Powder Coat Epoxy Finish

Cat. No.	Description	Width	Height	App. Ship Wt.
L30050	Front-Mounted Econo Rack	53 in - 68 in	23-1/2 in - 26-1/4 in	35.0 lb

**KARGO MASTER LADDER RACK ACCESSORIES**

**FULLSIZE TRUCK WINDOW GUARD**

- Bolts On Existing Rack (rack and mounting plates not Included)

Cat. No.	App. Ship Wt.
A31080D	22 lb

**“NO DRILL” CLAMP-ON MOUNTING KIT**

- For PRO II, PRO III, and Econo Rack Model L30040

Cat. No.	App. Ship Wt.
A31580	4.0 lb

**EXTRA CROSS BAR**

- Bolts on Side Channels
- For PRO III Model L80000

Cat. No.	App. Ship Wt.
A31600	12.0 lb

### HOW TO MEASURE YOUR TRUCK

The following instructions generally work well when measuring a full-size truck. Mid-size and Compact trucks have a variety of truck bed configurations which increase the difficulty in measuring the truck and comparing it to the dimensions of a specific truck box. In nearly all instances, the Fitment Guide (pages 54 through 59) will provide accurate information unless the truck is a new model introduced after August, 2013.

#### THE TRUCK BED NEEDS TO BE MEASURED FOR TWO REASONS:

- A. To Determine that the Truck Box will be long enough to be properly mounted on the truck bed rails.
- B. To Determine whether or not the truck wheel wells will interfere and prevent proper mounting of the truck box.

#### A: Determining that the truck box is long enough to be properly mounted:

**Measurement 1:** Width between the top of the bed sidewalls. Dimension "A" of the crossover Truckbox needs to be at least 3" greater.

#### B. Determining whether or not the truck box will clear the wheel wells in the truck....Need to find POINT "X" in the truck bed:

Preparing to take Measurements 2 & 3 to find a point "X" in the truck bed to ensure that the truck box will fit your truck:

- The depth of the truck box may restrict its fit in the truck because the wheel well might be in the way.
- Except for "Extra-Wide" truck boxes, most truck boxes will require 20-1/4" of horizontal space from the cab bed rail to the point where the Truck Box might hit the wheel well or the truck bed liner.

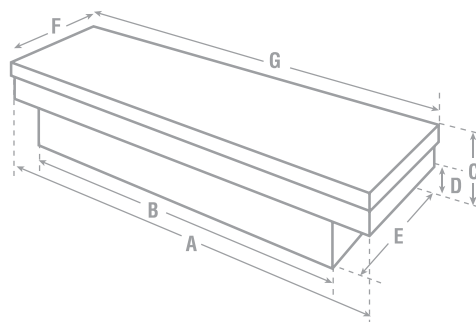

**Measurement 2:** A "Standard" Truck box will usually have a 9" Vertical depth below the top of the truck bed rail. A "Deep" model will usually be 12" below the top of the bed rail.

- Determine how deep a truck box you need and measure down from the top of the rail and create an imaginary, HORIZONTAL line at the depth of the truck box you need...usually 9" or 12" below the top of the truck bed rail. This is called Dimension "C" on the truck box.

**Measurement 3:** Find Point "X" which is on the horizontal "Imaginary Line" below the truck rail (from "2" above). On the horizontal "Imaginary Line"....Measure to find a point 20-1/4" away from the front truck bed rail (This measurement is from the Cab Truck Bed Rail Towards the Tailgate). The 20 1/4" is roughly Dimension "E" on the truck box and represents how much space the truck box will take in the bed behind the truck cab. After finding Point "X" in your Truck Bed....will the truck box fit?: Again, Point "X" is 20-1/4" away from the front truck cab rail on the Imaginary Horizontal Line (from measurement 2) If point "X" does not hit the wheel well, the truck box will fit. If point "X" hits the Wheel Well, you must make another measurement:

- Mark Point "X" on both wheel wells or the wheel well bed liner
- Measure the distance between the two point "X"s on the truck bed. This dimension must be greater than Dimension "B" on the Truckbox
- If Dimension "B" on the truck box is GREATER than the distance between both point "X"s, the truck box will hit the wheel well or bed liner and you will usually need to select another truck box or mount the truck box with a spacer above the bed rail.

## PRODUCT WARRANTY INFORMATION

### JOBBOX Products Limited Warranties

This product warranty is made by Apex Tool Group, LLC (ATG) to only the original purchaser and it is valid as indicated in the table below from date of purchase, upon presentation of the original sales receipt at the time the warranty claim is made. ATG warrants its product to be free from defects in materials and workmanship at the time of the sale. This warranty does not cover damage caused by accident or unreasonable or unintended use of the product. Modification, disassembly and/or reassembly of the product will invalidate this warranty. Damage to the contents of the box, vehicle or other consequential damages of whatever kind are hereby excluded from this warranty. Use only parts or accessories supplied by Apex Tool Group, LLC. Parts or accessories from other manufacturers or suppliers could alter the function and safety of the product(s) and void this warranty.

### KargoMaster Ladder Rack Lifetime Frame Warranty

KargoMaster, Inc. extends to the original purchaser of a KargoMaster product a Lifetime Frame Warranty. If the rack cracks, bends, buckles, or structurally fails in any way, KargoMaster, at its option and expense, will replace or repair the rack. For details, see the Installation Instruction Booklet included with the rack or contact Customer Service.

### To Obtain Warranty Service:

In the case of a nonconforming product, you should return the product to the place where it was purchased. The seller will consult with ATG and then either repair or replace the product, at ATG's sole option, if it is determined that the product is defective in either material or workmanship.

Please have the following information available to request keys, gas springs or replacement parts:

- The Key Code stamped on your key or the outside cover of the lock cylinder
- The Model Number on the label on the barrel of the gas spring
- For other replacement parts, the Model Number of your product

To obtain parts, call our Customer Service Department at the number below between 8:00 AM and 5:00 PM Eastern Standard Time Monday through Friday. Press 1 when prompted. To send an email, use the address below.
