8" Professional Carbonized Bamboo Try Square

Model #: 1940-0800
UPC: #049448008001

The essential marking and checking tool for any professional woodworker, this 8" try square makes assessing angles and marking straight cuts easy and accurate. Its ergonomic and solid carbonized bamboo handle features stainless gauging edges and a routed hand grip, while its heavy-duty blade is made of stainless steel so you'll never need to worry about rust or corrosion. This square features graduations in 1/8" and 1/16" increments that are permanently etched in black for easy visibility.

APPLICATION

Johnson's 8" try square is the ideal tool for any professional woodworker or finish carpenter. It can check and mark both internal and external right angles, making it handy for framing, stair-making, shed building and many other carpentry tasks. It is also useful for checking the angles on bench saws and other cutting machinery.
