**WEED BARRIER**

**WEED BARRIER**

**Dewitt® Weed Barrier® 3oz / 12 Year**

Control weeds before they start. Fabricated using a spun-bond method, which sandwiches melt-blown material, forming a powerful 3-ply layer of weed protection. High carbon black content provides superior light-blocking capabilities to protect against the toughest perennial weeds. Design prevents unraveling and makes the material easier to cut. Hydrophilic treated, providing improved water and nutrient flow through the fabric.

**ORGANIC FERTILIZERS**

**Dr. Earth® Natural Wonder®  
Fruit Tree Fertilizer 5-5-2**

Natural Wonder® fertilizer produces remarkable results because nutrients are released quickly, yet continue to feed for several months. Ultra-premium scientific formula provides optimum levels of primary essential plant nutrients, including micronutrients and multi-minerals. TruBiotic® ensures organic nutrients are thoroughly broken down and then released in the soil for plant roots to absorb them as they are needed. Infused with Advanced TruBiotic® – consisting of “Five Champion Strains” of beneficial soil microbes and eighteen select strains of ecto and endo mycorrhizae – which contributes to drought tolerance, enhanced nutrient availability and increased plant performance. The Dr. Earth® probiotics are a most complete “broad-spectrum” bio-active package designed to work synergistically with the raw organic nutrients that make up the Natural Wonder® formula. This spectacular blend builds soil health, promotes a superior harvest with larger and more abundant, nutritious and tasty fruits. OMRI™ listed.

## FERTILIZER SPIKES

### Jobes® Organics® Fertilizer Spikes

Organic pre-measured spikes that make for a fast, easy and mess-free fertilizing experience. Specially formulated to help build a nourishing environment that promotes beneficial microbial action where plants need it most, at the roots. Unlike surface fertilizers that can wash away with rain or watering, Jobes works underground at the plant's roots, providing heightened growing power and healthy blooms. Spikes come in a waterproof, resealable pouch. Feeds for eight weeks.

### Jobes® Organics® Spikes for Trees, Shrubs & Evergreens

These organic fertilizer spikes, specially formulated for trees and shrubs, help build a nourishing environment that promotes beneficial microbial action where trees and shrubs need it most – at the roots. This “in-the-ground” feeding is the most efficient delivery system for organics. The spikes improve long-term soil quality by promoting beneficial microbial growth. The pre-measured spikes make for fast, easy and mess-free fertilizing. For best results, apply in early spring and late fall.

ROOT FEEDER

**Ross® Root Feeder - Model 1200**

A deep feeding system that is specially designed to water and fertilize below the soil's surface, where most of the active tree roots grow. Simply connect a garden hose to the Root Feeder and insert the feed tube into the soil around the drip line of a tree. Water flows through a chamber filled with fertilizer, through a feed tube right to the tree's roots. Perfect for drought weather, there is no runoff and wasted water, just healthy, beautiful trees all season.

**NUTRIENTS**

**Pennington® Ironite® Mineral Supplement 1-0-1**

Vibrant, deep green foliage is a sign of a vigorous plant. Pale green or yellow foliage can be caused by nutrient deficiencies which can be corrected by the nitrogen, iron and other minerals found in Ironite® Mineral Supplement. Use this product to green up your lawn and garden. Works best on lawns, shrubs, flowers, vegetables and trees.

## FUNGICIDE

### FoxFarm® Bush Doctor® Force of Nature® Fungicide

Controls Powdery Mildew on many types of crops such as melons, squash, tomatoes, tree crops, grapes, cucumbers and all sorts of flowers. It has shown the ability in replicated field and greenhouse trials to control Powdery Mildew for 7-10 days with a 1% spray solution. This fungicide is applied as a foliar spray and would be a great addition to a well-managed disease program and is non-toxic to humans and animals.

## DRY FERTILIZERS

### FoxFarm® Happy Frog® Japanese Maple Fertilizer 4-8-5

Finally, a fertilizer that's blended for the unique needs of Japanese maples. This fertilizer uses a lower-nitrogen formula that supports a natural tendency to grow in cool weather environments. This means less leaf scorch in summer—even in sun—and a smooth transition to dazzling fall color. Happy Frog® Japanese Maple formula is an excellent slow-release fertilizer for plants that require a low pH, and includes phosphorus and potassium to deliver color illumination like you've never seen before. You'll get all the brilliant reds, purples, and oranges that make Japanese maples the crowning glory of the garden. Happy Frog® Japanese Maple Fertilizer is formulated with premium ingredients like bat guano, bone meal, feather meal, and other beneficial microbes to help convert fertilizers into vital plant food.

### Jonathan Green® Green-Up® Weed & Feed Lawn Food 21-0-3

Controls dandelions and over 250 other broadleaf weeds in lawns while feeding your lawn with 35% slow-release nitrogen fertilizer. Three way action provides superior weed control. Feeds desirable grasses longer while weeds gradually disappear from the lawn. Apply when weeds are actively growing in the spring and fall. Greens the lawn in cooler temperatures. Fine particle size allows for superior weed control and feeding action. Apply to moist grass. Do not mow two days before or after application. Do not water for 48 hours after application and delay application if rainfall is expected within 48 hours. Do not apply during hot, dry weather or when the turf is under stress. Delay seeding for four weeks after applying.

#### Jonathan Green® Organic Weed Preventer Plus Lawn Fertilizer 10-0-2

Organic Weed Preventer plus Lawn Fertilizer 10-0-2 contains all organic corn gluten that stops weeds before they sprout, plus an organic fertilizer that greens up the lawn quickly. It also releases organic proteins into the soil to encourage root development. Use on lawns, landscape beds and in vegetable gardens for all of your yard wide projects. Apply in early spring for best results, and up to 3 times a year if needed. Safe to apply where children and pets play. This patented technology will prevent crabgrass, dandelions and over 20 other grassy and broadleaf weeds. Easy to spread, sugar-size particles. Do not apply grass seed for 60-90 days after applying this product.

LAWN AND GARDEN CARE

FERTILIZER - SOIL CARE

**Jonathan Green® MAG-I-CAL®  
Soil Food for Lawns in Acidic Soils**

MAG-I-CAL® for Acidic Soil is a highly soluble form of calcium that helps to rapidly raise your soil's pH, improving the health of your lawn by releasing trapped nutrients in the soil that feed the grass plants. Low soil pH causes weeds, moss, and bare spots to grow, while soil pH ranging between 6.0 – 6.8 will re-energize your lawn, increasing microbial activity, boosting your lawn's color, reducing stress, improving soil texture and aiding in water uptake. Using MAG-I-CAL® will also significantly improve your fertilizer's effectiveness for a thicker, greener lawn with improved weed control. MAG-I-CAL® comes in an easy to spread pellet form, can be applied anytime during the growing season, and is safe throughout the yard. MAG-I-CAL® is also concentrated, meaning one bag of MAG-I-CAL® equals up to ten bags of limestone, saving your time, money, and your back! MAG-I-CAL® is the missing ingredient in your lawn care program that makes everything else work better!

Treats up to 1,000sq ft

 Min. Buy 1 EA      Retail 49.99

**Jonathan Green® MAG-I-CAL®  
Soil Food for Lawns in Alkaline Soils**

MAG-I-CAL Soil Food for Alkaline Soils lowers soil pH. MAG-I-CAL's fine particles break-down quickly in the soil and is formulated for superior performance to help improve fertilizer efficiency. Your soil is considered alkaline if it reads between 7 – 14 on the pH scale. Standard fertilizer programs are not enough to get a beautiful lawn. They don't address the long-term health of the soil, particularly soil pH. Plants growing with improper soil pH levels will not thrive because certain nutrients become "tied-up" in the soil and are unavailable to the plants. Lowering soil pH may take a number of applications to reach desirable levels. A gradual reduction in soil pH is preferred because a dramatic reduction can result in plant stress. Applying MAG-I-CAL helps balance the soil pH and, at the same time, helps the lawn to grow greener and healthier.

Treats up to 5,000sq ft

 Min. Buy 1 EA      Retail 19.99

FERTILIZER - SOIL CARE

**Jonathan Green® Love Your Soil®  
Organic Soil Food**

All natural and organic, Love Your Soil stimulates soil microbes and creates a biologically healthy soil. This soil food helps to loosen heavy, hard packed soils, and releases trapped nutrients. You can grow better turf by creating better soil! Use on existing lawns, when seeding to enhance grass root mass development, and on cool and warm season grasses. Your lawn soil will become more alive and porous allowing water, air and grass roots to enter the soil more easily. Love Your Soil also increases the grasses' resistance to drought and heat stress, and helps to kick-start your lawn in the spring. Environmentally friendly and safe to use around people and pets. It is a homogeneous formula that applies easily with any spreader. Contains humic and fulvic acids, calcium, sulfur, iron and molasses.
