**PRODUCT APPLICATION**

**DIRECTIONS**

Always pre-test before use. Do not dilute. Use full strength. Pre-moisten rag, cloth, or sponge with Pre-Paint Cleaner. Spray directly on surface, and blot away any overspray immediately. Apply pre-moistened cloth to surface in a circular motion. Wipe off with a clean cloth, turning often to avoid smears. When the clean, de-glossed surface is dry to the touch (usually about 10 minutes), new paint finish can be applied. Repaint when dry, or within a week, before soiled again.
