

Klip On Deep Flanges

For Copper or Iron Pipe
From The Keeney Manufacturing Company
The Leader in Plumbing Solutions

- *Installs over shallow or deep flanges*
- *Can fit iron or copper pipe*
- *Easy install eliminates removal of existing flange or valve*
- *No Tools Required*
- *Plated finish won't flake off*

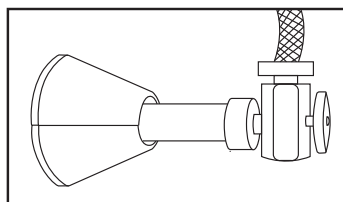

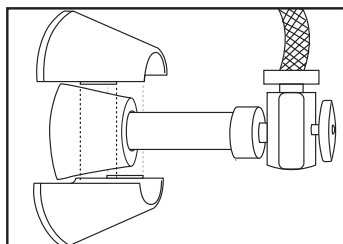

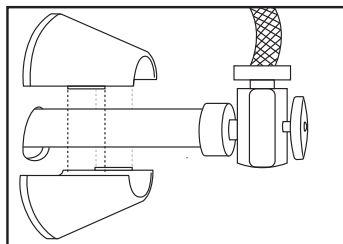

Klip On Deep Flanges

Description:

Klip On Deep Flange replaces existing flanges without having to remove the old flange. The two part design clips over the existing shallow or deep flange and hides the old flange behind it. No more cutting the old flange off or removing the valve. The simple to use design allows for easy install and removal/replacement if necessary.

Specifications:

- Appearance Chrome plated
- Material Plastic
- Size Fits 1/2" Iron or Copper Pipe
- Packaging Trilingual
