SETTING STANDARDS WITH NEW MATERIALS

Cooking is so much more than just the preparation of food. Cooking signifies creativity, joie de vivre and enjoyment. Kuhn Rikon stands precisely for this variety and passion that cooking involves.

Our aim is to create products to match the spirit of the age and set new standards in the kitchen. When developing our products, the choice of materials, current trends and the topic of sustainability play a decisive role. This is why we also use wood for our kitchen accessories, for example, as a natural, renewable raw material.

In the new, limited edition HOTPAN® we have placed this renewable resource in an exciting contrast with the urban, construction-material concrete. This high-quality mix of materials gives the thermal cookware an even more modern design and shows that a pan can become a stylish home accessory merely by choosing the right material.

In the following pages we are introducing you to the colourful world of Kuhn Rikon: versatile, clever products that make cooking even simpler and nicer. And which go with every kitchen and phase of life.

Have fun discovering – and continued pleasure cooking!

Dorothee Auwärter
Chairwoman of the Board of Directors

TELLING STORIES WITH GOOD DESIGN

In order to stand out from the competition, the external shape of a product is gaining greater significance. For a long time design has no longer been a minor matter but now influences the consumer in their decision to purchase or not. But what differentiates good design? And is the premise "Form follows function" still sufficient today?

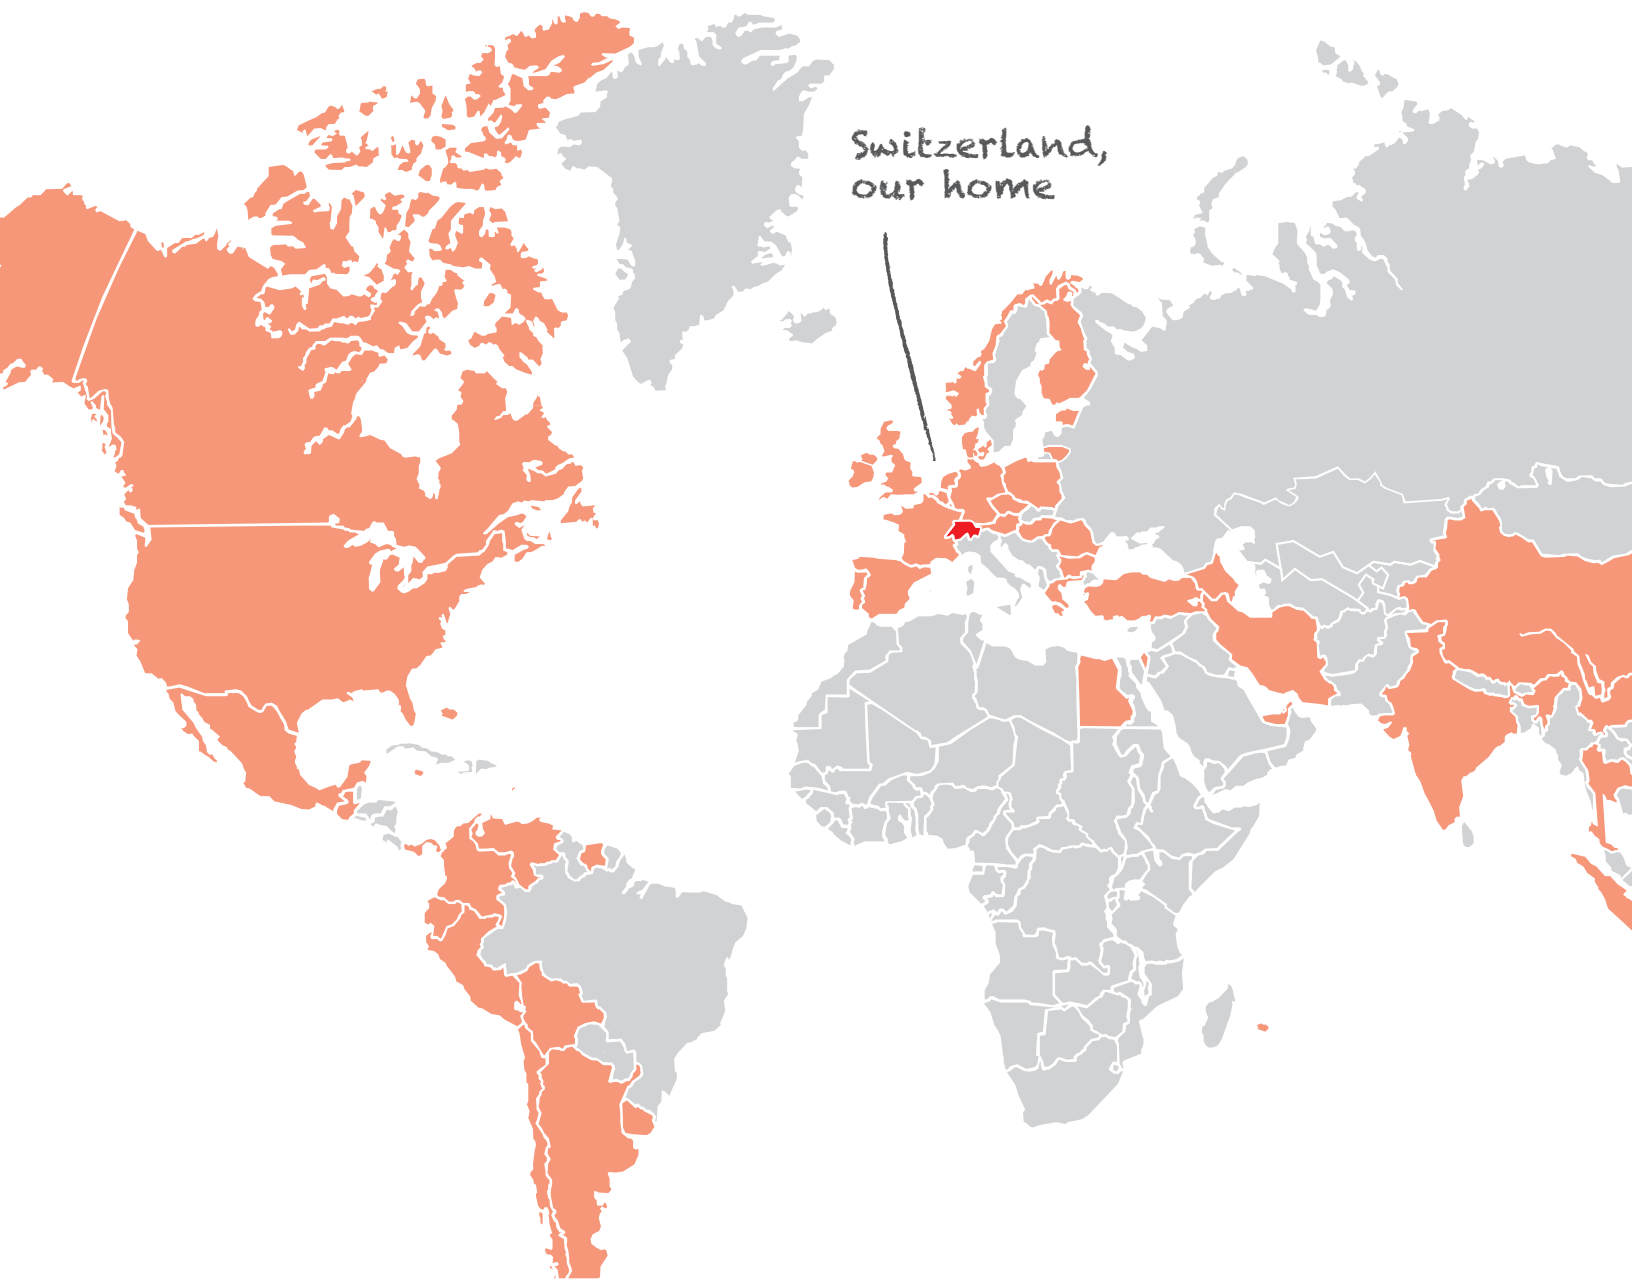

For us the key to a successful design lies in the selection of the materials, which at the same time decides the innovative power of a product. By using new materials and combining different ones, fresh creative freedom arises over and over again – not only in the visual but also in the tactile domain. But also new challenges, unusual approaches for solutions and even more functional possibilities.

Our aim is to exhaust the potential inherent in every material to the limits. This is because only this way does exceptional design come into being – and a product with character, which tells its very own story.

Ulrich Kössl
Head of Industrial Design

OUR SWISSNESS SEAL BECAUSE QUALITY ENTAILS COMMITMENT

Nearly everyone knows the advertising slogan «Who invented it? » It comes as no surprise that the answer is to be found in Switzerland. Heinrich Kuhn, the founder of Kuhn Rikon, and his son Jacques were also passionate inventors as well. Their pioneering spirit produced the DUROMATIC® amongst other items, the first pressure cooker worldwide with a spring valve, **«made in Switzerland»** from Rikon.

Today our family company is active worldwide and has a steadily growing number of employees. We do not only invest in the new and further development of our products and manufacturing techniques, but also in our production site at the company headquarters in Rikon.

In order to keep up with the increasing demand, to remain competitive globally and to be able to offer a broad product assortment, part of our range is manufactured in the EU and Asia. One thing however always remains unchanged independently of the origin of our products: **the Kuhn Rikon quality requirement.** We work together with reliable partners, who meet the strict standards of our Swiss **product managers,** designers and engineers.

It goes without saying that we rigorously check every product – irrespective of where it is made – in our laboratory in Rikon or with external partners (e.g. TÜV, SQTS).

It is also important to us that the **origin of our products is immediately identifiable for everyone.** From the presentation on our website, via the communication on the packaging through to the marketing of our products we follow a strict guideline. **Our «Kuhn Rikon Switzerland» logo is to be found on all the products manufactured in Switzerland. All other articles bear our «Swiss Design» label.** This clear logo usage and practice is consistently followed through not only on our packaging but also in our channels of communication. You can see the precise key to how this is done below the map on the left.

But no matter which of our products you decide on: you will always be getting a product with the typical **Kuhn Rikon script** and the know-how of our design and engineer team.

WELCOME TO OUR WORLD

Welcome to a world of innovation, color, quality, style and fun. Our unique Swiss cookware and cooks' tools are designed to make healthy cooking faster, easier and more enjoyable.

Bon Appétit!

COOKING

COOKING HEALTHY, CONSCIOUSLY AND ENERGY-SAVING.

HOTPAN® and DUROTHERM® keep cooking after you turn off your heat, using up to 60% less energy.

Our world-renowned DUROMATIC® Pressure Cookware creates meals in minutes using up to 70% less energy and shorter cooking times. Precision cookware that's healthier for you and the planet – from our state-of-the-art Swiss factory.

DUROMATIC® COMFORT PRESSURE COOKER WITH BLUETOOTH CONNECTION.

App-controlled energy-saving pressure cooker with integrated temperature sensor. Cook everything just right – thanks to Bluetooth technology.

As well as its digital recipe collection, the DUROMATIC® Comfort App contains a list of cooking times for over 70 foods. The app automatically calculates the corresponding cooking time including quantity of water required as soon as the desired ingredient is selected. Then activate the Bluetooth communication with the press of a button and lean back and relax. Whether boiling, simmering or steaming, cabbage, root vegetables or potatoes or preparing larger pieces of meat, stews and soups – anything goes, including reduction and sous-vide cooking as well! Furthermore, the meals are cooked in minutes preserving vitamins and with up to 70% less energy consumption. We have truly had our light bulb moment!

THE MOST IMPORTANT THINGS IN SUMMARY

- » 60 menu suggestions with success guaranteed
- » Cooking times list for over 70 foods
- » Recipe database is being continually updated
- » Simple step-by-step guidance
- » Integrated temperature sensor
- » Real time communication between pan and tablet / smartphone
- » Bluetooth low energy system
- » Temperature control from 250°F to 475°F
- » Up to 70% less energy consumption

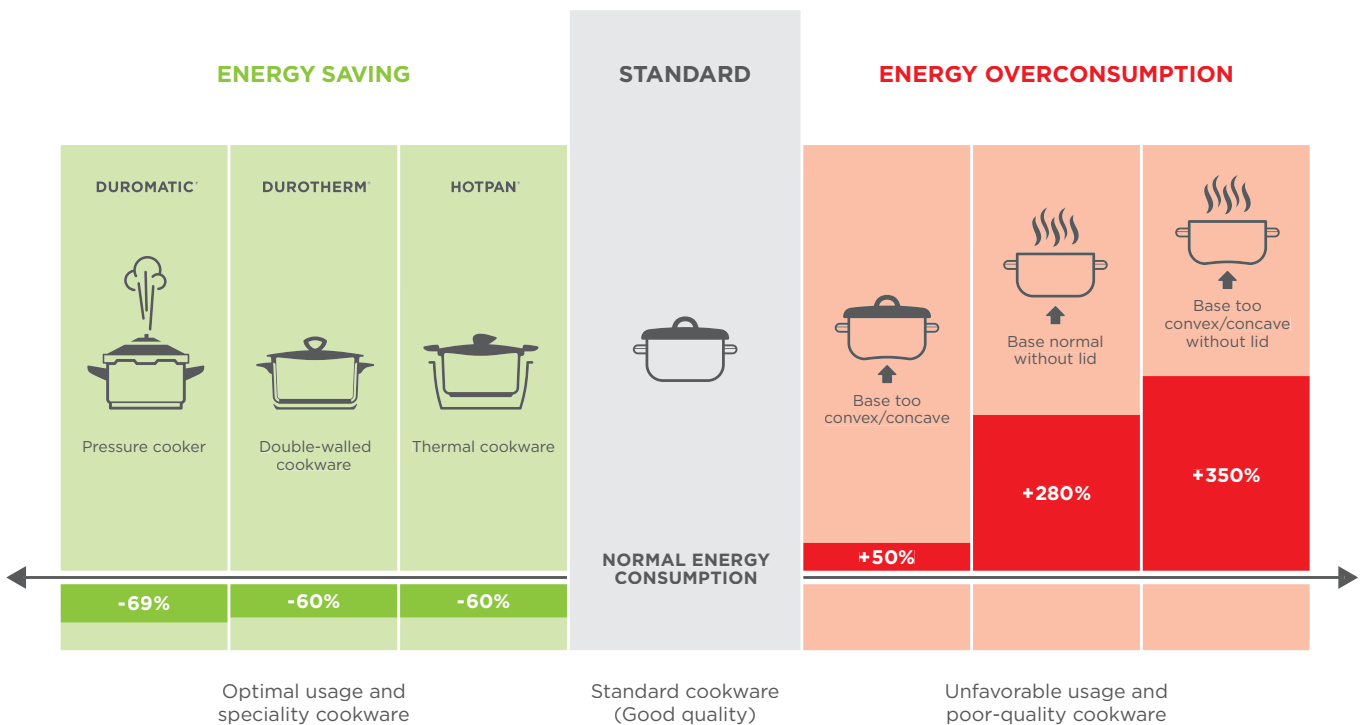

DUROMATIC® COMFORT APP

Cooking instructions, cooking times, pressure levels and more. Plus a built-in timer! For iOS 8 and Android 4.4 (or higher), for free. Available in your App store under DUROMATIC® Comfort.

DUROMATIC®
Set

The perfect starter kit: a 2-qt frying pan and a 5-qt saucepan. Includes pressure cooker lid, glass lid for conventional cooking and steaming trivet.

boxed
30324 \$259.00

RECIPE

Fresh fish stuffed with lemon and herbs Summer vegetables and potatoes

INGREDIENTS

- 1 lb whole trout gutted, scaled
- 1 organic lemon
- 1 sprig rosemary
- 1 sprig thyme
- 3 potatoes remaining firm when cooked
- 1 fennel
- ½ red pepper
- ½ zucchini
- ½ bunch parsley
- Freshly ground sea salt and black pepper for seasoning

PREPARE

Rinse off trout, season inside and out. Thoroughly wash lemon, halve, cut one half into slices. Keep the other half to one side for a garnish. Fill the belly of the trout with the lemon slices and herbs. Peel potatoes and cut into slices. Cut the fennel into fine strips. Core the red pepper, remove white bits and cut into rough pieces. Cut zucchini into rough sticks. Chop parsley.

COOKING

Place the trivet into the DUROMATIC®, add ½ cup water. Place the potatoes into the first steamer insert and season. Place the stuffed trout into the second steamer insert in a way

that ensures the filling in the belly will remain in place. Add the vegetables and season. Close lid. Heat briefly to the 2nd valve level, then cook on the 1st valve level for 10–12 minutes. Then release steam slowly.

BEFORE SERVING

Season with freshly ground sea salt and black pepper. Remove the trout from the steamer insert and fillet. Serve with vegetables, potatoes and lemon, and sprinkle with parsley.

Releases a small amount of steam for slow steam release

Releases a large amount of steam for rapid steam release

DUROMATIC® Top Model

Innovative design offers an even easier way to safely release steam: simply turn knob on top. Trivet for steaming included.

DUROMATIC® MICRO MICROWAVE PRESSURE COOKER

It's common knowledge that cooking under pressure can reduce the amount of time needed by up to 70% in comparison to conventional methods.

NEW

THE MOST IMPORTANT FEATURES IN SUMMARY

- » Includes recipe booklet with 40 meal ideas
- » Faster than conventional cooking methods
- » Preserves vitamins
- » Safety elements protect against excess pressure
- » Pressure indicator
- » Fold-out handles on the sides

Preparing food in the microwave takes only half or a third of the time it would take on the stove.

Thanks to reduced cooking times, both methods are better for preserving vitamins and minerals. Microwave cooking does not damage vitamins; rather, vitamins are lost when subjected to heat for a prolonged period. As microwaves heat food much faster than is the case on a stove or in a steamer, this method is regarded as being good for preserving vitamins and minerals. But what happens if you combine both methods? You get the DUROMATIC® Micro by Kuhn Rikon – one of the fastest, most energy-efficient and cost-effective cooking methods in the world.

DUROMATIC® Micro

Ø 8.75"/4.2-qt

- Graphite
- Red

boxed

31580
31581

\$60.00

The arched handle on the Lid makes it easier to open, close and carry

The red pressure indicator tells you whether the pan is still under pressure (indicator protrudes) or whether the pressure has decreased (indicator retracts) so that you can open the lid

A membrane in the lid of the DUROMATIC® Mirco regulates pressure inside the pan, ensuring it remains constant

Silicone sealing ring for efficient pressure build-up

Comes complete with a trivet so that food is not placed directly in the water

Fold-out handles on each side provide you with the grip you need for daily use - and can be folded back down conveniently for storage

◀◀ **Fits into even the smallest kitchens,** thanks to ergonomic folding handles suitable for most microwave sizes. ▶▶

HOTPAN® THERMO COOKWARE SOFT COOKING

Make use of the full potential of DUROTHERM® and HOTPAN®. Enjoy cooking in an easy and healthy way with the soft cooking method.

« How do you keep food fresh
and hot on the table for
2 hours and use 60% less energy?
You cook and serve it in a HOTPAN®. »

Holger Leukart, engineer

DESIGN
AWARD
2007

DESIGN
PLUS

THE SECRET IS COOKING GENTLY.

The HOTPAN® allows you to cook healthy dishes without fat. It is the well-conceived interplay of pot and insulated bowl that makes the HOTPAN® so practical. All you need to do is to heat your dish briefly and the HOTPAN® will take care of the rest of the cooking. The food stays hot in the HOTPAN® for up to two hours. This is not only convenient but also very healthy. And you use 60% less energy to top it all.

RECIPE

Roast beef with wild herbs in mountain hay

INGREDIENTS (FOR 4 PERSONS)

- 7 oz biologically-grown mountain hay*
- wild herbs and flowers to taste
- 28 oz roast beef, rump steak in one piece
- salt and pepper from the mill

PREPARATION

Make a mix from the hay, wild herbs and flowers. Heat the HOTPAN® without fat. Brown the roast beef on all sides at a moderate heat. Season with salt and pepper. Wrap the meat in the hay. Place in the HOTPAN® and heat. Cover and cook gently for 50 min. in the insulating bowl. Serve the roast beef with the hay in the HOTPAN®, and carve at the table.

TIP

Serve the roast beef with roasted potatoes.

*Check with your local farmer or farm supply store for organic and pesticide-free hay.

HOTPAN® MONUMENT

The HOTPAN® Monument with its heat-retaining bowl of concrete picks up on the urban spirit of the age. Concrete makes this kitchen tool an all around stylish home accessory. The cutting board of high-quality maple wood ensures a soft contrast to the modern concrete. A must-have for all home cooks, who rate good design and cleverly thought out functionality.

NEW

But the product offers even more: With the fitting round cutting board in maple wood, we have decided to present a high-quality material that matches perfectly to the cement bowl. The wooden cutting board being used as a lid together with the HOTPAN® bowl is ideal for storing food. Moreover, the cutting board has a function as an underplate and regular plate as well. You can prepare your meat on the cutting board and serve your vegetables or rice in the bowl. Just choose your individual dishes you would like to prepare and serve.

DUROTHERM® CHROME THERMO COOKWARE ENJOY HEALTHY COOKING.

And, this is how healthy cooking with the DUTROTHERM® works: heat up the ingredients for only a few minutes on minimal heat, then place the pot together with its lid onto the heat-retaining base and allow to continue cooking away from the stovetop.

1. Add food and minimal liquid

2. Cook until steam begins to appear

3. Finish cooking in heat retaining base

This gentle cooking method preserves valuable vitamins and even saves up to 60% energy. Particularly practical: meals remain warm for up to two hours, without overcooking. This cookware is ideal for anyone that wants relaxed cooking and its also perfect for traveling. And also optimally suited for use in a RV or on a boat.

CLEVER RIGHT DOWN TO THE DETAILS.

RECIPE

Grape and mascarpone risotto

INGREDIENTS (FOR 4 PEOPLE)

- 2 tsp butter
- ½ shallot, finely chopped
- 1 ¼ cup risotto rice
- 20 fl oz vegetable broth
- 1 clove
- 3 Tbsp heavy cream
- 2 oz Mascarpone
- 2 Tbsp Parmesan, grated
- 4 oz grapes, black, halved and seeds removed
- White wine
- Freshly ground salt and pepper

Step 1

Step 2

Step 3

Step 4

PREPARATION

Heat the butter in the DUROTHERM®, lightly braise the shallot, add the rice and braise until transparent. Add the broth and the clove and simmer on a gentle heat for 1 min. Remove from heat, cover and cook gently in the insulating bowl. Whisk the cream until fluffy. Add the Mascarpone, Parmesan, cream and grapes before serving. Season with wine, salt and pepper.

TIP

Excellent with game, you can replace the black grapes with white grapes.

A photograph of two men in a kitchen. The man on the left, wearing a blue long-sleeved shirt and a brown hat, is smiling and cooking at a stove. The man on the right, wearing a grey shirt and khaki pants, is standing next to him, holding a round object (possibly a burger patty) and looking at the cooking. The kitchen is well-lit with a large window in the background. On the wall, there are various items including a sign that says "HAPPY", a calendar, and some plants. The counter is cluttered with kitchen items like a sink, a dish rack, and various containers. A skateboard is leaning against the wall on the right.

FRYING

PERFECT FRYING PANS AND ROASTING PANS. MAKING FRYING EASIER.

**Never underestimate the importance
of a frying pan.**

It's the workhorse of every kitchen, and every cook has a favorite: the one with the best performance, the best weight, the best balance and just the right handle.

BLACK STAR THE DURABLE ONE.

Iron frying pans are especially popular with those who appreciate a hearty dish of Swiss hash browns (Rösti). But heavier meat can also be excellently fried in it. It's a real professional for fast browning. They are also suitable for induction stoves.

De-rind the cheese and grate coarsely

Place all the ingredients into the fondue pot

Heat while stirring continuously

RECIPE

Cheese fondue basic recipe

INGREDIENTS (FOR 6 PEOPLE)

- 32- 42 oz mixed cheese or:
- 14 oz mild Gruyère
- 14 oz strong Gruyère
- 10 oz Appenzell
- 4 oz Emmentaler
- 1 loaf of bread
- 6 level tps corn flour
- 2 ½ cups dry white wine
- 3 tps lemon juice
- 6 cloves of garlic, medium, coarsely chopped

PREPARATION

Cut the bread into bite-sized cubes. Grate the Gruyère, Appenzell and Emmentaler cheese with the coarse side of the grater. Place the cheese in the fondue pot. Sprinkle the corn flour over it and add the white wine, lemon juice and garlic cloves. Put on stovetop and heat mixture until the wine starts to boil, and then turn down to medium heat. Stir continually with a spatula. When stirring, make sure that the spatula always remains in contact with the bottom of the fondue pot so that the cheese does not stick and burn. As soon as a creamy mass forms, increase the heat so that the fondue bubbles up. Allow to simmer for 1-2 minutes and season to taste with pepper, nutmeg and paprika.

Light the burner in the rechaud and place the fondue pot with the simmering fondue mixture on top of it and immediately continue to stir with the bread cubes skewered on the fondue forks.

During the meal make sure that the cheese is thoroughly stirred on a continuous basis. Now all you have to do is select your favorite accompaniment and the cozy get-together around the fondue will become a fine dining experience.

Enjoy!

CUTTING

A SHARP VARIETY OF KNIVES FOR PRECISE AND SAFE CUTTING.

Smart herb and vegetable knives, colorful fruit knives, clever paring knives and ice-hardened titanium coated knives.

The right knife for every step. Super sharp, handy, ergonomic, with nonstick coating and practical blade protection, they bring joy and color into the kitchen everyday.

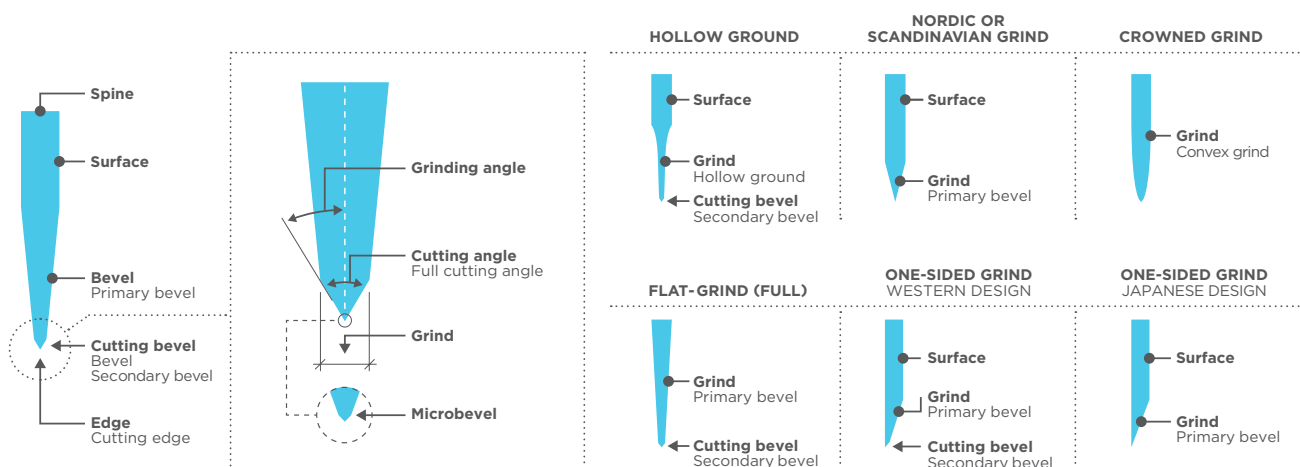

COLORI®+ KNIVES

SWISS DESIGN WITH COLOR AND STYLE COMBINED.

The COLORI®+ knife series from Kuhn Rikon has a stainless blade, ground on both sides, of Japanese steel, which has been ideally fashioned for your multipurpose use.

GOOD TO KNOW: DETAIL KNOWLEDGE ABOUT THE DIFFERENT KINDS OF KNIFE BLADES.

COLORI®+
Bread Knife

The blade is heated in an annealing oven at over 1830°F. This means the steel not only becomes harder but also flexible and corrosion-resistant. After that the blade is polished and ground on both sides. Every single knife receives its final polish from a specialised blade sharpener, an extremely skillful craftsman, who has acquired the art of grinding blades over many years. As well as a lot of practice and precision, in manual grinding processes the grinding angle is crucial above all in determining the quality

of the knife. With its acute blade angle of 14° on each side (double bevel), the COLORI®+ knives are and remain ultrasharp for a long time, they are also thereby excellently suited to all preparation tasks in the kitchen. Due to the double bevel and the nonstick coating of silicone, the knives glide effortlessly and precisely through the foods. The secure-grip handle and blade guard ensure even more safety. In addition, every knife is subject to a strict quality-control.

COLORI® TITANIUM KNIVES

ICE-HARDENED TITANIUM COATED KNIVES.

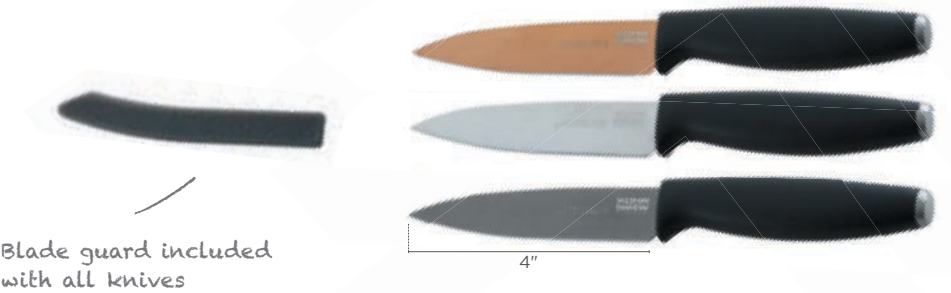

The new COLORI® Titanium knives combine the greatest technical requirements with aesthetic ambition. The Titanium coated, ice-hardened stainless steel blade guarantees long-lasting sharpness and performance. The blade and handle have been optimally adjusted so that the knives sit well in the hand and are well suited to their multiple uses in the kitchen.

ONE OF THE MOST IMPORTANT KITCHEN TOOLS EVER: A SUPER SHARP KNIFE.

Test results – conducted by the neutral and internationally renowned CATRA test institute in Sheffield, UK – prove: Kuhn Rikon titanium knives are verifiably sharper and stays sharper longer than products from well-known providers in the comparable price range.

Vision Knife Stand

7.75" x 8.75" boxed \$30.00
● Black 26565

Store up to 18 knives safely and within reach.

Blade separation provides perfect blade protection.

Secure non-slip feet

Vision Knife Block Clear

Safely store your favorite kitchen knives and shears within easy reach. The flexible storage inlay allows you to store knives of various sizes, while the clear base allows you to see the blades for quick knife selection.

8.5" x 3" x 8.5" boxed \$40.00
● Black 26594

Sharpening steels "sharpen" the knife by realigning the blade. But at some point that is no longer sufficient. Our Dual Sharpener with its grinding stone not only realign the edge but also remove material - often to be seen in the fine metal shavings left behind. After washing off, the knives are as good as new again.

Dual Sharpener

Sharpens serrated and straight blades in a few strokes then tucks away in a drawer.

6" carded \$20.00
● Black 2949
● Red 2950

Ceramic grinding stones for fine edges

Space saving, collapsible design

PREPARE

CLEVER COOKING ACCESSORIES FOR PLAYFUL PREPARATION.

**Understanding the needs of consumers
forms the true basis for good design.**

Only when one understands a practical application right down to the last detail can a product be developed, which is a real benefit to the consumer. Successful kitchen gadgets are those which are used intuitively and whose operation and design quality alike fascinate consumers.

A MODERN TWIST ON A KITCHEN CLASSIC.

ALL PRODUCTS
ON THIS PAGE **NEW**

Functionality, quality and great design have always been at the core of Kuhn Rikon products. Our tools are handcrafted from maple wood and finished with natural oil to enhance the natural beauty and structure of the maple wood.

- Handcrafted from hard maple
- Modern rounded square edges
- Decorative leather tie for hanging

CLICK 'N CURL PEELER SPIRALIZER.

Extra-long julienne spirals are a healthy low carb vegetable option as a pasta substitute

The ribbon curls are a great addition to stir fry dishes, gratins or salads

Rosettes for garnish

Position the cone onto the peeler between the blade and the handle

Trim the end of your veggie and insert into corner of cone

Turn veggie clockwise while firmly holding the peeler handle

Remove cone for cleaning by pushing cone out with thumb

Large cone (green): fits up to 2.75" diam. Use with zucchini, sweet potatoes and cucumbers

Small cone (orange): Fits up to 1.5" diam. Use with carrots, parsnips and broccoli stalks

NEW

Click-n-Curl Spiralizer

Handheld and easy to use, our Swiss-Made spiralizers will turn fresh veggies into faux-noodles and elegant ribbons in no time. Both cones work with either peeler and are removable for storage. Set includes a small cone, a large cone, Original Swiss Peeler and Julienne Peeler.
