A word on Meat Mixers:

Once your meat has been ground, seasonings must be blended with the meat before you load it into a sausage stuffer. Mixers make quick work of this process; evenly blending the seasonings in half the time a person could mix by hand.

TIPS FROM TY

For over 15 years I've been on the frontlines with our customers. And I love it! It's where I get my inspiration. I learn about what folks like and what they don't; what works and what doesn't. Then I make it my mission to build just the right product or find just the right solution. And when I do it's a great feeling. Here are just a few tips I've learned along the way.

– Ty Zeinner, LEM Product Manager

GRINDER TIP

Clean up is always an issue. When grinding is complete run some crushed ice or stale bread through the grinder. Not only will this help with clean up it will push that last bit of meat out of the grinder head. No waste!

SAUSAGE MAKING TIP

When making sausage links, instead of twisting every link, twist the first link, skip the next one and twist the third link the same direction as you did the first link. Save time!

ENERGY SAVING TIP

When your freezer inventory is running low, save on energy cost by filling the freezer with ice packs or water filled jugs. A full freezer costs less to run, and the ice will come in handy to cool your harvest in the upcoming season.

FILL YOUR FREEZER

CUSTOMER FAVORITE! Ground Meat Bags

Pack your ground meat the easy way. Quality opaque, polyethylene bags have a 1½" bottom gusset for added burst protection. The heavy 2 mil thickness guards against freezer burn. When filled and frozen, they stack neatly in the freezer. Seal bags using bag taping machine or hog rings. (see page 20 for Hog Rings and Pliers)

SILVERSKIN KNIFE KIT

NEW! SilverSkin Knife Kit

Effortlessly trim away silver skin for the best cuts! Silver skin is a thin membrane of tissue often found on venison or other game. It does not allow spices/marinades to permeate and unlike fat it will not melt away when cooked. If not removed it may leave meat gristly and gamey. The LEM Silver Skin Knife Kit includes safety glove, two blades, and purpose designed pliers to help you safely trim away silver skin so you can "eat better meat". **One Year Warranty. ETL Certified.**
