## ACCESSORIES AND TEMPLATES

## WE ARE LIMBSAVER

Since the very beginning, we here at LimbSaver and Sims Vibration Laboratory have been committed to engineering products that make a difference utilizing the most advanced, state-of-the-art technology available. We are producing the most effective noise and vibration-dampening products available today.

We are constantly researching, testing and evaluating new technologies, materials and designs. We only use the most accurate and in depth testing available. We look at peak amplitudes, decay duration, and frequency distribution for a more complete evaluation. This is how we ensure that we produce the most effective sound and vibration-dampening products possible.

The principal goal of LimbSaver remains as it has been all these years: to be the most innovative force in the science and application of vibration control in the world. You can hunt and compete with confidence knowing that your bow, crossbow, or firearm is equipped with the most state-of-the-art vibration and noise reduction technology available today.

LimbSaver is a company built upon hard work and unceasing commitment. LimbSaver employees take extreme care to produce the best products and to provide top-tier customer service.

Steven Sims

# LS TECHNOLOGY

**MADE IN USA**
The vast majority of our products are made in America. This ensures quality, consistency, and top customer service.

**SOUND & VIBRATION DAMPENING**
NAVCOM® is our proprietary Noise and Vibration Control Material. The durometer, or hardness, of the material is formulated differently for each specific product to ensure the best noise, vibration and felt recoil reduction.

**ANTI-SLIP**
Some of our products are designed to keep the product from slipping.

**ALL-WEATHER**
Get out there no matter the season - our products are rain, cold, heat, and UV safe.

**FELT RECOIL REDUCTION**
Designed to reduce felt recoil and stress on your body while shooting your firearm.

**CARBON FIBER**
We use only premium, high-modulus carbon fiber for its quality, lightness, and high rigidity.

**ANTI-MUZZLE JUMP**
Reduces how much the muzzle will rise when the weapon is fired, making it easier to stay on target for that second shot.

**ULTRA-LIGHTWEIGHT**
We classify only our lightest products as ultra-lightweight. These are designed for our hunters who wish to shave off every unnecessary ounce from their setup.

**TIGHTENS GROUPS**
Dampens barrel harmonics to help reduce the grouping diameter of most rifles, allowing for greater accuracy.

In a civilized and cultivated country wild animals only continue to exist at all when preserved by sportsmen. The excellent people who protest against all hunting, and consider sportsmen as enemies of wild life, are ignorant of the fact that in reality the genuine sportsman is by all odds the most important factor in keeping the larger and more valuable wild creatures from total extermination.
-Teddy Roosevelt

# TRUE-TRACK
## BIPOD

The True-Track Bipod is ready to take on the toughest that Mother Nature has to throw at it.

We sought to create a simple, straight forward design that allows for frustration-free quick adjustments to be made. By minimizing the complexity of the design, we were able to create a lightweight, less cumbersome product that is sure to become a necessary staple in anyone's range or hunting pack.

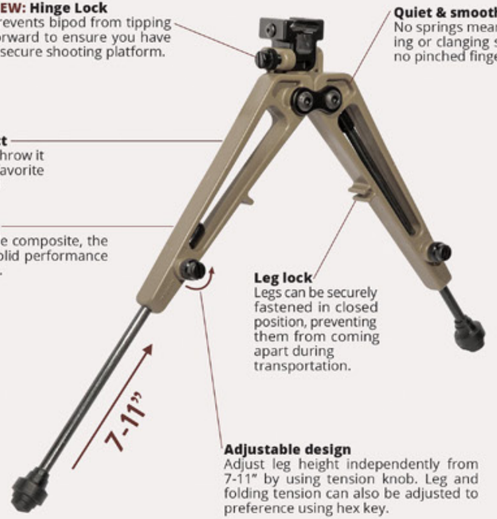
The True-Track Bipod weighs under 7 oz and depending on attachment system, can mount to either a 1913 picatinny rail or sling stud. The bipod legs join together and are securely fastened to prevent them from coming apart unexpectedly during transportation.

**NEW: Hinge Lock**
Prevents bipod from tipping forward to ensure you have a secure shooting platform.

**Quiet & smooth operation**
No springs means no creaking or clanging sounds, and no pinched fingers.

**Lightweight & compact**
Weighs under 7 oz. Just throw it in your bag or on your favorite rifle or crossbow and go!

**Built for the elements**
Made from military grade composite, the True-Track offers rock-solid performance in all weather conditions.



**Leg lock**
Legs can be securely fastened in closed position, preventing them from coming apart during transportation.

**Adjustable design**
Adjust leg height independently from 7-11" by using tension knob. Leg and folding tension can also be adjusted to preference using hex key.

**Secure attachment**
Choose from picatinny rail mount or universal swivel stud mount.

# TRUE-TRACK BIPODS

*COMPACT, LIGHTWEIGHT, & DURABLE DESIGN!*

## TRUE-TRACK **RIFLE BIPOD**

**Features**

# CROSSTECH™ HOLSTERS

From full size to compact and semi auto to revolver, the CrossTech™ Holster can be easily customized at home to fit nearly any handgun.

For a custom, comfortable fit, just reconfigure the Adjustment Bolts and then then use a heat gun or oven to conform the holster to your handgun. It only takes a few minutes!

**EDC Comfort**
Flexible and comfortable enough for every day carry (EDC)

**Customizable**
Ambidextrous, adjustable cant, shallow to deep concealment, multiple carry positions

**Heat-activated material**
Forms to the general shape of your pistol when a heat gun or oven is used

**Ultra-strong belt clips**
Convert from inside the waistband (IWB) to outside the waistband (OWB) in minutes

**Adjustment Bolt System**
Makes it easy to customize the holster to fit nearly any handgun

**Secure Strap**
Wraps around the top of the handgun and snaps into place, providing retention and security (only on some models)

# CROSSTECH™ HOLSTERS

MADE IN USA

## CROSSTECH™ ORIGINAL HOLSTER

**Features**

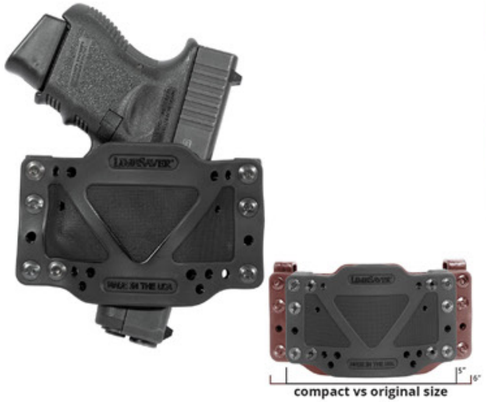
- Adjusts to fit nearly any handgun or revolver
- Heat activated material
- IWB/OWB convertible belt clips
- Optional Secure Strap
- Size: 6" across

**12501** Original Holster
**12504** Original Holster w/ Secure Strap

## CROSSTECH™ COMPACT HOLSTER

**Features**

- Great for compact and micro compact sized handguns
- Adjusts to fit nearly any handgun
- Heat activated material
- IWB/OWB convertible belt clips
- Size: 5" across



**12507** Compact Holster

# CROSSTECH™ LEATHER HOLSTERS

Our Leather CrossTech™ Holsters marry comfort and class. We designed these leather holsters to have the same universal fit and customization of the original CrossTech™, but now with a traditional look and feel.

These premium holsters are made from high-quality, genuine leather for maximum durability and comfort. They only get better with age.

From full frame to subcompact and semi-auto to revolver, CrossTech™ Leather Holsters can be easily customized at home to fit nearly any handgun.

**High-Quality Leather**
Forms to the general shape of your pistol when you use a water forming method

**EDC Comfort**
Flexible and comfortable enough for every day carry (EDC)

**Customizable**
Ambidextrous, adjustable cant, shallow to deep concealment, multiple carry positions

# AIRTECH®
## PRECISION-FIT RECOIL PAD

AirTech® Precision-Fit Recoil Pads offer your shoulder premium protection through advanced atmospheric chambers and NAVCOM® technology to reduce felt recoil by up to 70%. With AirTech®, enjoy that day at the range without the usual discomfort and bruising.

AirTech® pads help to increase your accuracy by giving you a stable shooting platform that grips to your shoulder and stays in place even in the rain. They incorporate anti-muzzle-jump technology for quick and accurate follow-up shots.

AirTech® pads also help you be a more consistent shooter overall by reducing felt recoil and pain, making you less likely to flinch.

**Anti-muzzle jump technology**
For quick and accurate follow- up shots

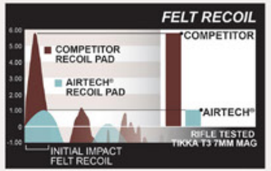
**Flinch less**
Shoot more accurately

**1-inch thick**
(may increase length of pull)

**Stock-specific sizing**
Check templates for best fit
Note: flat stocks only

Go to pages 26-39 for SIZING AND TEMPLATES

**Reduces felt recoil**
By up to 70%.



**Easy installation**
Precision-Fit Pads can be installed using factory screws and screw holes

# PRECISION-FIT RECOIL PADS

AIRTECH®
**PRECISION-FIT RECOIL PAD**

**Features**
- Advanced atmospheric chamber design
- Reduces up to 70% of felt recoil
- Anti-muzzle jump technology
- Flinch less and shoot more accurately
- Designed to fit specific gun stocks - 22 models available, check sizing and templates on pages 26-39
- 1-inch thick (LOP)

CLASSIC
**PRECISION-FIT RECOIL PAD**

**Features**
- Timeless design
- Reduces up to 70% of felt recoil
- Anti-muzzle jump technology
- Flinch less and shoot more accurately
- Designed to fit specific gun stocks - 21 models available, check sizing and templates on pages 26-39
- 1-inch thick (LOP)

**NEW MODEL AVAILABLE FOR CVA STOCKS**
See page 29 for details

Please see SIZING AND TEMPLATES on pages 26-39

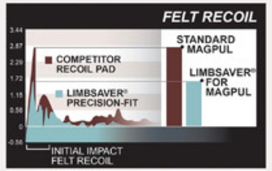
# PRECISION-FIT
## FOR MAGPUL STOCKS

LimbSaver® recoil pads for Magpul stocks give you a stable shooting platform. Like all LimbSaver® recoil pads, these specialty pads incorporate anti-muzzle jump technology that allows for faster target re-acquisition and helps increase accuracy of follow-up shots. You will enjoy heightened control and maximum stability.

It's no secret that flinching negatively affects accuracy. A comfortable shooting experience is key to your precision. If you are feeling discomfort or pain while putting a lot of rounds down range, this can cause poor groupings.

These recoil pads reduce up to 60% of felt recoil for comfortable shooting. Flinch less, shoot better.

**Reduces felt recoil**
By up to 60%.



**Two Precision-Fit Styles**
To fit many Magpul stock models

**Easy installation**
Precision-Fit Pads can be installed using factory screws and screw holes

# TACTICAL RECOIL PADS

### AR-15 **TACTICAL SNAP-ON**

**Features**

- Fits most 6 position mil-spec tactical stocks
- Semi-flexible material is designed to snap over tactical stock without any tools or modifications required
- Reduces up to 60% of felt recoil
- Increases stability for improved control Anti-muzzle jump technology for faster target re-acquisition
- Non-slip surface
- 5/8-inch thick

**10019** Black
**10020** Desert Tan

### PRECISION-FIT FOR **MAGPUL MOE SL**

**Features**

- Fits Magpul MOE SL stocks
- Reduces up to 60% of felt recoil
- Increases stability for improved
- control Anti-muzzle jump technology for faster target re-acquisition
- Non-slip surface
- 5/8-inch thick

**10829** Black

### PRECISION-FIT FOR **MAGPUL STOCKS**

**Features**

- Fits Magpul stocks including STR®, ACS™, ACS-L™, and UBR®, MOE® (MAG400) and Com/Mil-Spec CTR® (MAG310)
- Reduces up to 60% of felt recoil
- Increases stability for improved control
- Anti-muzzle jump technology for faster target re-acquisition
- Non-slip surface
- 5/8-inch thick

**10025** Black

**Please see SIZING AND TEMPLATES on pages 26-39**

# AIRTECH®

## SLIP-ON RECOIL PAD

LimbSaver® Slip-On Recoil Pads are the best option for gun stocks that we do not carry a Precision-Fit Recoil Pad for. Our AirTech® and Classic Slip-On Recoil Pads offer the same benefits as our Precision-Fit Pads, but are easy to install and require no stock modification. They provide premium protection for your shoulder through advanced atmospheric chambers and NAVCOM® technology and reduce felt recoil by up to 70%.

LimbSaver® Slip-On Recoil Pads are a great option for curved and non-standard sized buttstocks. Offered in 4 sizes, these pads fit nearly any stock. For best results, we recommend the removing the existing factory recoil pad.

**Flinch less**
Shoot more accurately

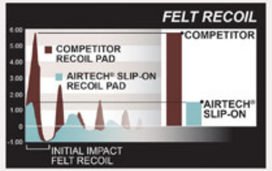
**Anti-muzzle jump technology**
For quick and accurate follow-up shots

**1/2 and 1-inch thick options**
(may increase length of pull)

**Simple sizing**
Four sizes available to fit nearly every gun stock.

| | PAD THICKNESS | MINIMUM STOCK SIZE | MAXIMUM STOCK SIZE |
|---|---|---|---|
| SM/MED | 1/2" | 4⅝" x 1 9/16" | 5⅛" x 1¾" |
| SMALL | 1" | 4½" x 1½" | 4 13/16" x 1⅝" |
| MEDIUM | 1" | 4 13/16" x 1⅝" | 5⅛" x 1¾" |
| LARGE | 1" | 5⅛" x 1¾" | 5⅜" x 1⅞" |

**Reduces felt recoil**
By up to 70%.



**Easy installation**
Just slip it over the butt of your bare firearm stock

# SLIP-ON RECOIL PADS

## AIRTECH® **SLIP-ON**

**Features**
- Advanced atmospheric chamber design
- Reduces up to 70% of felt recoil
- Anti-muzzle jump technology
- Flinch less and shoot more accurately
- Easy sizing and slip-on installation

**10549** Small/Med 1/2" thick
**10550** Small 1" thick
**10551** Medium 1" thick
**10552** Large 1" thick

## CLASSIC **SLIP-ON**

**Features**
- Timeless design
- Reduces up to 70% of felt recoil
- Anti-muzzle jump technology
- Flinch less and shoot more accurately
- Easy sizing and slip-on installation

**10546** Small 1" thick
**10547** Medium 1" thick
**10548** Large 1" thick

# SHOOTING ACCESSORIES

## SHOOTING VEST WITH **PROTECTIVE SHOOTING PAD**

**Features**
- Reduces up to 60% of felt recoil
- Ideal for those who are especially sensitive to firearm kickback; can be used in conjunction with LimbSaver® recoil pads for maximum protection
- Useful for extended shooting sessions
- Fully adjustable sizing; reversible for right or left-handed shooters

**90102** Black
**90100** Additional Protective Shooting Pad Insert (for extra padding)

## **SHARPSHOOTER X-RING** BARREL DAMPENER

**Features**
- Improves accuracy by dampening barrel harmonics
- Tightens groupings and helps you be a more consistent shooter overall
- Made from LimbSaver's proprietary NAVCOM® material to dampen vibration waves that can affect shot grouping
- Available in sizes that fit standard and bull barrels
- Bull barrel size also works on scoped slug shotguns

**BULL BARREL**
Fits ¾" - 1⅛" Barrel Dia.

**STANDARD**
Fits ½" to ⅞" Barrel Dia.

**12051** Standard - Black
**12052** Bull Barrel - Black

# GRIND-TO-FIT®
## RECOIL PAD

Our Grind-to-Fit® Recoil Pads are the ideal solution for people who want that perfect, custom fit but have a stock for which we do not have a Precision-Fit match. Grind-to-Fit® recoil pads offer the greatest customization. They are designed to be tailored to fit your stock using a belt grinder. We recommend that professional shops modify and install these pads.

In addition to the traditional 1"-thick pad, we provide our customers with some unique recoil pad styles that are offered exclusively in our Grind-to-Fit® line. These specialty designs include Low Profile, Speed Mount, Trap, or Nitro Pads.

**Anti-muzzle jump technology**
For quick and accurate follow-up shots

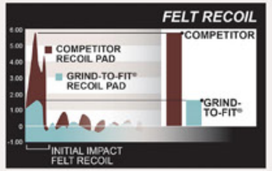
**Flinch less**
Shoot more accurately

**5/8, 1 and 1½-inch thick options**
(may increase length of pull)

**Grind-to-Fit® Sizing**
Four sizes available to fit nearly every gun stock.

| | STARTING SIZE | GRINDABLE DOWN TO SIZE |
|---|---|---|
| SMALL | 4 13/16" x 1 27/32" | 3⅞" x 1 11/32" |
| MEDIUM | 5 3/32" x 1 13/16" | 4¼" x 1 5/16" |
| MED. PLUS | 5½" x 1 31/32" | 3⅞" x 1 11/32" |
| LARGE | 5 9/16" x 2 1/16" | 4 7/16" x 1 19/32" |

**Reduces felt recoil**
By up to 70%.



**Grind away for a perfect fit**
For nearly every stock. We recommend having a gunsmith grind and install pad

# GRIND-TO-FIT® RECOIL PADS

## **CLASSIC** GRIND-TO-FIT®

**Features**
- Advanced atmospheric chamber design
- Reduces up to 70% of felt recoil
- Anti-muzzle jump technology
- Flinch less and shoot more accurately
- 1-inch thick (LOP)
- Size is altered with belt sander to perfectly fit your stock

**10541** Small
**10542** Medium
**10543** Large

## **LOW PROFILE** GRIND-TO-FIT®

**Features**
- Same features as Classic Grind-to-Fit®
- Thinner 5/8-inch pad is ideal for shooters who don't want to increase length of pull (LOP)
- Curved design for quicker and easier shouldering
- Reduces up to 60% of felt recoil

**10544** Medium Plus

## **NITRO** GRIND-TO-FIT®

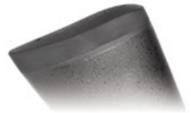
**Features**
- Same features as Classic Grind-to-Fit®
- Extra-thick 1½-inch pad provides maximum protection from safari-grade calibers
- Reduces up to 70% of felt recoil with safari-grade calibers

**10537** Small
**10538** Medium
**10539** Large

## **SPEED MOUNT** GRIND-TO-FIT®

**Features**
- Same great features as Classic Grind-to-Fit®
- Special sloped design makes shouldering quicker and easier - great for sport shooters
- Reduces up to 70% of felt recoil
- 1-inch thick (LOP)

**10540** Medium Plus



## **TRAP** GRIND-TO-FIT®

**Features**
- Same great features as Classic Grind-to-Fit®
- Curved-contour design for precise shouldering - tucks snugly into shoulder
- Reduces up to 70% of felt recoil
- 1-inch thick (LOP)

**10534** Small
**10535** Medium
**10536** Large

# FIREARM SLINGS

Each of our rifle slings is made from our proprietary all-weather, non-slip, flexible NAVCOM® material. They are designed to contour around your body and distribute the weight of your rifle to keep you comfortable, even on your long distance trek.

**Adjustable Hand Grip**
The Kodiak-Air features a premium locking handle that can be repositioned

**Secure Attachment**
Each of our rifle slings features a different kind of secure attachment.

## KODIAK-AIR RIFLE SLING

**Features**

- Extra-flexible design molds and bends to your body's contours
- Distributes weight evenly across your shoulder
- Ergonomic, adjustable, locking hand grip
- Non-slip NAVCOM® material keeps your firearm in place, even in the rain
- High-strength Universal Quick Detach System

**12190** Black
**12191** Camo
**12192** OD Green
**12195** Black w/ Mossy Oak Break-Up Infinity® Strap
**12197** Black w/ Realtree Xtra® Strap

**Please see larger camo pattern examples on page 5**

## SW TACTICAL SLING

**Features**

- Evenly distributes the weight of your tactical rifle over a larger area for greater comfort
- Two military-grade quick-connect clasps for single and dual point connection
- Quick release clip allows you to take sling on and off easily without unhooking from rifle
- Non-slip NAVCOM® material keeps your firearm in place, even in the rain
- Adjustable length, ambidextrous design

**12139** Black
**12140** Tan

# RECOIL PAD FITTING GUIDE INSTRUCTIONS

**1.** Find your make and model on the following pages of the Recoil Pad Fitting Guide to find the corresponding LimbSaver® Recoil Pad product number.

**2. IMPORTANT:** Due to manufacturers' stock deviations, LimbSaver® Precision-Fit Recoil Pads are not a guaranteed fit. **Please also use our templates to ensure proper fit.**

**3. Note:** All Precision-Fit and Grind-to-Fit® pads are designed for flat butt stocks (unless specified)

**3. Note:** All pads, unless specified, are approximately 1" in thickness.

**4. Note:** Precision-Fit pads are not intended to be ground.

**5.** The Precision-Fit Recoil Pad Fitting Guide is not an exhaustive list. If you do not find a match, please continue on to use our templates.

**COLOR KEY**

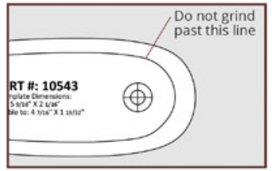
- Synthetic Stocks
- Wood / Laminate Stocks (Flat Stocks)

## WE'RE HERE TO HELP!

**CALL US**: 360-427-6031
**EMAIL US:** SALES@LIMBSAVER.COM
**VISIT LIMBSAVER.COM FOR**
PRINTABLE TEMPLATES
AND HELPFUL VIDEOS

**Stock-specific sizing**
Check templates for best fit

**Grind-to-Fit Pads**
Are designed to only be ground down to minimum inner line on template



**Flat vs profiled base plate**
Most recoil pads have a flat base plate, but some have a profile that is designed to snap inside the cavity of specific stocks and will not work on flat stocks

## WHY USE TEMPLATES

Many manufacturers modify their stock dimensions yearly, making it difficult for us to keep one specific model available for one specific manufacturer. You may also have a less common gun that we do not list in our Recoil Pad Reference Guide, but you may find a pad that works great. For those reasons we have provided these templates to help you match your buttstock.

If you have a stock that one of our Precision-Fit Recoil Pads will not fit, you can utilize our Slip-On Recoil Pads which deliver the same felt recoil reduction as the Precision-Fit Pad. You may also utilize our Grind-to-Fit® Recoil Pads, but these may require a visit to your local gunsmith.

## HOW TO USE OUR TEMPLATES

Remove the existing recoil pad or plate from your butt stock by unscrewing. If your recoil pad is glued on, it may require gunsmithing.

Place the gun stock on top of each template until you have found a match.

Cut template out and place on stock to check for perfect fit and to determine screw hole location. If the screw holes do not line up, you can slot or elongate the screw holes on the bottom of our plate an additional 3/16" or more towards the heel or the toe and 1/16" towards the center of the pad (use a Dremel® tool with sanding attachment) to match the holes in your stock. This is regardless of wood or synthetic stocks. Please note: This only refers to the template recoil pads that are not already elongated or slotted.

Once a match is found, the product number will be on that specific template so you will know which one to order.

# RECOIL PAD TEMPLATES

**PART #: 10001(Classic), 10800(AirTech)**
Template Dimensions:
5.025" X 1.7"
(Approx.) 5 - 1/32" X 1 - 11/16"

**PART #: 10002(Classic), 10801(AirTech)**
Template Dimensions:

## ABOUT GRIND-TO-FIT® RECOIL PADS

The following Grind-to-Fit® Recoil Pads are shown with two profile lines. The outer line is the actual size of the pad. The inner line is the "Max" Grind line. In order for our technology to function properly, the interior air chamber must remain intact with enough wall thickness to contain the pressure during the firing of the weapon. By not grinding past this line, you ensure your pad will be in perfect working order.

To determine which Grind-to-Fit® Recoil Pad is right for you, remove your existing pad, and place your flat stock on the templates. Choose the pad that shows the full outer line of the template, and none of the interior line. For further instructions, go to www.LimbSaver.com.

Go afield with a good attitude, with respect for the forest and fields in which you walk. Immerse yourself in the outdoor experience. It will cleanse your soul and make you a better person.

-Fred Bear

# SPARTAN
## COMPACT STABILIZER

The Spartan stabilizer is designed to hit the mark for performance and affordability to give you more value for your money.

Due to its price point and compact size, the Spartan is a great for youth, recreational shooters, and hunters alike.

Like our other stabilizers, the Spartan will dampen vibration, hand shock, and noise. You will notice a difference in how your shot feels no matter which bow you shoot, whether 10 years old or brand new.

**Lightweight**
Only 4 oz (approx.)

**Compact length**
4.25" length is great for shooting in confined spaces such as ground blinds, treestands, and brushy areas

**NAVCOM®**
Built with LimbSaver's proprietary Noise and Vibration Control Material to help mitigate vibration and buzz

**Sectional design**
Helps target and dampen hand shock for a smoother shot

# SPARTAN / S-COIL PRO

## SPARTAN

**Features**

- Great value and performance
- Smoother shooting feel
- Feel less hand shock
- Compact length of 4.25": great for youth and for shooting in confined spaces such as ground blinds, treestands, and brushy areas
- Lightweight: 4 oz (approx.)

**4840** Standard Camo
**4841** Black

## S-COIL **PRO**

**Features**

- Utilizes a series of Broadband Nodes to reduce vibration and noise
- Smoother shooting feel
- Feel less hand shock
- Compact length of 4.5": great for shooting in confined spaces such as ground blinds, treestands, and brushy areas
- Lightweight: 4.8 oz (approx.)

**4560** Standard Camo Rings
**4561** Black Rings

**Please see page 45 for colored Broadband Rings to customize stabilizer color**

# S-COIL
## COMPACT STABILIZERS

The S-Coil continues to be one of our best selling stabilizers year after year. Its impressive vibration and noise reduction and compact size never goes out of style.

**Spiraled design**
Helps to dampen vibration from the shot for an overall smoother shooting experience.

**NAVCOM®**
Built with LimbSaver's proprietary Noise and Vibration Control Material to help mitigate vibration and buzz

**Add length and performance**
To any stabilizer with the S-Coil Extension

**Bright Colors**
In addition to black and camo, we have 7 bright colors to make sure you get just the look you want.

# S-COIL STABILIZERS

MADE IN USA

## S-COIL

**Features**

- Smoother shooting feel
- Reduces vibration and noise
- Feel less hand shock
- Compact length of 4.5": great for shooting in confined spaces such as ground blinds, treestands, and brushy areas
- Lightweight: 4.5 oz (approx.)

## MINI S-COIL

**Features**

- Ultra-compact length of 3.5": Fits in most bow cases while installed and is great for shooting in confined spaces
- Smoother shooting feel
- Popular with youth shooters
- Reduces vibration and noise
- Feel less hand shock
- Lightweight: 3 oz (approx.)

**3063** Standard Camo
**3064** Black

## S-COIL EXTENSION

**Features**

- Length extension of 2.75": Add length and extra vibration dampening to any stabilizer
- Features a 5/16-inch thread for stabilizers to screw into
- Smoother shooting feel
- Lightweight: 2.5 oz (approx.)

**3068** Standard Camo
**3069** Black

# STABILIZER ACCESSORIES

## FW1
## STABILIZER ENHANCER

**Features**

- Add weight to your stabilizer to keep your bow steady while you aim
- Two weights included (2 oz each)
- Install additional weights using the built-in 5/16" thread mount
  **Additional weights sold separately*
- Double-Broadband design reduces vibration and helps your bow settle faster for a smoother shot
- Use on stabilizers that have a 5/16" thread mount on the end
- Weighted: 5.6 oz (total)
  Diameter: 1.65 in

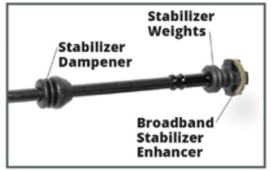
## STABILIZER WEIGHTS

**Features**

- Adding weight to the end of your stabilizer helps keep your bow steady and on target while aiming
- Includes two 2-ounce weights with a durable finish

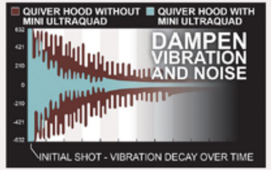
**4570** Set of 2 weights



## MINI ULTRAQUAD
### DAMPENERS

Have a quiver or a sight that rattles when you shoot your bow? A simple and easy trick to help eliminate the unwanted noise is to use our Mini UltraQuad Dampeners. These tiny dampeners are designed to be stuck anywhere on your bow to give you next level stealth.

**Ultimate vibration control**
Utilizing NAVCOM® technology to produce smooth, quiet shots with less hand shock



# BOW DAMPENING ACCESSORIES

MADE IN USA

### FALL - AWAY DROP PAD

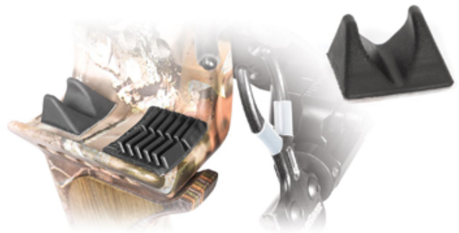
**Features**

- Reduces bounce back and impact noise from fall-away arrow rest arms
- Now even more effective with new forward-collapsing design
- Made with NAVCOM® for ultimate vibration and noise dampening
- Can be used with most fall away arrow rests
- Mounts securely to any bow riser shelf by self-adhesive
- Width: 1 inch
  Weight: .1 oz

### ARROW HOLDER

**Features**

- Forked design keeps arrow aligned on shelf while you prepare to draw back
- Compatible with any size arrow shaft
- Made with NAVCOM® for ultimate vibration and noise dampening
- Mounts securely to any bow riser shelf by self-adhesive
- Width: .75 inch
  Weight: .2 oz



**3763** Fall-Away Drop Pad
**3764** Arrow Holder
**3765** Fall-Away Drop Pad + Arrow Holder Combo (1 each)

# BOW DAMPENING ACCESSORIES

MADE IN USA

### MINI ULTRAQUAD
DAMPENERS

**Features**

- Dampens vibration and unwanted noise on all of your archery gear
- These small, lightweight dampeners are designed for accessories including sights, arrow rests, quivers, cams, and more
- They adhere to your gear using industrial-strength adhesive and can be used in all harsh weather conditions
- Diameter: .88 inches
  Weight: .6 oz each

**3007** Black (3 pack)

### INSULATOR STRIP
BOW GRIP DAMPENER

**Features**

- Made with NAVCOM® to isolate your hand from riser shock and vibration
- Insulates your hand from the cold riser and adds comfort while gripping your bow
- Attaches on the front and back of your bow grip
- Product is 3/16" thick and will slightly increase grip depth
- Sold in a 2 pack
- Length: 3.5 inches
  Weight: 1.1 oz each

**3410** Black (2 pack)

### TENTACLE
GRIP WRAP

**Features**

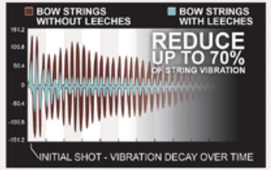
- Isolates your hand from vibration and bow shock
- Non-slip material ensures consistent grip even while wet
- Insulates against cold and heat
- Quickly and securely wraps around your bow grip
- Length: 24 inches
  Weight: 1.4 oz

**3407** Black

# STRING
## AND CABLE LEECHES

Just as a guitar string makes noise as it oscillates, so does a bow string. Let's face it, you don't want to make music with your bow. LimbSaver's string and cable leeches address the vibration, or oscillation, that happens during and immediately following the shot. You will notice less noise and a smoother shot.

**Ultimate vibration control**
Utilizing NAVCOM® technology to produce smooth, quiet shots



# STRING & CABLE DAMPENING ACCESSORIES

## EVERLAST
STRING LEECH

**Features**
- Designed to reduce string oscillation and reduce string noise
- Helps to keep your shots quiet and smooth
- Built to last - provides unsurpassed durability
- Installs between the strands of bow strings; bow press required for installation
- Length: 1.1 inch
  Weight: .1 oz each

**Everlast 4 Pack**
**3317** Black
**3331** Blue
**3333** Green
**3335** Purple
**3337** Pink
**3319** Red
**3351** Orange

**3336** Purple
**3338** Pink
**3320** Red
**3353** Orange
**3354** Yellow

## SUPER
STRING LEECH

**Features**
- Effectively reduces string noise as well as oscillation buzz
- Helps to keep your shots quiet and smooth
- Installs between the strands of bow strings; bow press required for installation
- Length: 1.17 inch
  Weight: .1 oz each

## SUPER
CABLE LEECH

**Features**
- Reduces cable noise and virtually eliminates cable oscillation
- Installs between the strands of bow cables; bow press required for installation
- Length: .85 inch
  Weight: .1 oz each

**Super String Leech**
**3313** Black 4 Pack
**3315** Black 2 Pack

**Super Cable Leech**
**3316** Black 4 Pack

# STRING & CABLE DAMPENING ACCESSORIES

## STRING DECELERATOR

**Features**
- Durable node slows bow string to a stop to minimize slapping noise
- Helps prevent your wrists from getting slapped when you shoot
- Universal mounting system fits most bows; mounts to front or rear stabilizer accessory holes
- Kit includes string decelerator, cable rod, mounting brackets, and clamp
- Length: 3.77 inches
  Weight: 3.5 oz

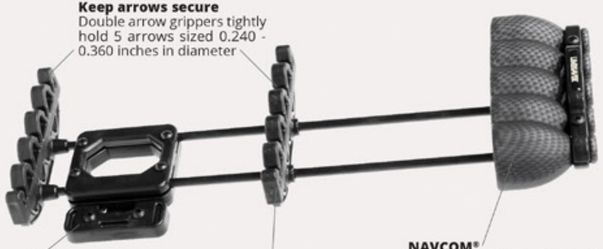
# SILENT QUIVER

The hood and double grippers on the Silent Quiver, made out of NAVCOM®, ensure absolute silence. The flexible properties of the hood and grippers ensure that you do not accidentally make noise when removing your arrow from your quiver.

The universal design fits most fixed and expandable broadheads, as well as a wide spectrum of shaft sizes. Never lose another arrow! The positionable double grippers securely hold 5 arrows, sizes from .240" - .360".

Gripper inserts are available to adapt the Silent Quiver to fit micro-diameter arrows as thin as .166"!



# SILENT QUIVER

## SILENT QUIVER

**Features**

- Low profile and lightweight design
- Quiver hood and arrow grippers are made from flexible, NAVCOM® material to prevent noise
- Positionable grippers securely hold up to five arrows sized 0.240 to 0.360 inches in diameter
- Universal design fits both fixed and expandable broadheads and a wide spectrum of shaft sizes
- Quick disconnect system is operated by an easy-to-access thumb release **compatible with most sights, will not work with HHA sights*

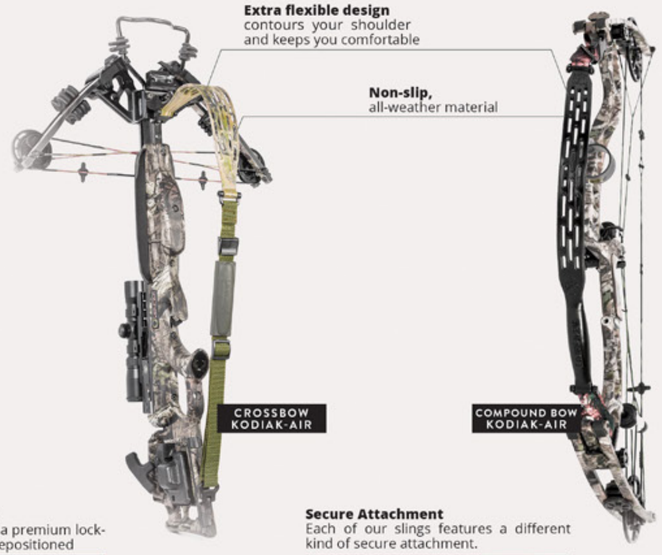
## BOW & CROSSBOW SLINGS

Our crossbow and archery slings are made from our proprietary all-weather, non-slip, flexible NAVCOM® material. They contour around your body and distribute the weight of your bow or crossbow to keep you comfortable, whether you are walking to your treestand or are stalking game for miles.



**Adjustable Hand Grip**
The Kodiak-Air features a premium locking handle that can be repositioned

**Secure Attachment**
Each of our slings features a different kind of secure attachment.

## BOW & CROSSBOW SLINGS

MADE IN USA

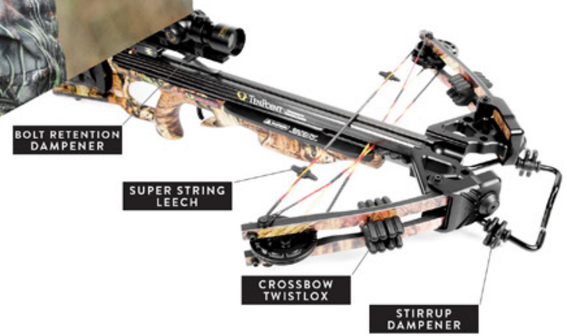
## CROSSBOW DAMPENING

A major complaint of crossbow hunters is the horrendous amount of noise that results from the shot. LimbSaver® crossbow suppression accessories reduce felt vibration energy to ensure every shot will be quieter, smoother, and cause less wear on your crossbow.

**Ultimate vibration control**
Utilizing NAVCOM® technology to produce smooth, quiet shots



### CROSSBOW **SUPPRESSION KIT**

**Features**

- 4 types of dampeners that address vibration trouble zones to help deaden and silence your crossbow
- Kits include
  - + **1 set of Limb Dampeners** *(your choice of either Twistlox (split-limb) or Crossbow Broadbands (split or solid-limb)*
  - + **2 Stirrup Dampeners**
  - + **1 Bolt Retention Dampener** *(Slides over and helps to quiet the bolt retaining spring)*
  - + **2 Super String Leeches®** *(Reduce string noise. Note: a bow press is required for leech installation)*

**SPLIT-LIMB KITS**
**4740** TwistLox - Black
**4741** TwistLox - Camo
**4187** Broadband - Black Ring
**4188** Broadband - Camo Ring

**SOLID-LIMB KITS**
**4178** Broadband - Black Ring
**4179** Broadband - Camo Ring

# CROSSBOW DAMPENING

MADE IN USA

### CROSSBOW **TWISTLOX SPLIT LIMB DAMPENER**

**Features**

- Reduces up to 50% of vibration as well as noise from the limbs, giving you a noticeably smoother and quieter shot
- Designed for split-limb crossbows and are made durable to withstand the extreme torque and power from high-powered crossbows
- Easy Installation - no tools required for installation; Securely lock between your limbs without the use of a plastic bracket *Gaps between limbs must be parallel for proper installation
- Use two or more TwistLox suppressors per limb - sold in packs of 4
- Length: 2 inches
  Weight: .7 oz each

**4730** Black
**4731** Camo
**4912** Blue
**4913** Green
**4914** Purple
**4915** Pink
**4916** Red
**4917** Orange
**4918** Yellow

### CROSSBOW **BROADBAND LIMB DAMPENERS**

**Features**

- Technical design suppresses vibration and noise for a smoother, less disruptive shot
- Larger than the original model for compound bows and are designed to withstand the immense power and energy that crossbows produce
- **Solid-Limb Crossbow Broadbands**
  Securely and easily install; industrial-strength 3M adhesive ensures your limb dampeners will remain in place
- **Split-Limb Crossbow Broadbands**
  Securely install using a bracket system that will not cause damage to your limbs, thanks to the NAVCOM® washers; works great on tapered-limbs
- Diameter: 2 inches
  Weight (each): Solid: 1.1 oz / Split: 1.9 oz

**SOLID LIMB**
**4160** Black Bands
**4161** Camo Bands

**SPLIT LIMB**
**4169** Black Bands
**4170** Camo Bands

### CROSSBOW **STIRRUP DAMPENER**

**Features**

- Designed to reduce noise and vibration that crossbow foot stirrups make
- Made from LimbSaver's proprietary NAVCOM® vibration dampening material for optimum performance
- Stirrup Dampeners attach to almost any foot stirrup with slip-on design
- Zip ties are included for installation onto foot stirrups that cannot be removed from crossbows
- Sold in a pack of two
- Length: 1.5 inches
  Weight: .3 oz each
