LEDSTR1-WW
Single Colour Indoor LED Strip Light, 2W, 12V
Cabinet, Cove & Display

Features

Led Strip
Rated for 25,000 hours, this 12", 12V LED strip boasts an even light distribution with a linear light beam spread of 120 degrees. Energy-efficient and mercury– and UV– free, the strip is cool to touch.

Power Supply
The standard driver for LED strip lights is a Class 2, 6W driver that plugs into a standard 120V AC outlet. The driver comes with a 6' cord and rotary switch. A maximum of 3 strips can be connected per 6W driver. Driver sold separately. For additional driver options available for longer runs, see accessories below.

Light Output
Available in 2700°K±300°K colour temperature with a light output of 130 lumens per strip.

Linkable
The LED strips are linkable via direct connection or flexible connectors; LEDSTR-FC (sold separately) add additional lengths of lighting to single power supply (driver) to accommodate longer runs.

Mounting
Each LED strip light is provided with two types of clips to accommodate different mounting angles (35° and 0°).
Applications
Excellent for task and accent lighting in kitchen cabinets, coves, furniture, backlighting and many other applications.

Description

LEDSTR1K is a 12V 12" LED strip light that provides effective under cabinet illumination and backlight for kitchen cabinets and coves, displays, furniture etc. The 2W strip itself is cool to touch and energy-efficient while providing 140 lumens of light output with 2700±300K colour temperature..
