

WHITE LITHIUM GREASES
CODES 11350, 11354, 11355,
11356, 11357, 11487

NLGI Grade: 2
Color: Off White
Working Temp: 0°F-250°F

Thickener Type: Lithium 12-Hydroxy Stearate
Texture: Smooth

Brief product description: A multipurpose lithium grease, provides rust and corrosion inhibition and protection against oxidation. Its off-white color allows for easy identification of fresh grease when flushing out old grease.

<u>Test</u>	<u>ASTM Method</u>	<u>Typical Result</u>
Penetration @ 77°F Worked 60 Strokes	D-217	265-295
Rust Protection	D-1743	Pass
Oxidation Stability	D-942	5.0 max
Dropping Point, °F(°C)	D-2265	+350 (177)
4-Ball EP Performance	D-2596	
Load Wear Index		61
Weld Point, Kgf		250
4-Ball Wear Protection	D-2266	0.6
Scar Diameter, mm		
Water Washout @ 175°F, %	D-1264	3.5
Oil Separation, % Loss	D-1742	3.0 max
Base Oil Characteristics		
Vis @ 40° cSt	D-445	145
Vis @ 100° cSt	D-445	12.0
Vis @100°F SUS	D-445	771
Vis @210°F SUS	D-445	67.3
Viscosity Index	D-2270	61
