We Know Magnets

Founded in 1976 and located in Castle Rock, Colorado, Master Magnetics, Inc. manufactures and distributes all types of magnets and magnetic devices for commercial, industrial and consumer use. The Magnet Source® brand is a registered trademark of Master Magnetics, Inc. and represents exceptional quality, expertise and customer service.

Innovative and Extensive Product Line

We continuously develop useful and profitable magnetic products. Magnets attract profits, and with over 250 SKUs of packaged resale magnets in stock, customized planograms and consistent quality, The Magnet Source® brand is a great profit center for your store.

Customer Service

- Serving large and small retailers, co-ops and distributors for Hardware, Home Improvement, Automotive, Craft, Hobby, Office/School Supplies and Housewares categories.
- Two regional production and distribution facilities ensure fast and cost-effective delivery.
- Highest rankings on vendor scorecards achieved for on-time delivery, complete shipments, bar code compliance and product quality.

Product Quality

We define product quality in terms of magnetic strength, product functionality, craftsmanship and packaging. The Magnet Source® brand assures powerful, built-to-last magnetic products with attractive trilingual (English, Spanish and French) packaging for multi-national markets.

Permanent Magnetism Guarantee

The magnets in this catalog are all made from permanent magnet material. We guarantee, under normal use, that these magnets will remain magnetized or we will remagnetize them. There is an expected loss of strength of .5 of 1% per century.

Magnetic Strength Pull Test Methodology — Max Force

We rate our magnets by pounds of pull in a vertical breakaway test. Each magnet's entire magnetic surface is tested against a .5" thick ground steel plate. If the item to lift is thinner than .5", is not grounded, or does not cover the entire magnetic surface, the actual holding capacity will be much lower. Painted surfaces will reduce tested strengths. See page 39 for more information.

Custom planograms available.

Neodymium Magnets

Neodymium Magnets

Also known as Rare Earth Magnets, these discs and rings are made of neodymium, the most powerful magnet material in the world. The 07047 size disc is only the size of two dimes. Great for projects that require extreme strength in a small size. Care should be taken because these magnets are brittle and can chip if dropped. These magnets are **NOT FOR CHILDREN**.

Neodymium Disc Magnets

Neodymium Disc Magnets with Foam Adhesive

These neodymium disc magnets feature pre-applied foam adhesive, just peel off the adhesive liner and stick to your project. Industrial-strength acrylic foam adhesive conforms to the irregularities of rigid substrates and adheres the magnet to a multitude of materials including wood, plastic, ceramic, rock, paper and much more. Full cure time for adhesive is 24 hours.

Ceramic Magnets

Ceramic Magnets

Also known as ferrite magnets, these powerful discs, blocks and rings are ideal for crafters, hobbyists and teachers. The best-selling sizes of discs and rings are .5, .75 and 1 inch. Attach to photo frames, calendars, schedules and more to display on ferrous metal surfaces.

Magnetic Round Bases

Innovative Round Base Magnets

Super Blue™

Industrial-strength Super Blue™ round base magnets provide the most holding power available in a pot magnet. Embedded neodymium magnets provide maximum strength, while unique design prevents dust and debris from collecting around the magnets.

Part No.	Max Force (lbs.)	Grade	Outer Diameter	Inner Diameter	Thickness	Center Hole
07605	40	35	1.25	.3	.2	.138
07606	60	42	1.45	.4	.275	.197

All dimensions in inches.

NeoGrip™

Rubber-coated neodymium round base magnet provides superior holding power. Durable rubber coating provides unbeatable sheer strength by preventing magnet from slipping or sliding, scratch-free mounting and rust resistant.

Part No.	Max Force (lbs.)	Grade	Outer Diameter	Inner Diameter	Thickness	Center Hole
07625	16	35	1.25	.2	.2	.138
07626	20	42	1.45	.3	.275	.197

Ceramic Magnetic Hooks

Handi Hook™ Magnet

A powerful magnetic assembly with unlimited uses. Perfect for hanging items such as tools, keys, and utensils from any ferrous metal surface. This hook lifts up to 20 pounds in a vertical test, and includes a special liner to prevent surface scratches.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
i 07218	20	Plated	2	.48	1.25	.3

All dimensions in inches.

White Magnetic Hooks

Small but strong these useful hooks can hang tools, wiring, cables and signs. Useful for organizing wiring for lights or sound too. Coated with durable white enamel paint. Two pieces per package.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
i 07290	9	White	1	.5	1.40	.33
i 07291	14	White	1.25	.47	1.40	.33

All dimensions in inches.

Reversible Magnetic Hook

Use to hang lights, wiring, tools, banners, decorations and more from any ferrous metal surface. Loosen the bolt and flip the hook for versatility in hanging directions. Powerful ceramic magnet, blue base.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Length	Base Thickness
07529	25	Blue	2.25	.8	4.2	.5

All dimensions in inches.

Magnetic Décor Hook

Powerful ceramic magnets include protective liner to help prevent surface scratches. They even hold through glass. Simply place a magnet on each side of the glass, then hang the sign or decoration. Can be used with single pane windows or as single hooks on metal doors. If used on a metal surface, each hook will hold up to 35 pounds. Protective liner helps prevent scratching. Recommended use for single-pane windows only. Set of two.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
i 07254	35	Plated	2.63	.25	1	.385

All dimensions in inches.

Ceramic Round Base Magnet with Attachments

Industrial-strength magnetic base with attachments can be used in a variety of ways. Heavy duty construction is ideal for hanging, holding and storing multiple items, tools, wires and more. Attachments includes; eyebolt, hook, and bolt with three nuts. 10-24 thread.

Part No.	Max Force (lbs.)	Outer Diameter	Inner Diameter	Thickness	Center Hole
07596	35	.204	.822	.302	.2

All dimensions in inches.

Neodymium Magnetic Hooks

Magnetic Rotating and Swinging Hook

Industrial-strength neodymium magnetic hook rotates 360 degrees and swings 180 degrees. Heavy duty construction. Includes non-scratch, gripping liner.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
07580	65	Black	1.5	.65	2.37	.29

All dimensions in inches.

Grade 42 Neodymium Hooks

Use these industrial-strength hooks to hang tools, equipment, lights, and other items in warehouses, garages, or work stations. Durable zinc plating provides corrosion resistance.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
07631	18	Plated	.63	.35	1.4	.2
07632	28	Plated	.787	.35	1.5	.285

All dimensions in inches.

Magnetic Hooks

Each of these metal hooks offers users unique holding functions and non-scratch liners. Neodymium magnets provide industrial-strength holding power. Ideal for holding and storing tools, cables, signs and other heavy items.

Part No.	Max Force (lbs.)	Hook Type	Diameter	Hook Opening	Overall Height	Base Thickness
07287	35	Key Ring	1.125	.93	1.5	.22
07587	45	Carabiner	1.125	.47	1.9	.22
07589	40	Swing	1.125	.4	1.5	.22

All dimensions in inches.

Magnetic Hooks

Unique and attractive blue plastic hooks with powerful neodymium magnets can be used to hang wiring, pot holders, decorations, cords and more. Slip resistant pads make these hooks work well on refrigerators, lockers and file cabinets. Two hooks per package.

Part No.	Max Force (lbs.)	Color	Length	Width	Hook Opening	Overall Height
07599	5	Blue	1.25	1	.34	.7

All dimensions in inches.

Super Blue™ Magnetic Swing Hook

This versatile hook both swings and rotates 360 degrees. Industrial-strength magnetic hook features neodymium magnets embedded in our Super Blue™ plating for maximum strength.

Part No.	Max Force (lbs.)	Color	Diameter	Hook Opening	Overall Height	Base Thickness
07548	65	Plated	1.5	.73	3.1	.5

All dimensions in inches.

Posting Magnets

Magnetic Bulletin Bar

Organize and display calendars, photos, to-do lists, important documents and more on a powder-coated or brushed steel bar with strong magnets. Turns any surface into a magnetic board; magnets make changing the display easy.

- Ideal for home, office, school or dorm
- Adheres to smooth and textured surfaces such as walls, tile, glass, concrete and plastic, wood*
- No holes in wall or displayed item
- Mounts easily with removable foam adhesive or screws (powder-coated bars)
- See more types of posting magnets to use with the Bulletin Bars on pg. 9

Magnet Anywhere™

Adhesive Steel Disc with Magnet. A practical, simple way to display and organize photos, artwork, cards and more. Powerful magnets attract to nickel-plated steel disc and won't damage displayed items or leave holes in your wall, office or classroom organized and tidy. Removable foam adhesive backing on each steel disc adheres to multiple surfaces such as walls, tile, wood, glass, concrete and plastic.* No holes in wall or displayed item. Magnets make it easy to change the display.

Tool and Parts Holding Magnets

Magnetic ToolMat™

The Magnetic ToolMat™ keeps your tools and parts with you while you're working, helping you stay organized and work fast. Flexible magnetic mat designed for holding tools and small parts secure in the workshop, garage or on the jobsite. Magnetic on both sides to attract to any flat or curved ferrous metal surface. Durable synthetic leather is resistant to rips and damage, grease, oils, and common shop chemicals. Wipes clean easily. Reinforced grommets and sewn-in fabric handle for additional mounting options. Patent pending.

Magnetic Knife and Tool Holders

Magnetic Tool Holders

Heavy duty, all steel, permanent magnet assemblies hold metal tools and parts securely in place. Available in nickel-plated or powder-coated black. Perfect for workshops, garages, manufacturing facilities, and even inside trucks and vans. When mounted, these tool holders are held firmly in place by welded tabs, with 1/4" holes for screws. 20 pounds Max Force per inch. Mounting screws included.

Part No.	Max Force (lbs.) per inch	Color	Length	Width	Depth
07661	20	Black with yellow stripe	24	.75	1.125

Magnetic Tool Holders

Magnetic Impact Wrench/Heat Gun Holder

Strong neodymium magnet holds impact wrenches, heat/paint guns and other heavy tools on any ferrous metal surface. Repositionable, non-scratch, rubber-coated base and ring are heat resistant up to 175 degrees Fahrenheit. Ideal for vehicle wrap installations, auto/tire shops, workshops, garages, or warehouses.

- Powerful neodymium base is easily repositionable
- Heat resistant up to 175 degrees Fahrenheit (80°C)
- Rubber coated base and ring protects your surface and tools from scratches
- Hex nut: 1/4-20 thread

Part No.	Approx Max Force (lbs.)	Base	Ring

Magnetic Spray Gun Holder

Hold, store and organize gravity fed spray guns or other heavy tools with this powerful magnetic spray gun holder. Easily reposition this magnetic holder, ensuring an efficient work area where you need it most. The heat-resistant, vinyl covered hook protects tools from damage and the durable silicone coated base prevents surface scratches without sacrificing any of its amazing strength. Keep tools easily in reach and safely stored on any flat ferrous metal surfaces in paint booths, mixing rooms, garages and other manufacturing areas.

- Constructed with powerful permanent neodymium magnets
- Heat resistant up to 175 degrees Fahrenheit (80° C)
- Vinyl covered hook protects tools from scratches
- Silicone coated base securely holds tools in place, magnet doesn't slide or scratch metal surfaces

Unique Application Magnets

Magnetic Key Caps™*

Convert your keys into Magnetic Keys with attachable Magnetic Key Caps. Magnetic Key Caps are made with neodymium, the strongest magnet material available. Durable elastic rubber cap provides security for all common entrance keys. Simply insert key into Magnetic Key Cap to store or hide, and place on metal surface such as mail box, filing cabinet, shed and more. Available in 2 color combinations, other colors and combinations available upon request.

- Eliminates need for bulky hide-a-key case
- Permanent neodymium magnet is embedded in synthetic rubber key cap
- Durable key cap securely holds all common entrance key heads
- Pliable rubber material won't tear, crack or fade
- Ideal for storing or hiding spare keys on any ferrous metal surface such as mailbox, tool box, file cabinet, machinery, shed, and more
- Colorful caps help organize keys — color coded for quick access
- Safe for use around computer devices, USB flash drives, smart phones, and transponder keys
- Permanent magnetism guaranteed

Patented by Intu-Keys, distributed by Master Magnetics.

Magnetic Key™*

Powerful magnet holds keys securely onto metal surfaces making them perfect for storing or hiding. Magnetic Keys are made with a neodymium ring magnet imbedded in the key head. Multiple Magnetic Keys can be carried together — powerful magnets attract to each other, eliminating the need for a key ring.

- Keep sets of keys together with no need for a key ring
- Color coded for quick and accurate access
- Safe for use around computer devices, USB flash drives, smart phones and transponder keys

Patented by Intu-Keys, distributed by Master Magnetics.

4-in-1 Magnetic Holding Arm

Powerful neodymium magnetic base features heavy-duty, flexible arm and second magnetic base for attaching three magnetic mounting tools. Rubber coated base is safe for all surface types making it ideal for hands-free use on automobiles, campers, BBQ grills and other flat ferrous surfaces. Includes metal mounting plate for use on non-ferrous metal flat surfaces with mounting options of 4 screws, removable tape and 4 non-skid bumpers for use on tabletop.

Magnetic attachments include:

- Red clip
- Suction cup
- Black spring clamp

Part No. 07630 (Counter Display includes 4 pcs in clamshell packaging, sold per piece)

2019 Golden Hammer Award Winner!

Pop 'N Catch®

- Magnetic on both sides.
- Powerful ceramic magnets covered by protective rubber allow for scratch-free magnetic mounting on refrigerators, outdoor grills, tailgates, RVs, toolboxes and more.
- Brushed steel face plate with heavy-duty iron opener.
- Magnetic mount or screw mount to non-metal surfaces such as decks, walls, coolers and more.
- Shipped four per box.

Part No. 07681 - Pop 'N Catch® Bottle Opener

All dimensions in inches.

Unique Application Magnets

Key Chain Magnets

Attach keys to any ferrous metal surface with the handy Key Chain Magnet. This slim, lightweight plastic key chain houses a powerful neodymium magnet. The magnet is strong enough to hold up to four pounds, but won't damage key fobs. Use this practical and functional key chain for storing, hiding or organizing keys. Also useful for detecting ferrous metal items in recycling, scrap metal salvaging, or to discreetly detect previously repaired areas on vehicle surfaces. Comes in display bin (07614DSP) and six colors: red, green, orange, blue, white, and black. See page 33.

VersaSWEEP™ 4-in-1 Magnetic Sweeper with Quick Release

Quickly and easily clean up hazardous ferrous metal debris from indoor and outdoor traffic areas to prevent costly injuries and repairs. Ideal for clearing large driveways, factories, trucking terminals, parking lots, construction sites, and much more. The VersaSWEEP™ 4-in-1 Magnetic Sweeper can be used in 4 configurations: tow it behind or hang it from any vehicle, mount it on a forklift, or push it to quickly clear smaller areas.

- 4-in-1: Tow, Mount, Hang or Push
- Powerful magnetic strength picks up small and large metal debris
- Quick-release handles enable convenient and safe removal of collected debris
- Heavy-gauge steel and aircraft-grade aluminum housing
- 10-inch diameter semi-pneumatic wheels
- Adjustable ground clearance height, from .5 to 2.5 inches

Magnetic Bulk Parts Lifter

A low-cost time saver! Transfer and pick up nails, screws, nuts or any small metal objects, then pull the handle to release the objects in the desired location. Smooth, uninterrupted sides allow for fast burrowing. Prevents injuries from sharp metal objects. Its heavy duty canister is lightweight and features an easy-to-grip handle. Lifts up to one pound of 2.5" nails. Measures 3.5" dia. x 6.75" high.

Part No.	Length	Thickness	Diameter
07540	6.75	3.2	3.5

All dimensions in inches.

Heavy-Duty Bulk Parts Lifters

Don't grab a handful of sharp nails or screws with your bare hands – use a magnetic bulk parts lifter! Heavy duty magnet attracts ferrous metal parts, then a fingertip pull on the release bar drops the entire load in its desired location. Easily transfer bulk metal pieces including nails, screws, nuts, washers, eyebolts or other ferrous metal items. Models ML72 and ML74 are available with standard or long handle and nylon base. Models ML76 and ML78 are stainless steel with regular handle only.

Part No.	Max Force (lbs.)	Length	Width	Height	Weight
ML72C	4-5	4.375	3.125	9.25	4
ML72-30C	4-5	4.375	3.125	32.25	7.2
ML74C	8-9	6.25	4.75	9.25	6.8
ML74-30C	8-9	6.25	4.75	32.25	10
ML76C	10	8.5	4.75	9.75	12.6
ML78C	13	11.25	4.75	9.75	15.5
ML5D-30	20	30	5	-	2.8

All dimensions in inches.

Magnetic Retrieving Batons

Magnetic Retrieving Batons are innovative and powerful tools to remove metallic filings, turnings, swarf, or shavings from wet or dry environments. Also great for transferring bulk metal pieces such as nuts, washers and screws.

Part No.	Length	Diameter
RHS01	16	1
RHS02	16	1
RHS03	39	.5
RHS04	41	1

All dimensions in inches.

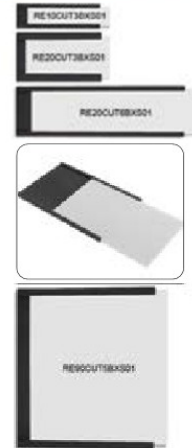

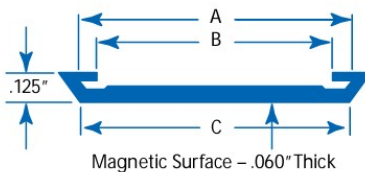

Retail Supplies

Magnetic Sheet/Labeling Kits

Slide labeling into one of these pre-formed magnetic channels. They hold pre-printed or handwritten inventory labels that can be paper thin up to .031" thick. Use to hold data cards that contain important product information such as names, SKUs, bar codes, prices, descriptions and more. Attract to ferrous metal shelving units, desks, walls, doors and even point-of-purchase displays. Available for four different card widths.

Part No.	Cut Length	Channel Width A	Channel Width B	Overall Width C
RE10CUT3BXS01	3	.4	.32	.475
RE20CUT3BXS01	3	.824	.65	.95
RE20CUT6BXS01	6	.825	.65	.95
RE40CUT3BXS01	3	1.7	1.475	1.83
RE40CUT6BXS01	6	1.7	1.475	1.83
RE90CUT5BXS01	5	3	2.862	3.125

Each kit contains 25 pre-cut magnets and 35 pre-cut data cards.

All dimensions in inches.

Magnetic 90° Sign Holder

White plastic 90° ceramic channel base, use alone or with strip. The clear sign strip features inside arm grip and supports graphics between 6 and 24 inches in length.

Part No.	Max Force (lbs.)	Length of Graphic	Length	Width	Thickness
inches					
MSHL01	2.5	2.5	2.28	.79	2.74

MSHC15	Magnetic	60	3	1.5	1.57

Alnico Magnets

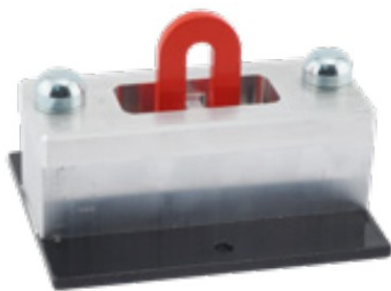

Alnico Button Magnets

Powerful alnico magnets have convenient mounting holes. Add an eyebolt and string to retrieve small metal items in areas like swimming pools, window wells or crawl spaces. Use as workholding devices for wood cutting, sign making or other hobby applications. Includes metal keeper to retain magnetic strength.

Part No.	Max Force (lbs.)	Diameter	Height	Hole Diameter
07258	1.5	.5	.375	.17
07259	4	.75	.5	.2
07260	6	1	.625	.235

All dimensions in inches. Also available in other sizes and strengths, call for more information.

The Remagnetizer™

Alnico magnets can lose their magnetism if dropped, stored without keepers, or while demonstrating repelling magnetic poles. Instead of throwing these valuable magnets away, remagnetize them. The Remagnetizer™ restores the magnetism to Alnico horseshoe and bar magnets in just a few seconds. No electricity required. (Remagnetizing is often provided as service in school supply stores, or schools may purchase this item for their supply room.)

Part No.	Height	Length
DM-RM	2.5	5

All dimensions in inches.

Alnico Horseshoe Magnets

These alnico horseshoe magnets are versatile and powerful. Compact clamshell packaging has a small footprint in your display. Choose from three pull strengths. Includes steel keeper to retain magnetic strength. The universal symbol of magnets recognized around the world. This handy horseshoe magnet is powerful and sturdy. Ideal for school experiments, and it makes a great gift.

Part No.	Max Force (lbs.)	Length	Width	Height/Thickness
i 07225	3	2	1	.25 (Thk.)
07270*	10	1.18	.78	.78 (H)
07271*	20	1.6	1	1 (H)
07272*	30	1.8	1.2	1.2 (H)
07279	2	1	1.12	.34 (Thk.)

All dimensions in inches. *Has mounting hole. Also available in other sizes and strengths, call for more information.

Retail Support

Magnets attract profits.

With over 250 SKUs of packaged consumer magnets in stock, customized planograms and consistent quality, The Magnet Source® brand is a great profit center for your stores.

Retailers can take advantage of various signage and display options to increase magnet visibility and sales.

Magnet Source® Center

Increase your magnet sales with these FREE P.O.P. graphics.

Choose a pre-designed or customize your own magnet planogram, then enhance it with one or all of these graphic options at no charge:

1. **Colorful Header Sign** attracts attention, drawing customers to your Magnet Source® Center. Easily attaches to top of gondola with a channel magnet assembly (included).
2. **Two-sided Aisle Banner** grabs attention when viewed from the main aisle. In-use photos and ideas will help your customers discover the everyday applications and uses of magnets. Choose from push mounting (as shown) or hanging with extended metal hanger.
3. **Try Me Demo Board** helps your customers find the right magnet by testing the magnetic strength on this interactive metal board. Three powerful magnet samples included. Easily attaches to pegboard.

Floor and Counter Displays

Space-Saving • Innovative • Colorful

Many of our top-selling magnets are available in attractive display options. Choose from a variety of Floor Displays, Counter Displays and pre-loaded Impulse Strips.

Sidekick Display (for more information see page 28)

Combines two best-selling magnets in one space-saving, heavy duty metal display! This innovative retail display holds six Pick-Up Pals™ and four 15" wide Mini Sweepers™. Colorful graphics feature in-use photos and trilingual descriptions. Attaches to most standard end cap gondolas.

Where to start.

Call **1.888.293.9190** to speak with one of our magnet specialists or visit magnetsource.com/retailersupport.

Promotional Magnets

Magnets make an excellent method of promoting your business. Customize our magnets with your logo and message to create an attractive promotional item.

Here's a small sample of some of the unique magnetic products that we can customize with your logo or artwork.

Flexible Promo Magnets

Provide your customers with a printed informational magnet relevant to their daily needs – keeping your company name hanging around. Depending on your business, magnetic informational charts can include kitchen conversion charts, metric conversion charts, wine pairing guides, planting guidelines, dosage listings, tap and die charts, machinery maintenance how-to's, and much more.

Magnetic Parts Tray

Store metal parts and tools during assembly and disassembly with the incredibly useful magnetic parts tray. This compact, stainless steel tray has a powerful, rubber-coated ceramic magnetic base to attach the tray to metal surfaces and keep important metal pieces secured in any position. Full color logo or graphic with a domed epoxy decal attaches permanently to center of tray.

Name Badge Magnets

Powerful neodymium magnets attract through clothes, securely holding name badges without damage to clothing. Printed in full color with brilliant UV ink. Multiple styles available.

Magnetic Cup Caddy

A favorite among workers without desks, such as mechanics, construction and warehouse personnel. Holds wide range of products, including cans, cups and work-related items. Powerful magnet attracts to any ferrous metal toolbox, cabinet or vehicle. Four-color, domed epoxy decal provides large 2.5" x 4" oval imprint area for logo or artwork.

Max Force

Max Force

One method of determining magnet strength is through pull strength, or a pull test. Pull strength is a reliable method of measuring the maximum strength, or holding power, that a magnet has before it is separated from ferrous material. It is measured in pounds or kilograms. Magnetic assemblies are measured by the pounds of pull in a vertical test. Obviously, the higher the pull strength, the greater the magnet strength. The Max Force rating is the amount of force, measured in pounds before the magnet breaks away from the metal surface.

We rate our magnetic assemblies by pounds of pull in a vertical test. Each magnet's entire magnetic surface is tested against a .5 inch thick, ground steel plate. Beginning with a clean magnetic surface and a clean steel surface, the magnetic assembly to be tested is attached to the steel plate. A hook with the measuring device is attached to the magnet and it slowly pulls the magnet upward until enough force to break the magnet away from the plate has been created. The measuring device records the pounds pull. By repeating this test multiple times, we can establish an accurate reading and pounds pull rating for the magnetic assembly.

Pull tests are widely used across the industry and it's common for magnetic assemblies to have a rating of pounds pull in order to provide users with accurate insight of the product's capability.

However, it is important to note that pull strength will vary with:

- Differing thicknesses of steel (particularly less than .5 inch)
- Types of steel composition
- Coatings on the steel, including paint or grease
- Uneven surface area, such as rust

Application Considerations

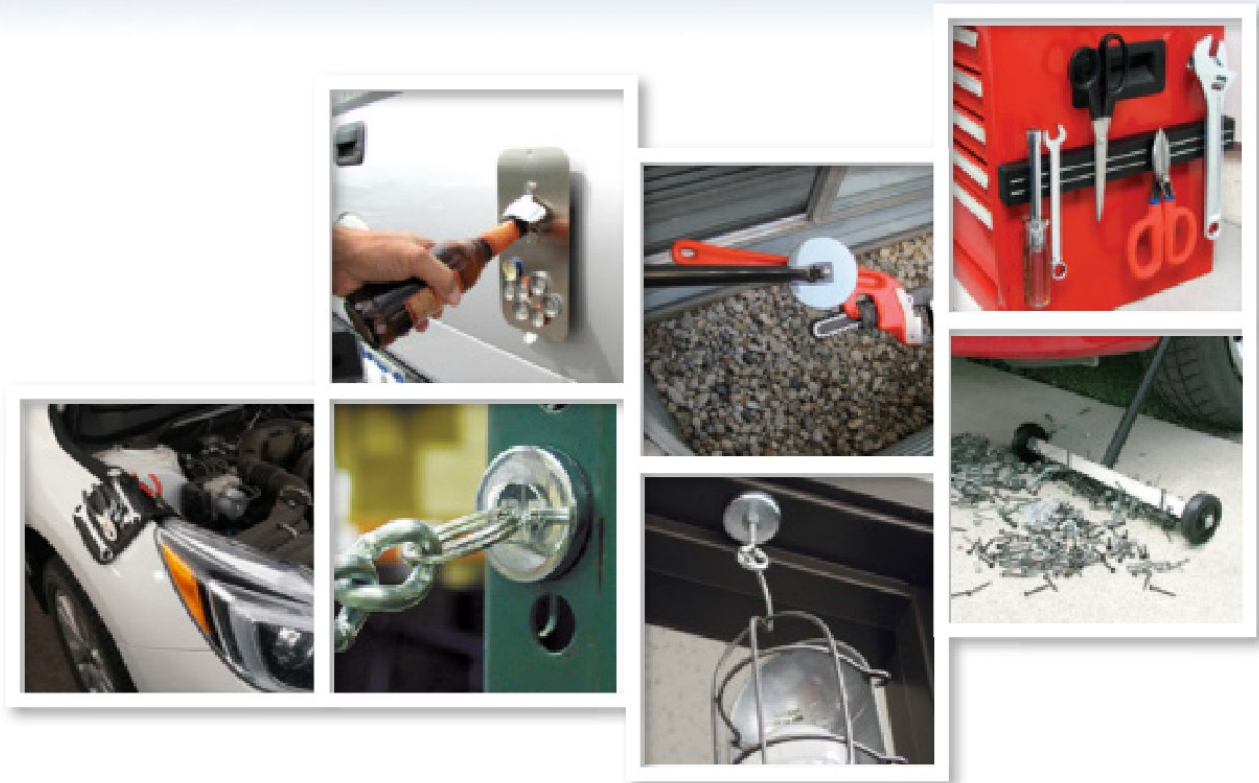

Choosing a magnetic assembly might be as straightforward as selecting the right pounds pull for your application. Considering things like how many poles are needed; if there will be air gaps at any point on contact; how hot or wet the environment is; and the storage area can all affect the type of magnet best suited to a project.

We always recommend consulting with our magnetic solution specialists to help select the correct magnet for the application.
