

23 Gauge, 1-3/8" Pin Nailer

Model AF353

Beauty and Convenience of Minimal Nail Holes

CONVENIENCE

23 gauge pins create minimal nail holes for a faster and more professional looking finish

DURABILITY

Aluminum body, magazine, and cylinder for added strength

ERGONOMICS

Lightweight design, soft grip, and slim profile for easy operation

CONTROL

Nail lock-out mechanism protects tool and work surface from nail-less blank fires

FEATURES

- Powerful motor drives standard headless pins sized 5/8", 11/19", 3/4", 1", 1-3/16" and 1-3/8"
- Aluminum body, magazine and cylinder for strength and durability; weighs only 2 lbs.
- Nail lock-out mechanism protects tool and work surface from pin-less blank fires (dry-fires)
- Side, drop-in loading magazine holds up to 130 nails for maximum efficiency
- Built-in air duster provides convenient air flow to clear work surface
- Double, 2-finger trigger for user convenience
- Rear exhaust port directs exhaust air away from operator and work surface
- Includes two removable no-mar tips with sightlines for increased pinning accuracy; convenient on tool storage
- Easy to clear nose for fast and easy nail extraction should a jam occur
