

**191L13-5****Blower Nozzle****BUY NOW****APPLICATIONS** : Concentrator nozzle with narrow profile produces a concentrated stream of air for heavy debris**COMPATIBILITY** : Allows use of Extension (197888-8) or Flat Nozzle (197889-6) on Model XBU03**COMFORT** : Extends pipe closer to ground for improved operator comfort**DESIGN** : For use with Makita LXT® Brushless Cordless Blower model XBU03**INCLUDES** : Blower nozzle**ABOUT MODEL**

The Makita® Blower Nozzle allows for the use of an Extension or Flat Nozzle (both sold separately) with the Makita 18V LXT Cordless Blower (XBU03, sold separately). It installs quickly and easily for added user convenience. Each nozzle is manufactured of high-quality materials for added durability and long life. The extension nozzle (197888-8, sold separately) extends the pipe closer to the ground for improved operator comfort. The flat nozzle (197889-6) concentrates the air flow to remove heavy debris.

**FEATURES**

- Concentrator nozzle with narrow profile produces a concentrated stream of air for heavy debris removal such as wet leaves
- Allows use of Extension (197888-8) or Flat Nozzle (197889-6) on model XBU03

- Extends pipe closer to ground for improved operator comfort
- Quick and easy installation
- For use with Makita LXT® Brushless Cordless Blower model XBU03
