

CREATING IN COLOR

PRODUCT CATALOG 2023

The Remarkable Marker Company

Welcome to Uchida of America. New this year to our 2023 catalog is the addition of QR codes. Want more information about a product, simply scan the QR code and you are on your way.

How do I scan QR codes?

Most smartphones and tablets have a built-in QR code scanner. All you have to do is open your camera or your QR scanner application, point your camera at the QR code, and click on the message bar that pops up. The data will be instantly shown on your device. It's that easy.

Become a part of our community of Makers, Artists and Crafters.

We have enhanced our social media content to provide you with more of what you are looking for:

- Inspiration
- Product Information

Please stop by, we'd love to hear from you.

About Us

Uchida of America Corporation was established in 1973 to provide better service to the U.S. Market. Our offices and distribution center are located in sunny Torrance California.

For 50 years, we have been creating high quality, Japanese products at a fair price to help you maximize your creativity. Our parent company, Uchida Yoko Co., Ltd. was established in 1910. They have been providing stationary, office equipment, office furniture, technology and educational equipment to a wide range of customers throughout the world.

CREATING IN COLOR

Here at Uchida of America, creating in color is what we do. Color is a powerful form of expression, color can be used to tell a story or enhance a mood. Your favorite color holds a special meaning to you and creates a certain feeling of peace and relaxation.

Since 1973, we at Marvy Uchida have been creating colors and different ways to use them. Our hope is that everyone has the chance to use our pens and markers to add a little bit of color to their life.

Also – No matter the occasion or the reason, we are all intended to “Create in Color”.

Ink Types

	paper crafting	art/design	coloring	journals/planners	comic drawing	archival	home décor	multi-surface

Helpful Hint: Fully season any chalkboard surface before using chalk or markers to prevent “ghosting.” Seasoning a chalkboard is simply covering the entire chalkboard surface with chalk or marker and then wiping it clean. It's super easy!

Bistro
Chalk Marker

New Updated barrel

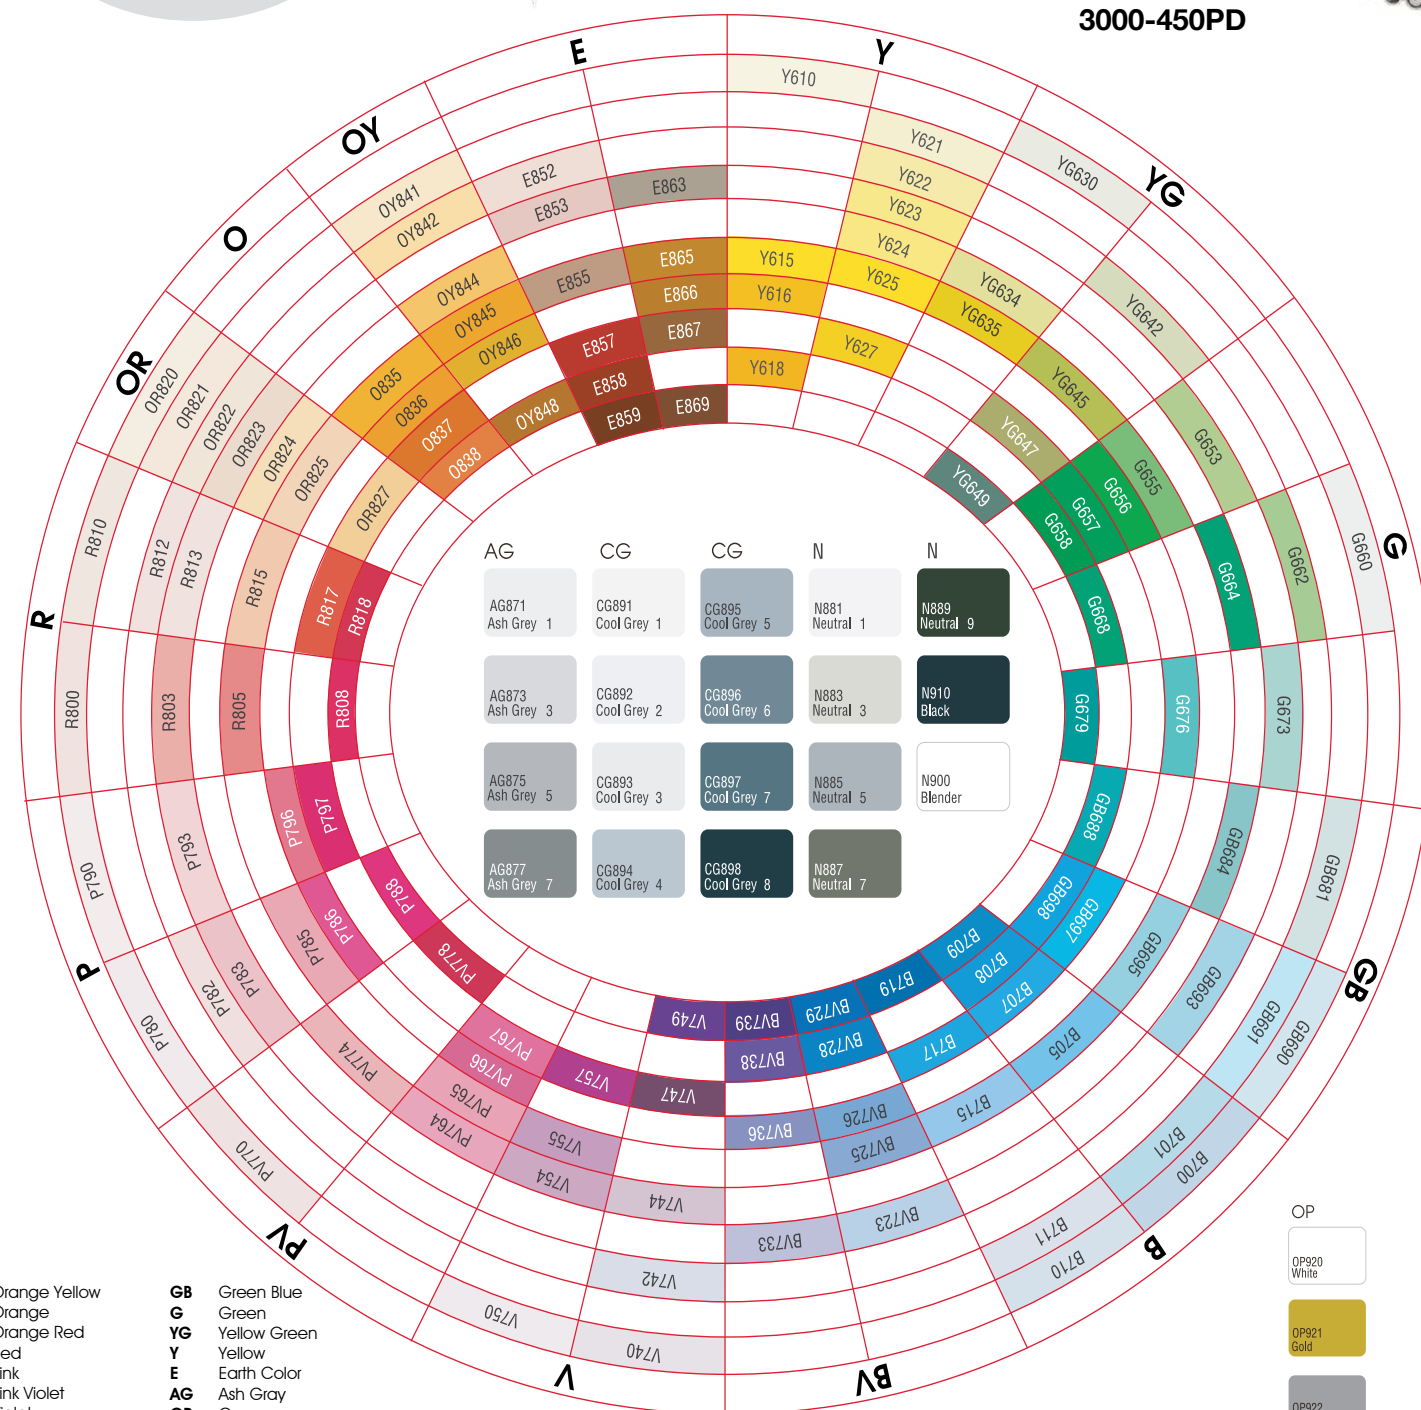

We will gradually update the barrel of our 3000 alcohol markers this year to a new black barrel. Along with the change in color, we have also added a colored end-cap that will help identify the marker color when cap is removed. Since this will be a gradual change, some of the open stock and sets may consist of both the black and grey barrel markers until the changeover is complete.
