# KEY CHART

## PERFORMANCE GAUGE

Product designed specifically and built to work just as hard and serious as you are in the trade. Added features and stronger material make these bad boys tougher than nails.

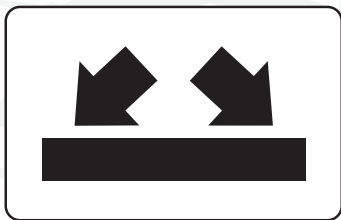

Product geared to handle the day to day jobs both indoor and outdoor. Additional features allow for complete organization and storage. They are ready when you are.

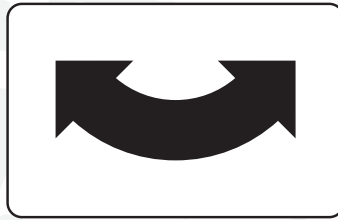

Product suitable to take on those notorious weekend "honey do" tasks and help to finish the job in time for the game a cold one.

## KNEEPAD IDENTIFIERS

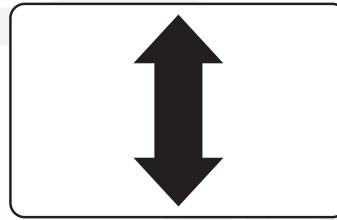

### STABILIZER

Ultra-flat profile for "walking" with maximum stability/comfort, ideal for longer kneeling periods.

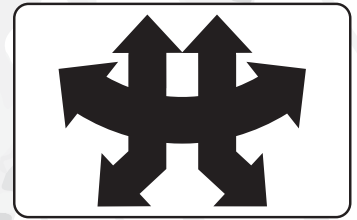

### ROCKER

Hard, rounded cap profile for "rocking or sliding" on hard surfaces, or use in general construction for maximum protection.

### SLIDER

Soft pads with no caps for "sliding" front to back on soft surfaces.

### HYBRID

Profile designed with various components from the stabilizer, rocker and slider; ideal for multiple uses and environments.

## QUAD SERIES
