Coarse Blend Fast Draining Mix

Mixtura para orquídeas
Mezcla de drenaje rápido

Grow Big, Beautiful Orchid Blooms

Cultiva flores de orquídeas grandes y bellas

Specially formulated to provide quick drainage for Orchid types that require good air movement and drier conditions between waterings.

Formulado especialmente para proporcionar un drenaje rápido para tipos de orquídeas que requieren buena circulación de aire y condiciones más secas entre riegos.

Easy-to-Use Instructions

We recommend wearing gardening gloves when using this or other planting materials.
Instrucciones fáciles: Recomendamos el uso de guantes de jardinería al utilizar este producto u otros materiales para plantar.

1 Select a pot with a drain hole.
Seleccione una maceta con un agujero para drenaje.

2 Fill pot about 1/3 full.
Llene la maceta hasta 1/3 de su capacidad.

3 Loosen root ball before placing into new pot.
Afloje el cepellón y coloque la planta en la maceta.

4 Fill voids between root ball and pot leaving 1/2 inch between soil surface and pot rim.
Llene los espacios vacíos entre el cepellón y la maceta dejando 1/2 pulgada entre la superficie de la tierra y la orilla de la maceta.

5 Water, let drain.
Riegue, deje que drene.

Lighting

Direct sunlight may burn Orchids and too little light may prevent them from flowering. Grassy green leaves and blooming are an indication that your Orchid is getting the right amount of light. Orchids with yellow and brown leaves might need more shade. Thin, floppy, and dark green leaves indicate plants need to be placed in a brighter spot.

Watering

Make sure the mix is dry to the touch between waterings and when watering do not wet leaves. Do not allow plants to sit in drainage water.

If Orchid's leaves turn yellow and show signs of rot, it may be a sign you are over-watering; reduce watering frequency.

Repotting

The primary reason for repotting Orchids is to give the plant a fresh potting medium, rather than a larger size pot. Pot size should be determined based on size of the root mass, but in general Orchids like a smaller containment area. Depending on the needs of the individual plant, Orchids should be repotted every 18 to 24 months.

For Spectacular Results...
Remember to Feed

Para obtener resultados espectaculares...
recuerde fertilizar

Thirty days after planting, begin a regular feeding program with Miracle-Gro® Plant Food.

Treinta días después de la siembra, inicie un programa regular de fertilización con Miracle-Gro® Plant Food.

This 8 QUART bag will fill 2 - 8" containers.
Esta bolsa de 8 cuartos sirve para llenar 2 macetas de 8 pulgadas.

Amounts may vary depending on the size of the root ball.
Las cantidades pueden variar dependiendo del tamaño del cepellón.

KEEP OUT OF REACH OF CHILDREN

MANTENER FUERA DEL ALCANCE DE LOS NIÑOS
