

SMART® BULB CHANGER COMBOS

Heavy Duty Non-Conductive* Bulb Changers & Extension Poles

Smart bulb changer kit combo - Model #0976

PACK QUANTITY: 6

Triple reach bulb changer kit combo - Model #0974

PACK QUANTITY: 6

Smart Bulb Changer Kit Combo

- The bulb changer kit includes three interchangeable cups to change incandescent, spotlight and floodlight bulbs.
- Patented quick release design allows the user to easily remove and replace hard-to-reach light bulbs while standing in one position. Suction is released by simply pulling down on the extension pole after bulb installation.
- The unique design of our bulb changers will allow bulb removal in indoor and outdoor recessed or canister style light fixtures.
- Two section fluted fiberglass pole allows an average height user (5'5") to reach bulbs up to 11.25 feet high.
- Heavy duty external locking device lets you easily adjust the extension pole to the right height.
- Mr. LongArm non-conductive* extension pole and bulb changer kit lets you change bulbs SAFER, faster and easier.

Triple Reach Bulb Changer Kit Combo

- All the features of the Smart Bulb Changer Kit Combo only in a longer version. Three section fluted fiberglass pole allows an average height user (5'5") to reach bulbs up to 16.5 feet high.

*Non-conductive extension poles will not conduct electricity (120/240 voltage) if not contaminated with moisture, water or other conductive liquids.
