

Nour Product Catalogue

Crafting Superior Painting Tools Since 1978

Our Commitment To You...

For more than 25 years, Nour Trading House Inc. has been dedicated to developing the best painting tools available in the market. From selecting the finest natural bristle to crafting exceptional synthetic filament brushes – every product is designed for outstanding performance.

Professional painters prefer Nour.

Our full product line, including brushes, rollers, trays and accessories is growing every day. Every product is designed for performance. We customize products and packaging to meet the needs of our customers and make a distinctive impact on the market.

Production facilities in Canada, Vietnam and Egypt make it possible to manufacture excellent products cost effectively. Our focus is on delivering the highest quality paint applicators at competitive prices. We stand behind our products.

Our experienced team is qualified to understand your needs and deliver on them efficiently. Our customer service is outstanding. The foundation of Nour's reputation is delivering uncompromising quality, performance and value.

Thank you for choosing Nour!

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Fleifel', written in a cursive style.

Mac Fleifel
President

HERITAGE

Simply our best! Each Heritage brush is handmade by experienced craftsmen without shortcuts or compromises. Every brush is designed to ensure excellent paint pick-up and release, resulting in a non-streak finish. Our chisel trim design allows for exact cutting-in. The highest quality SRT nylon and polyester filaments are uniquely processed to perform.

- 100% polyester & nylon filaments
- Dyed, tipped, flagged & sanded
- Hardwood handle
- Copper finished ferrule
- Epoxy bonded
- Reusable vinyl coated packaging

Tradition

Tradition Poly/Nylon

Advanced technology in paint production demands a superior polyester/nylon brush. Using the Nour tradition of excellence, we have designed the Tradition series of brushes to outperform other brushes. Tradition synthetic brushes use only SRT nylon and polyester filaments and are created to perform with resilience and enduring precision.

- 100% polyester & nylon filaments
- Tipped, flagged & sanded
- Hardwood handle
- Copper finished ferrule
- Epoxy bonded
- Reusable vinyl coated packaging

Tradition

Tradition Black Bristle

Using only the very highest quality natural black bristle, this is our best line of brushes. Superior craftsmanship demands the finest bristle available. We then use our years of experience to blend different sizes and types creating a premium brush for the painter who understands excellence.

- 100% natural black bristle
- Hardwood handle
- Copper finished ferrule
- Epoxy bonded
- Reusable vinyl coated packaging

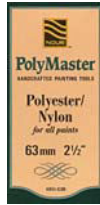

Poly Master Brushes

Crafted especially for the contractor, Nour has designed high quality polyester/nylon brushes. Poly Master filaments are blended to provide the long-lasting durability and quality finish expected from a meticulously crafted brush.

- 100% SRT polyester & nylon filaments
- Tipped, flagged & sanded
- Hardwood handle
- Nickel finished ferrule
- Epoxy bonded
- Reusable vinyl coated packaging

AQUA *Glide* PLUS

Each AquaGlide Plus brush is individually handmade with quality. These 100% Tynex Nylon brushes are dyed, flagged, tipped and sanded, have a natural hardwood handle and a stainless steel ferrule.

- The **Angular Sash** design is formulated for medium stiffness to allow for a very smooth application of all paints.
- The extra thickness of the **Straight Sash** allows for a larger paint holding capacity.
- The **Rat Tail** design provides for a thinner, lighter brush with very accurate “cutting in” capabilities.

Professional Brushes

Nour has designed a special line perfect for the contractor. Our bristle brushes are crafted from high quality natural bristles which are double boiled. The bristle dressing process is re-performed to ensure consistent quality. Polyester/nylon brushes are crafted using solid, round, tapered filaments that are painstakingly processed, blended, tipped and flagged. Our experience and manufacturing skill has kept the price of these brushes in line with the need for professionals to maximize the bottom line.

- 100% natural black bristle
- Hardwood handle
- Nickel finished ferrule
- Epoxy bonded

Rollers

Nour prides itself in supplying the very best quality roller refills in the industry. We understand the benefits of providing superior craftsmanship and each refill is processed to provide superior results every time.

Our experience has taught us that the perfect roller refill starts with high quality raw materials. That's why Nour selects highly developed fabrics. Then we wind them by hand to eliminate gaps and overlaps on the core surface. Every handmade roller tube is epoxy cured, precision cut, face sheared, end beveled and vacuumed to provide a refill of uncompromising quality.

Nour crafts superior paint tools – we stake our reputation on them!

HERITAGE

Extreme Finish

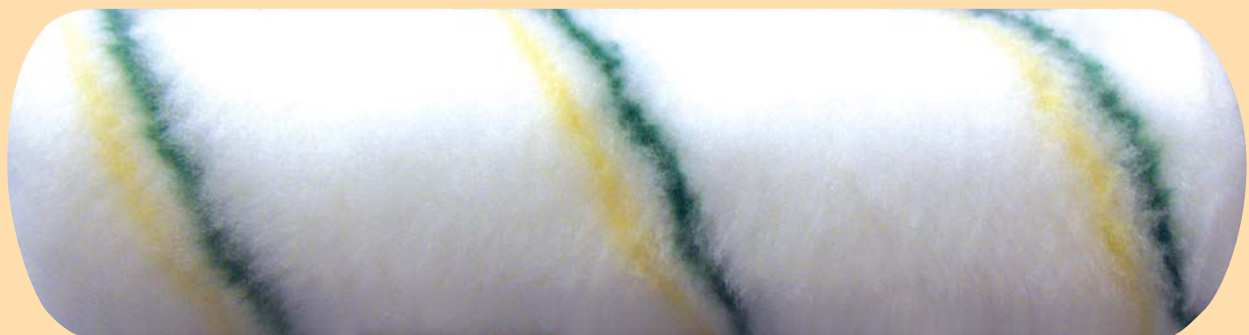

Every Heritage roller refill begins with high-density woven fabric made of a selection of fibres blended together to maximize paint pick-up and release. To eliminate gaps and overlaps, every roller is hand-wound. The Nour roller refill guarantees an extremely smooth and fine finish. That's why professionals choose Nour!

- PVC core
- High density woven, blended fabric
- Wound by hand
- Epoxy bonded

Tradition

There are good reasons this is the most popular line of refills with both the consumer and the professional painter. We know that our Tradition Lint Free refills really excel. We use woven fabric made of an assortment of select fibres blended together to maximize paint pick-up and release. Our processing ensures an extremely fine finish. It's the refill you can trust!

- PVC core
- Woven polyester-nylon fabric
- Wound by hand
- Epoxy bonded

Decorator Roller Refill

If you need rollers in volume or are doing large and varying projects, the Decorator is a great choice. We craft each refill using a lower density woven, blended fabric that is hand-wound. Our proven processing technique ensures a fine finish and we package these refills in convenient quantities because of the high demand.

- PVC core
- Woven, blended fabric
- Wound by hand
- Epoxy bonded

Ultra Roller System

Nour has risen to the challenge of designing a unique system using the finest European fabrics and a patented end cap system. **Ultra Fab** refills fit standard roller cages and outperforms comparable products in the market.

When paint applications are in difficult to reach areas, the **Ultra Rol** is a perfect choice. The Ultra Rol fabric rollers are crafted from woven European style fabric while the Ultra Foam rollers are crafted with high density foam.

AQUA *Glide* PLUS

Lint Free Microfibre Technology

Nour is happy to re-introduce the AquaGlide Plus refill made of **premium** white microfibre fabric. Nour continues to provide a refill of uncompromising quality and a super smooth finish with all paints.

AQUA *Glide*

Microfibre Refills 3-Pack

Our newest addition to the AquaGlide line is a high quality microfibre lint free refill 3-pack. The microfibre refill holds more paint which allows more coverage, and provides a smooth finish at a low cost.

Brilliant finish™

OVAL-PRO

Nour is pleased to introduce to the Brilliant Finish line of professional brushes the "OVAL-PRO", an oval angular brush available in 4 sizes.

Designed to maximize paint pick-up and release, the unique oval shape of this brush allows for superior trimming and cutting-in, leaving a no-streak finish.

To further expand the brush line, we now offer a 3-piece brush set.

The line is completed with the addition of an 8-piece painting kit.
