Adjusts 26.5" – 42" wide  
For use with children 6-24 months

Pressure mount  
No assembly

Made in the USA

# northstates<sup>TM</sup> Supergate<sup>®</sup> Diamond Mesh Gate

## Installation Instructions: No Tools Required

- 1 Measure the width of the opening where the gate will be used.
- 2 While holding the gate with the locking bar toward you (numbers will be upright), lift the locking bar and slide the locking pin into the slot that matches the opening size.

NOTE: Be sure to place the gate so the locking bar is on the side of the gate that will be away from the child.

- 3 Push down on the locking bar. This should put pressure on the 4 rubber bumpers holding the gate in place. If the gate is loose in the opening, move the locking pin to the next slot until you get a good solid fit in the opening. Do not force the locking bar down. This could put too much pressure on the gate, causing damage to your opening, the gate or both. (The locking bar will have a slight bow. However, if the bow is large, ease off one slot, making sure it still has a good solid hold in the opening.)

- 4 To open the gate, simply pull up on the locking bar.

## Fits openings

From 26.5" to 42".

One pre-assembled gate.

## Care and maintenance:

To clean: Wipe with a clean, soft, damp cloth and dry thoroughly. Do not use harsh or abrasive cleaners. Always keep the rubber bumpers clean.

## ! WARNING

- Children have died or been seriously injured when gates are not securely installed. **ALWAYS** install and use gates as directed, using all required parts.
- Intended for use with children from 6 months through 24 months.
- **STOP** using when a child can climb over or dislodge the gate.
- Install with locking mechanism on side away from child.
- This product will not necessarily prevent all accidents. **NEVER** leave child unattended.
- Use only with the locking mechanism securely engaged.
- To prevent falls, never use at top of stairs.
- **NEVER** use to keep child away from pool.

## ! ADVERTENCIA

- Niños han muerto o sufrido lesiones graves porque una puerta no estaba instalada de manera segura. **SIEMPRE** instale y use la puerta conforme a las instrucciones, utilizando todas las piezas requeridas.
- Este producto está diseñado para niños de 6 a 24 meses de edad.
- **DEJE** de usarla cuando un niño pueda trepar sobre la puerta o desprenderla.
- Instálela solamente con el mecanismo de cierre/traba activado firmemente en el lado opuesto al niño.
- Este portón no necesariamente evita todos los accidentes. **NUNCA** deje a los niños sin supervisión.
- Use sólo con el mecanismo de bloqueo y fijación firmemente enganchado.
- Para prevenir caídas, **NUNCA** use el portón en la parte superior de las escaleras.
- **NUNCA** debe usarse para mantener a un niño alejado de una piscina.
