Driveway Markers

- 2683, 2684**

 - 46" tall marker with flexible 1/4" diameter shaft
 - Includes foot spike for easy installation
 - Round reflector top is decorated with a maple leaf print for a unique appearance
 - Great promotional item!
- 2663, 2664**

 - Heavy duty 46" driveway marker on a thick 5/16" diameter white fiberglass shaft
 - Dual mount system uses heavy duty foot spike for mounting in to hard packed surfaces or can be screwed / nailed on to any vertical surface, (i.e.: dock, raised drive or post)
 - Over-sized dual color acrylic reflector top increases visibility for a greater distance and is UV protected for years of use
- 2691**

 - Heavy duty 58" driveway marker on an extra thick 3/8" diameter yellow fiberglass shaft
 - Dual mount system uses heavy duty foot spike for mounting in to hard packed surfaces or can be screwed / nailed on to any vertical surface, (i.e.: dock, raised drive or post)
 - Clear reflector top is super bright at night when light is reflected off of it
 - Ideal for deep snow conditions and highly visible day or night!
- 2692**

 - 72" driveway marker on a flexible 1/4" diameter yellow fiberglass shaft
 - Includes foot spike for easy installation
 - Clear reflector top is super bright at night when light is reflected off of it
 - Ideal for deep snow conditions and highly visible day or night!

Driveway Markers

New Item

2676
30-Pack Contractor Pack Markers

- 46" Orange Fiberglass Markers on a 1/4" diameter rod. Includes sharpened tip for easy installation.
- Reflective tape top for increased visibility in poor weather conditions.
- Ships in a reusable tube, 30 markers per tube. Ideal for the high volume user, commercial use, trail marking or for rural areas where many markers are required. 30-pack Contractor Pack offers exceptional value!

2668, 2669
46" Aluminum Address Post

- 46" aluminum channel, powder coated in high gloss white finish. Includes red reflective tape top on both sides.
- 2668 ships complete with number kit attached to shaft.

20242
3" Black Vinyl Number Kit

- Adhesive 3" black vinyl number kit. To be used by itself or with 2669 address post. 27 characters included in kit.

2667
72" Reflex Marker™

- Bright orange 1/4" diameter fiberglass 2-piece shaft, mounted to a heavy gauge spring base. Allows for extra flexibility and safety. Helps to prevent marking and damage if bumped. Spring stays flexible even in extreme weather conditions.
- Heavy duty foot spike allows marker to be mounted in hard packed ground or can be mounted vertically on a raised driveway, etc...
- Ships 46" tall and assembles 2-piece shaft to a total length of 72".
- Includes highly reflective tape strips for added visibility at night.

2665, 2666
72" Telescopic Markers

- Our very best!
- 46" marker extends to 72" with the turn of a knob. Can also be adjusted to any height in between.
- Highly reflective PMMA acrylic reflector top opens to create visibility from 360 degrees!
- Shaft made from a flexible white fiberglass that is highly durable in all weather conditions.
- Hardened steel foot spike allows shaft to be positioned even in to very hard packed surfaces, such as gravel.

2623	1 1/2" x 8' Red High Intensity Safety Tape	0 39996 02623 7

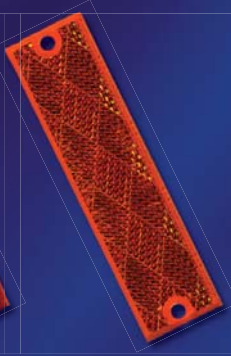

- 2604 Red/White Barrel Stripe is an engineered grade reflective material suited to draw high visibility day or night
- Solid red or white rolls are manufactured using high intensity prismatic technology with a typical brightness that is comparable to that of the DOT-C2 safety tape.
- Can be used anywhere increased visibility is required. Ideal for automotive, commercial or recreational vehicles. Can also be used around the home or work place to mark entrances/ exits, steps, machinery or equipment

- DOT-C2 Safety Tapes, # 2606 and 2603, have a repeating pattern of 11" red followed by 7" of white. Department of Transport Approved. For use on personal vehicles or for commercial use. Mount to any clean, dry and smooth surface.
- 2506 Barricade Tape is 3" thick by 5' long. The red / white repeating pattern is angled in toward the middle of the 5' long roll. Ideal for use on service vehicles, fleet trucks, RVs or trailers to increase awareness day or night.

All red and amber NuVue reflex reflectors are made to exacting standards and have been designed and tested to meet Department of Transport Standards. Made from a high quality PMMA acrylic material. NuVue reflectors offer maximum reflectivity to ensure you get noticed! All reflectors shown are equipped with pressure sensitive foam mounting tape and can be securely fastened to virtually any surface. Some models also equipped with mounting holes for optional screw or nail-on mounting. Universal fit for automotive, home or commercial use.

Note: sizing listed for reflex reflectors is approximate. Actual product sizes may vary slightly.

Installation instructions: Apply pressure sensitive tapes to a clean, dry surface that are ideally at 50° F, (10° C) or higher. Apply firm and even pressure to ensure good adhesion. When using nails or screws to mount plastic reflectors, do not over tighten to avoid cracking the material.

Warranty: NuVue products will not be responsible for any damaged caused by the removal of our tapes. All products are guaranteed to be free of defects in workmanship and materials only. Product replacement warranty only applies.

PLANOGRAM KIT

Planogram Kit #2602

Kit Contents:

- 36 Packages of the best selling 2" X 12" Tape Strips
- 12 Packages of the best selling Tape Rolls
- 24 Packages of the best selling Die-Cut Tape Shapes
- 30 Packages of the best selling Reflex Reflectors
- 1 Plan-O-Gram Display Box with Graphics & Header
- Ideal for merchandising on an in store aisle end wing panel or sidekick display. Ships completely assembled. Installs in seconds and is an effective use of space, especially for smaller retail stores. A great starter kit!
