

Fighting Rust Since 1917

BEFORE

AFTER

is #1

in Rust Conversion/Metal Treatment

- Converts Iron Oxide (Rust) to Iron Phosphate
- Grows Zinc Phosphate to seal and protect for the future
- Can be used on all Ferrous and Non-Ferrous Metals

www.skybryte.com

OSPHO®

Can be applied to ANY rusted or non-rusted steel surfaces including:

Vehicles	Lawn & Garden Equipment
Trailers	Marine Vessels & Equipment
Fences	Burner Stoves
Iron Railings	Metal Roofs
Sheet Metal	Window Trim
Outside Tanks	Steel Supports
Garage Doors	Coins AND MORE!!!

OSPHO can be used on ALL Ferrous and non-Ferrous metals and is a GREAT protectant of new metals. Iron Oxide (rust) is always present in new metals as it hides deep inside the metal pores. With a simple application, OSPHO attacks and converts whatever Iron Oxide it comes into contact with changing it to Iron Phosphate, as well as leaving a layer of Zinc Phosphate to seal and protect the metal from flash rusting.

AVAILABLE in the following sizes:

- 55 Gallon Drum
- 5 Gallon Container
- 1 Gallon Bottle
- 1 Quart Bottle
