CONTENTS & PRODUCT INFO

The Oil-Dri® brand has been trusted since 1941. We offer top quality granular absorbents as well as a complete line of oil only, haz mat, universal and Resorb™ absorbents including pads, rolls, socks, spill kits and more. As an Oil-Dri distributor, you have the advantage of offering our entire family of absorbent products to your customers.

- ◆ **COMMITMENT:** Oil-Dri Corporation of America is committed to the continued development and distribution of sorbent products. We provide you with the same commitment to distribution that has made us successful since 1941.
- ◆ **COST SAVINGS:** We can provide cost reduction opportunities to meet the cross-functional demands of any organization. Our sales force can schedule joint end-user sales calls to provide product education and training that can reduce line items and increase your bottom line.
- ◆ **SUPPORT:** Our Sales & Marketing staff can supply you with the materials needed to support your sales efforts as a distributor of Oil-Dri products.

Oil-Dri® Is your one-source supplier of absorbent products.

GRANULAR CLAY INFORMATION

Premium Absorbent: Pg. 2

Virtually dust free clay granules. Superior retention.
Shipping Locations: GA, MS, CA and Quebec

Quick-Sorb®: Pg. 2

Smaller granules absorb quicker with far less product.
Shipping Locations: GA, MS, and CA

GUIDE TO POLYPROPYLENE

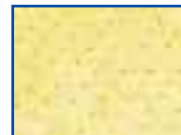

Universal Polypropylene: Pg. 3-4

- Durable and non shedding
- Quick wicking for fast absorption
- Absorbs all fluids

Oil-Only Polypropylene: Pg. 7-8

- Highly absorbent
- Absorbs petroleum based fluids
- Hydrophobic - repels water

Haz Mat Polypropylene: Pg. 7-8

- Highly absorbent
- Safely absorbs acids & bases
- Yellow color indicates caution

Needle Punched Polypropylene: Pg. 5

- Use as industrial rug
- Exceptional strength durability
- Ideal in High Traffic Areas

FAQ & PRODUCT INFO

How do I use Oil-Dri® granular clay absorbents?

Cover the spill with Oil-Dri® and allow the granules to start absorbing. Work in with a stiff broom, shovel or shoe to allow all granules to come in contact with fluids. Add more product until all of the fluid has been absorbed. Once fluids are absorbed, you're ready to clean it up for disposal.

What is melt blown polypropylene?

Simply put, melt blown polypropylene is made by melting polypropylene resins which are turned into fiber strands and blown onto a conveyor to form an absorbent material that will hold 12-20 times its weight in fluid.

Why the different colors?

A color coded system was developed by the industry to better understand the waste stream. Yellow sorbents are used for hazardous fluids and indicate caution when disposing while white sorbents will only absorb petroleum based fluids. Grey absorbents are general purpose and can be used anywhere.

How do I dispose of Oil-Dri® absorbents?

Oil-Dri® does not give recommendations for disposing of used material as disposal requirements vary from state to state by the type of fluid that has been absorbed. Contact officials in your municipality or the local or state offices of the EPA for proper disposal procedures. See back cover for regulatory contact information.

Where can I buy Oil-Dri® products?

For information on becoming an Oil-Dri® distributor, or to find a distributor or retailer in your area, please call Customer Service at 800-645-3747.

Did you know?

- The Bureau of Labor Statistics reports that slips, trips and falls at the same level (falls that are not from an elevated height) are the leading cause of OSHA- recordable injuries, racking up over 152,000 lost work days every year and make up almost 20% of all job-related injuries.
- The average cost of a single slip, trip and fall injury is more than \$20,000.
- 1 in 6 of all lost-time work injuries result from slips, trips and falls with an average of 11 days away from work.
- Slips, trips and falls account for 15 to 20% of all workers' compensation expenses.
- US businesses spend over \$36 billion a year in workers' comp, insurance premiums and lost productivity.
- 20 – 30% of people who slip and fall will suffer moderate to severe injuries such as bruises, hip fractures or head injuries.
- According to OSHA, slips, trips and falls cause 15% of all accidental deaths and are second only to motor vehicles.
- OSHA estimates that over six million facilities in the US are regulated under their Subpart D Standards, which require workplace floors to be "maintained in a clean and, so far as possible, a dry condition" (29 CFR 1910.22).

This is a pig.

This is Oil-Dri®.

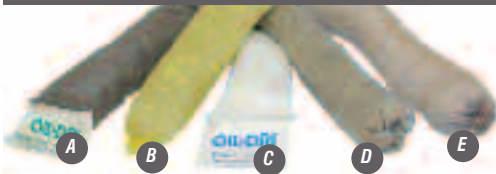

Don't confuse the two.

Oil-Dri Corporation of America is best known for producing the high quality absorbent clay that has made them a leader in industrial absorbent markets. In addition, Oil-Dri® is also a proud supplier of absorbent pads, mats, rolls, socks and spill kits. For one source to supply all of your spill control needs, look no further. Our business is industrial absorbents, end of story.

See our complete offering at www.oildri.net and call **800-645-3747** for a quote on your industrial absorbents today!

SOCK APPLICATION GUIDE

- A** Universal Sock - Recycled cellulose filled sock for universal applications – our most popular sock.
- B** Haz Mat Sock – Chemically inert polypropylene filled sock. Safely absorbs aggressive fluids and acids.
- C** Oil Only Poly Sock – Polypropylene filled sock used for petroleum based fluids – hydrophobic.
- D** Cob Sock - Sock filled with corn cob granules. Used for non aggressive fluids – form fitting.
- E** Super Sock - Universal sock filled with expanding polymeric foam – our most absorbent sock.

SWEEPING COMPOUND

Oil-Dri® Sweeping Compound prevents dust from becoming airborne and resettling, reducing the inhalation of irritable dust while sweeping. Available in sanded, non-sanded, wax based and eco friendly formulas. Ask about co-loading opportunities with clay!

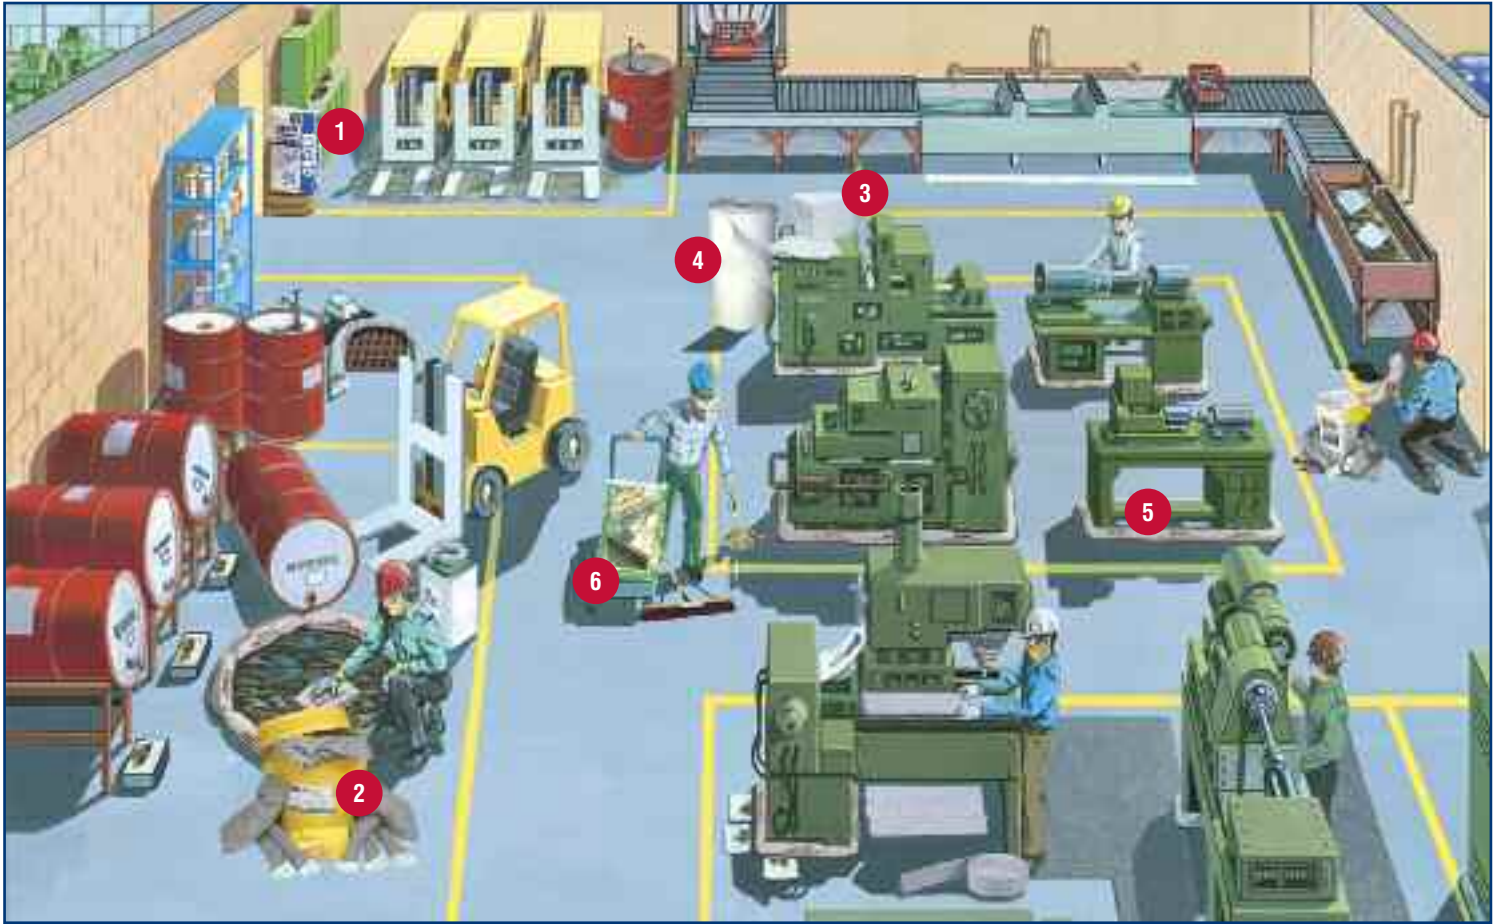

RECYCLED ABSORBENTS

RESORB - Pg. 6
Recycled absorbents support your efforts toward environmental sustainability. Universal and Oil Select pads & rolls made from 85% recycled natural fibers.

INDUSTRIAL PLANT APPLICATIONS

1 - Granular Absorbent

Oil-Dri® granular absorbents undergo an extreme thermal process to increase absorption power and minimize dust. Use on oils, coolants, grease, water, and other spills.

Pg. 5

4 - Oil Only Rolls

Oil only rolls are available in light, medium and heavy weight materials, and come in a variety of length and configurations.

Pg. 9

2 - Spill Kits

Our spill kits are available in a wide variety of sizes and include everything needed to handle any sized spills.

Pg. 13

5 - Absorbent Socks

Socks keep spills trapped by preventing them from spreading out onto the shop floor. Available in Universal, Oil Only and Haz Mat.

Pg. 11

3 - Oil Only Pads in Dispenser Box

Oil-only pads come in a handy dispenser box and are available in light, medium and heavy weight materials.

Pg. 9

6 - Sweeping Compound

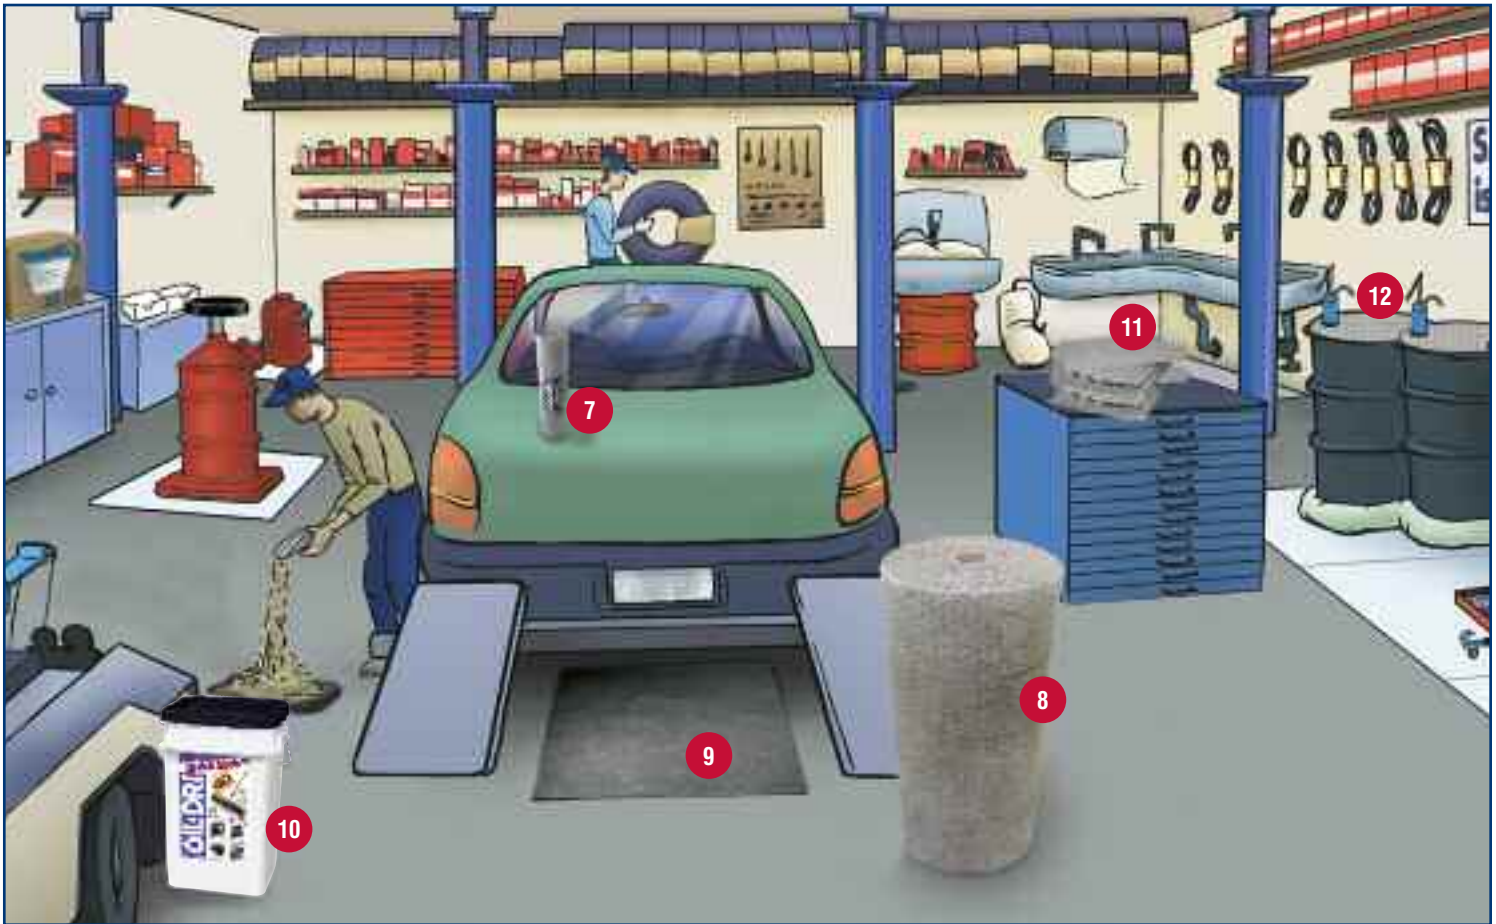

Sweeping compound cleans as it sweeps away dust and dirt without leaving behind an oily residue.

Pg. 6

AUTOMOTIVE SHOP APPLICATIONS

TM

7 - Professional Absorbent Pads

This handy 15 in. x 5 ft. personal roll is perforated every 10 inches and can easily convert to six 10 in. pads to suit your clean-up needs.

Pg. 7

10 - Oil-Dri® QuickSorb®

Oil-Dri® QuickSorb® is specially formulated to absorb twice as much per pound as traditional granular absorbent. Use on oils, coolants, grease, water, and other spills.

Pg. 5

8 - Universal Rolls

Universal rolls can be used for all fluids including acids, bases, oils, hydraulic fluids, and general spills. Available in a variety of length and configurations.

Pg. 7

11 - Universal Pads in Dispenser Box

Use for all fluids including acids, bases, oils, and general spills.

Pg. 7

9 - Garage Guard® Roll

This 3' x 5' rug will absorb oils, coolants, grease, water, and other spills – and won't allow liquid to penetrate it's industrial strength poly backing.

Pg. 8

12 - Drum Top Pads

Keep 55 gallon drums clean and neat by absorbing fluids that leak from pumps and dispenser cans. Universal and Oil Only pads available.

Pg. 8

GRANULAR ABSORBENTS

These highly absorbent clay granules are used to absorb oils, mixtures of soluble oils, acids, paints, inks, water and other liquids. Proper use of these products can reduce slipping accidents and hazards, prevent flash oil fires and keep floors clean and dry. Do not use with turpentine, vegetable oil, unsaturated organic compounds or hydrofluoric acid.

Oil-Dri® manufactures a variety of products that range in both performance and price, giving you the option to select the granular absorbent that best fits your needs.

106040

101140

101340

Oil-Dri® clay absorbents contain trace amounts of naturally occurring crystalline silica – a level far below the OSHA Permissible Exposure Limit and the ACGIH Threshold Limit Value. All products are thoroughly tested and completely safe for their intended uses.

105000

105025

L92889

OIL-DRI® PREMIUM CLAY

Oil-Dri® Premium is the same high quality clay absorbent that the company was founded on in 1941 and made it a leader in the absorbent market today. Formulated to maximize absorption and minimize dust.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS
106040-G50	40 lb. Poly Bag	50 bags/pallet	GA, MS
105090-G40	50 lb. Poly Bag	40 bags/pallet	GA, MS
101025-G70	25 lb. Poly Bag	70 bags/pallet	GA, MS, CA
118002-G50	40 lb. Poly Bag	50 bags/pallet	Quebec
101050-G40	50 lb. Paper Bag	40 bags/pallet	CA
101008-G78	8 lb. Paper Bag	234 bags/pallet	GA, MS, CA

ABSORBS-IT® GRANULAR CLAY

Absorbs-It® is a blended formula of select grades of absorbent clay engineered to achieve high absorbency at a low cost, making it the best valued granular product in the Oil-Dri® family.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS
101140-G50	40 lb. Poly Bag	50 bags/pallet	GA, MS
101150-G40	50 lb. Poly* Bag	40 bags/pallet	GA, MS, CA

*Absorbs-It® is packaged in paper bags in the CA plant.

LEAK & SPILL® GRANULAR CLAY

Specially processed using less energy (heat) makes Leak & Spill® more cost effective for the thrifty minded. This softer clay is intended for immediate clean-up and disposal.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS
101340-G50	40 lb. Poly Bag	50 bags/pallet	MS
101350-G40	50 lb. Poly Bag	40 bags/pallet	MS

Quick-Sorb® FINE GRANULAR CLAY

Made from the same high-quality mineral as our Premium absorbent, Oil-Dri® QuickSorb® has been specially processed to absorb up to twice as much per pound as conventional floor absorbents in half the time. Smaller granules absorb quicker with far less product.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS
105000-G60	20 lb. Pail	60 pails/pallet	GA, MS, CA
105025-G70	25 lb. Bag	70 bags/pallet	GA, MS, CA

RESORB® GRANULAR CELLULOSE

Make Resorb® Granular part of your environmentally conscious spill control plan. Made from 100% recycled paper products and specially created to look and feel like a traditional clay absorbent. Granules won't break down into a mushy mess and absorbs it's weight in fluid.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS
L92889-G65	30 lb. Poly Bag	65 bags/pallet	GA, MS

SWEEPING COMPOUND & TRACTION AID

Oil-Dri® Sweeping Compound prevents dust from becoming airborne and resettling, reducing the inhalation of irritable dust while sweeping. Available in sanded and non-sanded formulas. Made with only the best raw materials for clean, spot-free sweeping. Ships from multiple locations - GA, OH, MS, NJ, MI, WI. Ask about co-loading opportunities with clay!

OIL-DRI® MIGHTY SWEEP

Sanded formula is ideal for unfinished wood and concrete floors. Mainly used in the construction industry, warehouses, boat yards, factories, garages and anywhere heavy-duty cleaning is a must.

DESCRIPTION	PACKAGING	GREEN ITEM #	RED ITEM #	LOCATIONS
Sanded, 50 lb. box	48/pallet	L91050MG	L91050MR	GA, OH, NJ, MS

UNIVERSAL ABSORBENTS

Universal polypropylene pads and rolls absorb all types of leaks and spills in high-traffic areas, tool cribs and routine industrial applications. Oils, coolants, solvents and water based fluids pose no problem for this material. Reinforced with cover stock and bonded for durability, the strong bonded layers allow fluid to spread through the material quickly for the best absorption rate. Pads and rolls are available in a wide variety of weights and configurations.

L93000

L90834

Eliminate guesswork.
Haz mat absorbents can handle all fluids. Contain and absorb aggressive leaks and spills and keep them from spreading.

UNIVERSAL ABSORBENTS

In addition to standard polypropylene pads and rolls, Oil-Dri® offers needle punched industrial rug products for extra strength in high traffic areas and custom uses. Poly backed rugs such as Garage Guard® are easy to cut for versatility and used to protect surfaces - fluids will not penetrate the poly backing. Looking for something a bit more 'green', try our Resorb® absorbent made from recycled fibers. See the full line on page 12.

L90695

L90727	Universal Drum Kit - Pads & Circular Drum Socks.	22" Dia.	4 pads/ 2 socks	box

OIL ONLY ABSORBENTS

Oil only pads and rolls are made from highly absorbent melt blown polypropylene with no chemical additives. This material is naturally hydrophobic, meaning that it will repel water and absorb petroleum based fluids. Oil only products are ideal for absorbing floating oils on water and perfect for any outdoor use as they are weather resistant.

Great for absorbing drips and spills from hoses and leaky equipment. Material is easy to cut to fit into any application area.

OIL ONLY BONDED PADS & ROLLS

Bonded and reinforced with cover stock on each side for maximum strength and absorbency. They resist shedding, so they're neat and easy to clean up.

OIL ONLY ABSORBENTS

In addition to standard polypropylene oil only pads and rolls, Oil-Dri® offers an 'oil select' material from our Resorb® line. See the full line on page 12. Track mat is the ultimate absorbent for high volume petroleum spill. Used mainly in outdoor applications at rail yards, military bases, refineries and steel mills. Use boom and bilge socks for capturing petroleum fluids that are floating on water.

OIL SELECT RESORB® PADS & ROLLS

Made from 85% post-industrial recycled fibers. Oil select (white) material can be used to separate petroleum based fluids from water as hydrocarbons absorb into the natural fibers while water can be easily extracted from the fire resistant material. Soft, pliable and easily cuts to fit any tight spot.

ITEM #	DESCRIPTION	SIZE	PERF	QUANTITY	PACK
L92850	Heavy Weight	15" x 19"	No Perf.	100 pads	box
L92904	Middle Weight	15" x 19"	No Perf.	100 pads	box

OIL ONLY 3-STEP ROLL

Works as three products in one – sock, pad or roll.

ITEM #	DESCRIPTION	SIZE	PERF	QUANTITY	PACK
L90503	Heavy Weight	15" x 50' tri-folded to 5"	18"	1 roll	dispenser box

TRACK MAT

Use non-permeable track mat when refueling locomotives at ready station sites or when greasing the rails. The top black layer is UV resistant, the center layer is highly absorbent and the bottom layer (white) prevent fluids from contaminating the soil and ballast.

ITEM #	DESCRIPTION	SIZE	QUANTITY	PACK
L19100	Heavy Weight	19" x 100'	2 rolls	bale
L29100	Heavy Weight	29" x 150'	2 rolls	bale
L57100	Heavy Weight	57" x 150'	1 roll	bale

Boom have clips on both ends and can be linked together to contain virtually any size spill.

BOOM & BILGE SOCK

Boom absorb petroleum-based fluids and contain spills on water. Links at both ends can hook together for any size spill. Bilge boom and bilge socks skim oil off water in confined spaces, machine sumps and drains.

ITEM #	DESCRIPTION	PACKAGING
L90855	Boom 810 (8" Diameter x 10')	4 booms/bale
L92857	Resorb Boom 510 (5" diameter x 10')	4 booms/bale
L90857	Boom 510 (5" Diameter x 10')	4 booms/bale
L90909	Bilge Sock (3" Diameter x 18")	20 socks/box
L90809	Bilge Sock retail 2-pack (3" Diameter x 18")	10 packs/box
L90858	Bilge Boom (8" Diameter x 18")	10 booms/bale
L90866	Bilge Boom (8" Diameter x 18")	4 booms/box

SOCK & PILLOW ABSORBENTS

These cost effective products absorb and contain steady streams of fluid and prevent spills from spreading onto the shop floor. Use at the base of machinery or around drums to absorb fluid leaks. Socks conform to any shape and can be placed in tight, hard to reach areas. A must-have for routine industrial applications.

UNIVERSAL SOCK & PILLOWS

Filled with recycled cellulose.

RESORB® ABSORBENTS

Responsible facilities are ever changing their buying practices to become more environmentally conscious. Oil-Dri Resorb™ recycled absorbents are designed to meet this growing demand. This line includes pads, rolls, boom, spill kits and cellulose granular absorbent. Pad and roll material is made from 85% recycled natural fibers and is fire resistant (passes ASTM E84 flame spread test). Granular absorbent is made of 100% recycled paper products. Spill kits are 100% incinerable.

L92850

L92901

L92902

L92904

Be prepared with earth friendly absorbents readily available to control daily leaks and spills in your facility. The use of recycled absorbents will support your efforts toward environmental sustainability.

L92857

L92889

RESORB® SPILL KITS
Triple wall drums are made from up to 35% recycled fiber and 100% recycled Kraft linerboard. Drums comply with Sustainable Forestry Initiative® Sourcing Standards and are 100% incinerable.

L92435

UNIVERSAL RESORB® PADS & ROLLS

Made from 85% post-industrial recycled fibers. Spongelike absorption, hand wringable and re-usable. Soft, pliable material easily cuts to fit any tight spot. Fire Resistant - Passes ASTM E84 flame spread test.

ITEM #	DESCRIPTION	SIZE	PERF	QUANTITY	PACK
L92902	Heavy Weight	15" x 19"	No Perf.	100 pads	box
L92001	Middle Weight	15" x 19"	No Perf.	100 pads	box
L92901	Heavy Weight	29.5" x 150'	No Perf.	1 roll	box
L92002	Middle Weight	29.5" x 150'	No Perf.	1 roll	box

OIL SELECT RESORB® PADS & ROLLS

Made from 85% post-industrial recycled fibers. Oil select (white) can be used to separate petroleum based fluids from water as hydrocarbons absorb into the natural fibers while water can be easily extracted from the fire resistant material. Soft, pliable and easily cuts to fit any tight spot.

ITEM #	DESCRIPTION	SIZE	PERF	QUANTITY	PACK
L92850	Heavy Weight	15" x 19"	No Perf.	100 pads	box
L92904	Middle Weight	15" x 19"	No Perf.	100 pads	box
L92780	Heavy Weight	29.5" x 150'	No Perf.	1 roll	box
L92781	Middle Weight	29.5" x 150'	No Perf.	1 roll	box

RESORB® GRANULAR CELLULOSE

Make Resorb® Granular part of your environmentally conscious spill control plan. Made from 100% recycled paper products and specially created to look and feel like a traditional clay absorbent. Granules won't break down into a mushy mess and absorbs it's weight in fluid.

ITEM #	DESCRIPTION	PACKAGING	LOCATIONS

SPILL KITS COMPACT AND 20 GALLONS

Most facilities encounter leaks, drips, sprays or spills that vary in size and severity. Safety hazards are present around machinery and storage areas where risk of injury or chemical reaction is possible. Oil-Dri® offers a variety spill kits designed for universal, oil only and haz mat applications.

COMPACT SPILL KITS

Universal, Oil Only and Chemical Spill Applications.

Easy and cost effective, these small kits are perfect for carrying in vehicles or storing in areas where spills are most likely.

CHEMICAL APPLICATION GUIDE

This information is provided as a guide only to the use of polypropylene material (pads & rolls) with specific chemicals. In all cases it is assumed the chemicals in question are at ambient temperatures and pressure and are used in basic state, not in combination or mixtures. Small test sampling by users is always recommended to ensure safe application.

Aqua Regia				Ethylene Dichloride				Propanol			
Arsenic Trichloride				Ethylene Glycol				Propionic Acid			
Aviation Fuel				Ethylenediamine				Propionic Anhydride			
Barium Hydroxide				Formaldehyde				Propyl Alcohol			
Benzene				Formic Acid				Propylene Glycol			
Benzoic Acid				Fuel Oil				Propylene Oxide			
Benzonitrile				Furfural				Pyrethrins			
Benzol Chloride				Gasoline				Quinoline			
Benzyl Chloride				Gearbox Oil				Resorcinol			
Benzyl Alcohol				Glacial Acetic Acid				Salt Solutions (Metallic)			
Boric Acid				Glycerol				Silicone Oil			
Brake Fluid				Heptane				Silver Nitrate			
Bromine				Hexane				Soap Solution (Concentrated)			
Butyl Acetate				Hydrazine				Sodium Bicarbonate			
Butyl Alcohol				Hydrochloric Acid				Sodium Chloride			
Butyl Phthalate				Hydrofluoric Acid				Sodium Hydroxide			
Butyric Acid				Hydrogen Cyanide				Sodium Hypochlorite			
Butylamine				Hydrogen Peroxide				Sodium Nitrate			
Butyric Acid				Isobutyl Alcohol				Stannic Chloride			
Calcium Hydroxide				Isobutyric Acid				Starch			
Calcium Hypochlorite				Isoprene				Styrene			
Carbolic Acid				Isopropyl Acetate				Sucrose			
Carbon Disulfide				Isopropyl Alcohol				Sulfur Monochloride			
Carbon Tetrachloride				Kerosene				Sulfuric Acid			
Castor Oil				Keytones				Synthetic Motor Oil			
Chlorine Water				Linseed Oil				Tannic Acid			
Chloroacetic Acid				Lubricating Oil				Tetraethyllead			
Chlorobenzene				Magnesium Hydroxide				Tetraethylpyrophosphate			
Chlordane				Malathion				Toluene			
Chloroform				Methyl Alcohol				Transformer Oil			
Chromic Acid (50%)				Methyl Chloride				Trichloroethylene			
Chlorosulfonic Acid				Methyl Ether				Triethylamine			
Citric Acid				Methyl Ethyl Ketone				Triethylene Glycol			
Clorox (Full Strength Bleach)				Methyl Methacrylate				Trimethylamine			
Corn Oil				Methyl Propionate				Turpentine			
Cottonseed Oil				Mevinphos				Urine			
Cresol				Mineral Oil				Vinyl Acetate			
Cyclohexane				Monoethylamine				Vinegar			
Detergents				Monomethylamine				Vinylidene Chloride			
Diazinon				Motor Oil				Xylene			

Disclaimer: No claims or warranties are expressed or implied as to the absolute accuracy of the data supplied.

Disposal: Unused polypropylene materials can be subject to normal disposal and are suitable for landfills. Disposal procedures for saturated material are based on fluids absorbed. Please comply with all local, state and federal environmental regulations when disposing of this product.
