# Apollo 8® Manifold

## Apollo 8® Manifold

- Eight 1/4" barbed ports with threads (caps included)
- Individual Flow Control Adjustment For Each Port—Permits precise flow adjustment for each low-volume head
- Easy-Access Filter—Reduces nozzle plugging
- Internal Pressure Reduction—Ideal for retrofitting underground irrigations systems

Patented

## Operation Range:

- Flow:**  
0 to 141 GPH (8 ports full open port at 50 psi)
- Pressure:**  
10 to 60 psi

## Specifications:

- Dimensions:**  
Inlet: 1/2"  
Outlets: 1/4" barb/10-32 thread  
Height: 2"  
Width: 3-1/2"
