5 Fire-fighting measures

(a) Suitable and unsuitable extinguishing media:

Suitable extinguishing media:

Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid.

Unsuitable extinguishing media:

None Known

(b) Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion:

Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back. Combustible

Hazardous Combustion Products:

Carbon Oxides

(c) Special protective equipment and precautions for firefighters:

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Use methods for the surrounding fire.

6 Accidental release measures

(a) Personal precautions, protective equipment and emergency procedures:

No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this SDS

(b) Methods and materials for containment and cleaning up:

No special spill clean-up considerations. Collect and discard in regular trash.

7 Handling and storage
