Product Guide

Summer/Fall 2018

Who We Are: At PetSafe®, our aim is to strengthen the companionship between pets and people, so they can create their best moments together. We lead the pet industry in the development of innovative products to help improve relationships between pets and their owners. Our products include pet fencing systems, bark control solutions, remote trainers, pet doors, harnesses and head collars, toys, pet fountains and feeders, waste management systems, and products to travel with your pet. We're headquartered in Knoxville, Tenn., but our company spans more than 50 countries across six continents.

Our team of pet lovers is passionate about developing products that enhance the relationship between pets and their owners. We conduct in-home tests and put every product through real-world conditions to perfect every detail. With the insight of the world's top trainers, veterinarians and behaviorists, our products stand alone in excellence and value.

Where We Came From: Our parent company, Radio Systems Corporation®, was founded in 1991, selling the first do-it-yourself pet containment system. Over the past 25 years, we've grown from a small team with just one product to a team of hundreds of associates working across the globe on dozens of innovative pets solutions. All PetSafe® products are designed to give pet owners the best experience possible with their pets.

How We Work: From the beginning, our founder, Randy Boyd, infused the company with his spirit of collaboration, innovation and a drive to enhance the human-animal bond. Setting the tone with a casual work environment and no private offices, PetSafe® is a relaxed, relationship-driven workplace where we bring our pets to work every day. Bringing our pets to work inspires what we do and drives our product development. We end every day "dog tired" from logging extra hours to ensure pets everywhere are happy, safe and enjoying the best quality of life possible. We wouldn't have it any other way!

Pet Fencing

Your pets love to run and play. But with the outdoors come the stress of chasing cars, roaming the neighborhood or even running away. You can help protect your pets by keeping them in your yard with a PetSafe® Wireless Fence or In-Ground Fence™ System.

Installing a pet containment system will cost you far less time and money than installing a traditional fence. Our In-Ground Fence™ systems allow you to customize your boundary, while our wireless systems are an easy, portable option to set adjustable boundaries.

Bark Control

Barking is a natural instinct for your dog. It's also natural for you to want to reduce excessive barking and bring peace back to your home. A PetSafe® bark control device can help quickly teach dogs when it's appropriate to bark and when to hold the chatter.

We offer bark collars with a variety of correction methods designed to discourage your dog from barking, including static correction and spray options. We also offer ultrasonic deterrents that can be used for homes with single or multiple dogs.

Pet Fountains

Your pet needs 1 ounce of water per pound of body weight daily. PetSafe® Drinkwell® pet fountains keep your pet's water filtered and great tasting, encouraging water intake and proper hydration. The free-falling water stream entices thirsty cats and dogs to get the amount of hydration they need to support healthy kidneys and urinary tracts. Pets who are prone to urinary infections, crystals or obstructions need to drink lots of water to prevent health problems.

With modern designs to match any home decor and colors to brighten or blend in, PetSafe® has just the right fountain for any home.

Pet Feeders

Choosing the right food for your pet is important for good health, but how you feed your pet is equally important. PetSafe® pet feeders take the stress and guesswork out of mealtime.

Gravity food stations conveniently allow pets who don't overeat to manage their own eating habits. For those pets that need help with portion control or owners with busy schedules, our automatic feeders are a great way to simplify your pet's feeding routine.

PetSafe®

Smart Feed

- Smartphone programming to control your pet's meals from anywhere
- Dispenses up to 12 meals of dry food a day to feed on your pet's schedule
- Allows for flexible meal portions from $1/_8$ cup to 4 cups to fit your pet's diet
- Sends alerts, so you can monitor your pet's meals for peace of mind
- Slow feed option helps slow down fast eaters to prevent bloat and vomiting

Access & Mobility

Whether you're embarking on a road trip or just have an elderly dog or cat, many pets need help getting places. Our ramps and steps are great for reaching medium to high elevations like beds or for vehicle use. Regular use of ramps or stairs can reduce stress on pets' joints. Our stairs are perfect for in-home use, helping pets reach the couch or bed.
