Ranch Equipment

CATTLE ♦ IMPLEMENTS ♦ PANELS ♦ HORSE ♦ AND SO MUCH MORE!

RAISING KIDS, COWS & QUARTER HORSES
Since 1964

built by ranchers, for ranchers.

Priefert History

In 1964, Marvin Priefert invented his first headgate. Little did he know, this first piece of ranch equipment would later become the foundation for one of the largest farm, ranch, and rodeo equipment manufacturers in the world. Driven by the desire to "find a better way," Marvin and his family have continued to innovate and invent, successfully growing a company focused on meeting the needs of the American farmer and rancher. Today, the Priefert name has earned a strong reputation in the industry for integrity, quality, and reliability.

Over the last 50 years, Priefert has led the way with revolutionary designs that have helped keep the Priefert name at the forefront of the industry. Not only was Priefert the first in the industry to offer a fully front-opening headgate, but we were also the first to introduce curved sides on a squeeze chute to better fit the shape of cattle. Other firsts include: the introduction of chain connection panels in 1984, the first open-sided cattle sweep system and the first double pivot calf table in 1988, the creation of the infinite locking system in 1991, and the first complete line of powder-coated products in 1995. Priefert's Model 91 Headgate and S04 Squeeze Chute are still recognized as the best in the industry, with more features than any other chute on the market. Priefert's rodeo equipment is also an industry favorite and has the been the equipment of choice for the PBR since 2005 and for the PRCA and National Finals Rodeo since 2006.

Today, Priefert is in its third generation of family leadership. Priefert Manufacturing has over 800 employees and a dealer network of over 1000 dealers around the world. Considered the leading innovator in the livestock handling industry, Priefert continues to develop and produce equipment that is safe and durable for both the animal and the operator. Priefert is recognized as having the highest quality equipment on the market and is proud to have its products used and endorsed by the top cattle, equine, rodeo hog and roping organizations in the country. Hard work, good people, a willingness to step "outside the box," and abundant blessings from God have allowed this company to grow and prosper.

Marvin Priefert

PROUDLY MADE IN America SINCE 1964

S04 Squeeze Chute

Easy on the Cow... Easy on the Cowboy

Model S04

squeeze chute s04

- Manual/Automatic Model 91 Headgate
- Dual tailgate w/one side opening option
- Side squeeze
- Floating floor allows for easy width adjustments
- Side exit
- 5 drop gates on each side
- Head chain
- Removable bottom access panels
- Infinite Locks Guaranteed for Life

Priefert's #1 Selling Squeeze Chute

Automatic Engage Lever

Overhead Squeeze Lever

Automatic Setting Lever

Side Exit Release Rope

CC1564 Cattle Cage Features

MODEL 64 HEADGATE
Manual Model, with Head Chain Restraint

SIDES OPEN LIKE GATES
Vertical Bar keeps cattle in line with headgate

REMOVABLE SIDES
Provides Maximum access to the animal

HEAD CHAIN
Secures the head to provide safe access to head or neck area.

Headgates *Built by Ranchers, for Ranchers*

HG91

- Works Manually & Automatically
- Switch to self-catch with a "Flip of a Lever"
- Reversible & Portable *(w/Optional Headgate Stand)*
- Infinite Locks Guaranteed for Life
- Head Chain Restraint *(Head Chain Sold Seperate)*
- 5 Year Warranty
- Lock any size neck with no adjustments necessary

HG10

- Works Manually & Automatically
- Taller & Wider than our other Headgates
- Portable *(w/Optional Headgate Stand)*
- Infinite Locks Guaranteed for Life
- Head Chain Restraint *(Head Chain Sold Seperate)*
- 5 Year Warranty
- Lock any size neck with no adjustments necessary

HG64

- Manual Only
- Reversible & Portable *(w/Optional Headgate Stand)*
- Friction Latch
- Head Chain Restraint *(Head Chain Sold Seperate)*
- 5 Year Warranty
- Lock any size neck with no adjustments necessary

Cattle Accessories

HEADGATE NECK EXTENDER:(HGNE)
The Headgate Neck Extender is designed to reduce head movement and gently extend an animal's neck while in either a Model HG91 or HG10 Priefert Headgate.

HEADCHAIN:(HC)
Designed to work with Priefert Squeeze Chutes, Headgates, and the Priefert Calf Table, this Head Chain can be used to securely restrain an animal's head.

facebook

Premier Open Sweep systems

This rugged, completely reversible crowding system can be used as a portable or permanent working corral. Either way, it provides a durable and affordable crowding system that requires less labor for working cattle.

Priefert's innovative, user-friendly panel design allows you to build a complete system or add what you need to an existing corral. Our chain connection panels assemble easily and fit tighter than any pin connection panels. The heavy gauge tubular steel construction allows these sweeps to be portable and our Architectural Grade powder coat gives our panels a durable finish. Available in 90° and 180° sweeps, these systems and corrals are versatile enough for herds of any size.

Rough Stock Open Sweep systems

Priefert's Rough Stock Open Sweeps improve the flow of cattle by pivoting our sweeping bow gate at the alley. Eliminating the corner found with the standard design of 180 degree sweeps, a 135° sweep is simply a practical design that provides benefits that reduce stress on livestock and operators alike. The cost savings and reduction of labor in assembly further increases the attractiveness of this design. A full array of optional components offer cattle owners the opportunity to fit this system into existing corrals or build a complete set of pens using either our 6' Tall Premier Panels, Rough Stock Arena Panels, or the Rough Stock Panel itself.

WA-1

This working alley with Model 91 Headgate is ideal for applications where a short alley will be needed with a head catch. Includes our reversible and versatile Model 91 Headgate.

Includes: (1) Model 91 Automatic/Manual Headgate; (1) Headgate Stand; (2) 12' Premier Panels; (2) Alley Frames; (1) No-Back Alley Stop

OS-4

We combined the 180° open sweep with a 24'L x 25"W alley. Great for permanent corrals and extremely versatile for portable applications.

Includes: (1) 10' Bow Gate; (1) 10' Panel w/Alley Frame; (3) Radius Bars; (4) 8' Curved Panels; (4) 12' Premier Panels; (4) Alley Frames; (1) No Back Alley Stop

OS-1

When space is a factor and you are looking for an economical, versatile crowding system, our 90° Premier Open Sweep fits the bill. Great for permanent or portable applications.

Includes: (1) 10' Bow Gate; (1) 10' Panel w/ Alley Frame; (1) Radius Bar; (2) 8' Curved Panels.

OS-5

The 180° open sweep with 24' long alley (25" inside width) of the OS-4 with the addition of the versatile Model 91 Automatic/Manual headgate and headgate stand.

Includes: (1) 10' Bow Gate; (1) 10' Panel w/Alley Frame; (3) Radius Bars; (4) 8' Curved Panels; (4) 12' Premier Panels; (3) Alley Frames; (1) Model 91 Headgate; (1) Headgate Stand; (1) No-Back Alley Stop

OS-2

A 180° open sweep that offers twice the capacity of the OS-1 and is equally adaptable to any permanent or portable set of pens or alley.

Includes: (1) 10' Bow Gate; (1) 10' Panel with Alley Frame; (3) Radius Bars; (4) 8' Curved Panels

OS-6

A complete 180° open sweep with 24' long alley (25" inside width) and a side sorting alley that can extend to a calf table or loading ramp.

Includes: (1) 10' Bow Gate; (1) 10' Panel w/Alley Frame; (3) Radius Bars; (4) 8' Curved Panels; (5) 12' Premier Panels; (1) 8' Premier Panel; (3) Alley Frames; (1) No Back Alley Stop; (1) Sorting Gate; (1) Alley Gate.
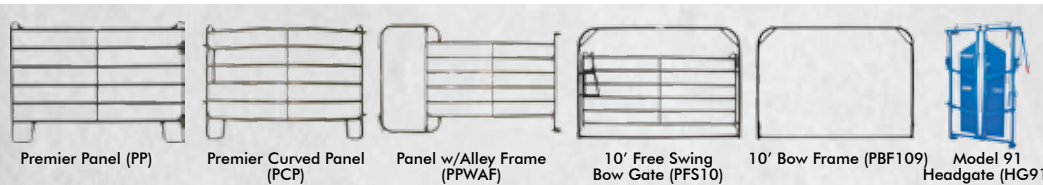

OS-3

For permanent or portable operations, we combined the 90° open sweep with a 12'L x 25"W alley, Model 91 headgate and headgate stand.

Includes: (1) 10' Bow Gate; (1) Panel w/Alley Frame; (1) Radius Bar; (2) 8' Curved Panels; (2) 12' Premier Panels; (1) Alley Frame; (1) No Back Alley Stop; (1) Headgate Stand; (1) Model 91 Headgate.

OS-7

Simple and efficient but without a sweep, the OS-7 funnels livestock to a short alley and headgate.

Includes: (1) 10' Bow Gate; (11) 12' Premier Panels; (1) Alley Frame; (1) No Back Alley Stop; (1) Alley Gate; (1) Headgate Stand; (1) Model 91 Headgate.

RSOS-1

135° Rough Stock Open Sweep w/30' Adjustable Alley (1 Rolling Alley Gate - 1 Adj Alley Frame)

Includes: (1) Open Bow Gate; (3) Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (1) Open Straight Sweep Panel; (4) 10' Rough Stock Panels; (2) Rough Stock Open Preg Panels; (1) Sheeted Adj Alley Gate; (1) Sheeted Adj Alley Frame; (1) Adj Alley Frame w/Chute Attachment; (1) No Back Alley Stop

RSOS-13

135° Rough Stock Open Sweep w/20' Adjustable Alley (with Preg Panels & 8' Sweep Bow Gate)

Includes: (1) Open Bow Gate; (3) Rough Stock Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (2) 10' Rough Stock Panels; (2) Sheeted Adj Alley Gates; (2) Rough Stock Open Preg Panels; (1) Adj Alley Frame w/Chute Attachment; (2) Connector Posts; (1) Rough Stock Sweep Bow Gate

RSOS-4

135° Rough Stock Open Sweep w/20' Fixed Alley

Includes: (1) Open Bow Gate; (3) Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (1) Open Straight Sweep Panel; (4) 10' Rough Stock Panels; (2) Rough Stock Alley Frame; (1) No Back Alley Stop

RSOS-14

135° Rough Stock Open Sweep w/20' Adjustable Alley (with the addition of an 8' Sweep Bow Gate)

Includes: (1) Open Bow Gate; (3) Rough Stock Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (4) 10' Rough Stock Panels; (1) Sheeted Adj Alley Frame; (1) Sheeted Adj Alley Gate; (1) Adj Alley Frame w/Chute Attachment; (2) Connector Posts; (1) Rough Stock Sweep Bow Gate

RSOS-7

This reversible 135° sweep has a spring loaded, self-latching door with a pivot point at the alley that eliminates the common cow trap found in conventional sweeps.

Includes: (1) Open Bow Gate; (3) Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (1) Rough Stock Open Straight Sweep Panel
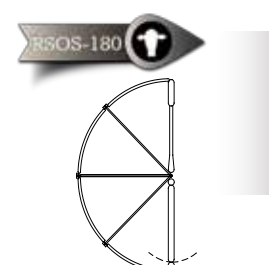

RSOS-15

This reversible 135° "Revolution" Sweep is designed from our Rough Stock components. Adding the 8' Rough Stock Bow Gate makes for easy load out before entering an alley.

Includes: (1) Open Bow Gate; (3) Rough Stock Open Curve Panels; (3) Radius Bars; (1) Radius Bow; (1) Rough Stock Sweep Bow Gate

RSOS-8

135° Rough Stock Open w/30' Adj Alley (with the addition of an 8' Sorting Gate)

Includes: (1) Open Bow Gate; (3) Open Curved Panels; (3) Radius Bars; (1) Radius Bow; (4) 10' Rough Stock Panels; (1) Sheeted Adj Alley Frame; (2) Sheeted Adj Alley Gates; (2) Rough Stock Open Preg Panels; (1) Adj Alley Frame w/Chute Attachment; (2) Connector Posts; (1) Rough Stock Open Sweep Bow Gate
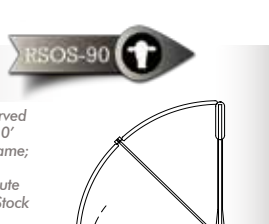

RSOS-90

The RSOS-90 is made from the same tough Roughstock panels as the 135 degree systems, and can help fit a working system into the tightest of barns. Fully reversible and featuring the same spring-loaded lever latch of the other systems, the RSOS-90 is perfect for the rancher with a small herd and space constraints.

Includes: (1) Open Bow Gate; (1) Open Panel with Alley Frame; (2) Open Curve Panel; (1) Radius Bar; (1) Radius Bow

RSOS-180

Expanding our RSOS-90 to 180 degrees, this system works much like the Premier OS-2, allowing for a large number of cattle to be loaded in the tub, ready to sweep down the alley. This sweep is fully reversible and features the same safety and strength benefits of the other RSOS systems.

Includes: (1) Open Bow Gate; (1) Open Panel with Alley Frame; (4) Open Curve Panel; (3) Radius Bar; (1) Radius Bow

Solid Sheeted Sweep systems

Priefert's Solid Sweep System has several unique, practical features not found in most other solid sweeps. Pivoting our sweeping bow gate at the alley improved the flow of cattle by eliminating the corner found with the standard 180 degree sweeps. By eliminating catwalks, we improved safety and provided another cost saving benefit for operators. Spring loaded, double piston latches in the sweep increase user safety. An optional second bow gate offers the opportunity for loading directly from the sweep. All alley and sweep panels are designed to provide easy access for "pour-on" application of insecticides. More for your money with increased safety and multitudes of options; what more could you want?

The Bud Box Corral design was developed by Bud Williams of Bowie, Texas as the result of years of experience and the acceptance of two basic instinctive cattle behaviors: (a) when blocked, cattle want to return to where they came from and (b) animals prefer to go around something they feel pressure from.

BUD BOX #1
UP TO 100 HEAD

A simple single alley system with a working chute. Designed for the cattle to enter the small box and are moved past the opening to the single file chute. When the cattle reach the dead end, they will naturally want to return to their entry point.

PRIEFERT'S #1
Horse-Safe™
PANEL
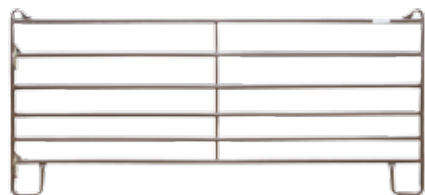

Utility Panel
Priefert's Utility Panels are versatile and safe for the vast majority of horse owners' needs. "Fishhook" tops combined with oval end frames and chain connectors help insure a snug fit while eliminating space between panels. J-legs help keep panels from sinking in soft ground and allow panels to slide when portability is required. Priefert is the only panel maker in the industry to use "drilled stays" which increase safety and strength. An Architectural Grade powder coat finish helps this panel resist scratching and the deteriorating effects of the weather. *Available in 10', 12' and 16' lengths.*

Available Colors:

TOUGH ENOUGH FOR CATTLE
safe enough for HORSES

All panels offer a variety of
Bow Gates & Walk Thru's

### Premier Panel
For over 25 years Priefert's Premier Panels have proven to have outstanding popularity among horse and cattle owners alike. This is our "first" panel and the one that provides the most versatility, superior durability, and arguably the best value of any panel on the market. Our unique Quadraform™ tubing offers increased flexibility while providing amazing capacity for remaining upright should an animal try to go over it. The single piece vertical stay through drilled rails adds even more strength and safety. An Architectural Grade powder coat finish helps this panel resist scratching and the deteriorating effects of the weather. For round pens, paddocks, corrals, sweeps, or anywhere confinement is needed, Priefert's Premier Panels are a solid choice! *Available in 6', 8', 10', 12', 14' and 16' lengths.*
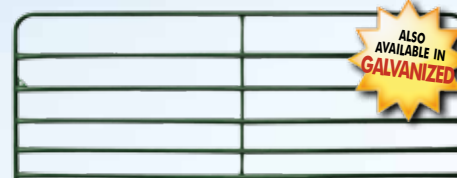

Available Colors:

Economy Panel
Priefert's most affordable panel suitable for horse owners. With loop legs, the economy panel is easy to move around for everyone. Its 65" height, single piece vertical stay and chain connectors enhance safety for horses that accept confinement. Available with an Architectural Grade powder coat finish that resists the elements. *Available in 6', 10', and 12' lengths.*

Panel Walkers

The World's Most Advanced HORSE WALKERS

PROUDLY MADE IN America SINCE 1964

ARCHITECTURAL POWDER COAT FINISH GRADE
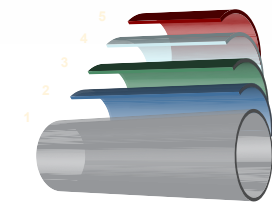

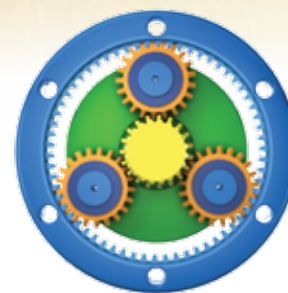

PLANETARY GEAR BOX- Never worry about burning belts again. Priefert Walkers run on a planetary gear box system similar to those used in heavy earth moving equipment like track hoes. This provides years of virtually maintenance free, reliable operation.

SERIOUS "HORSE POWER" - The power of a Siemens 3 horse power motor has the strength, speed, and torque to withstand 2000 pounds of downward pull while conditioning up to eight horses at once.

WIRELESS REMOTE CONTROL - Bring your horses from a slow walk to a fast trot with variable speed controls, reverse direction, or even stop the walker all from your front porch using our convenient pocket-sized remote control.

CONTROL BOXES - Priefert offers two control boxes to choose from. Our standard push button control box features large labeled buttons and a convenient timer with 3 preset time increments. Our touch screen control box allows you to program automated workouts for your horses. With this added functionality, conditioning your animals can be more precise as time, speed, and direction are determined for each pre-set routine.

WEATHER PROOF FINISH - Every Priefert Walker is powder coated in our in-house facility using a durable architectural grade powder coat finish which will extend the life and beauty of your purchase for years to come. This electrostatically applied, baked-on finish is resistant to weather, rust, and chipping. Black is our standard stocking color, others colors are available.

other Features

- Whisper quiet operation
- Variable speed adjustment
- Operates forward or reverse
- Emergency shutoff
- Solid bottom panels with wire mesh or rail top
- Heavy duty, free-swinging, electrically charged divider panels w/ adj. heights

Horse Stock(HS)

This Horse Stock includes a Tie Bar and is ideal for vet work, for use as a wash rack, or anytime you want your horse to stand in one place.

Horse Stock is available pre-assembled (HS) or not assembled (HSNA).

Bob Avila, World Champion Horseman

Priefert's manual roping chute is the most widely used roping chute in the country. The official chute of the PRCA, USTRC, NTRL, WTRC, the World Series of Team Roping and other major roping organizations, the RC98M is the chute of choice by professionals. Endorsements by champion team ropers like Speed Williams, Rich Skelton, Chad Masters, Clay O'Brien Cooper, Luke Brown, and countless others have made this chute the most popular piece of equipment in arenas around the country. The RC98 chute is the quietest, most durable chute on the market.

RC98M manual roping chute

RC98M

Model LS5

Time Tested –
Grower Approved!

Priefert's Pull-Style Chain Harrows are built for light or heavy duty grooming. The harrow mat is constructed of a heavy duty high carbon, heat-treated, ½" chain with double 4" long teeth; therefore making it a perfect solution for spreading in fertilizer on hay fields, land leveling, and landscaping. This harrow features an optional 3-point lift kit that allows the operator to have complete control over the harrow and enables easy transporting between locations.

LimbSaw

- Mounts directly to front end loader or skid steer
- Trims up to 8' higher than your loader can reach
- Chain bar built from single piece of hardened alloy steel
- Equipped with a self-oiling system
- Architectural Grade Powder Coat Finish

M·POWERED BY **Priefert**®

Before & After

THE LIMBSAW is a tree trimming attachment that mounts directly to the front end loader of your tractor, skid loader, or backhoe. This commercial-grade chainsaw attaches easily to a receiver on the back of your front end loader or bucket, and connects to your tractor's auxiliary hydraulics. The unit comes with an eight foot mast that can reach limbs 18 to 20 feet when attached to an average loader. The LIMBSAW attachment folds into a convenient transport position, and at only 84 lbs, makes it easy to remove and store in your shop or garage.
