Installing 3 AA Alkaline Batteries

- 1 Unscrew and remove battery cover on bottom of Lantern
- 2 Insert 3 AA batteries according to polarity (+/-) as indicated on Lantern battery compartment
- 3 Replace and tighten battery cover

**FRESH ALKALINE BATTERIES ARE RECOMMENDED
DO NOT MIX OLD AND NEW, OR DIFFERENT TYPES OF BATTERIES
DISPOSE OF BATTERIES PROPERLY**

On / Off Instructions

- 1 To turn Lantern ON, pull top of Lantern UP from base until unit is fully extended
- 2 Adjust height of Lantern to control amount of light emitted
- 3 To turn Lantern OFF, push top of Lantern DOWN toward base until unit is fully closed

Magnetic Base

Three magnets mounted in base of Lantern provide easy, hands-free magnetic adhesion to most ferrous (iron-based) metal surfaces. Magnetic base is most effective on a flat metal surface.

Retractable Hanging Hook and Handles

- 1 Retractable hook on bottom of Lantern base
- 2 Retractable handles on side of Lantern. Use to hang Lantern in ideal location for maximum light

Built-In Compass

- The Built-In Compass at top of Lantern is as shown in photograph

Compass Reading Tips

- Hold Lantern level. The needle must be balanced properly for an accurate directional reading
- Read the correct direction; "N" stands for "North"
- Move to a different area if the compass reading is unstable
- Use common sense: e.g., know that the sun rises in the East and sets in the West

Maintenance

- Remove and store batteries when not in use for 90 days or longer
- Clean Lantern with a clean, dry cloth as needed.
- Lubricate screw threads and moving parts with standard consumer lubricant as needed

Warning

- High Intensity Beam. Extremely bright 300 lumen light
- Do not shine directly into eyes; may cause vision damage
- Follow City Ordinance Guidelines for proper disposal of dry cell batteries
- Recommended for Ages 14+

Troubleshooting

If the Lantern does not turn on; works intermittently; or has a weak light:

- Remove and replace batteries
- Be sure Lantern base is screwed on tightly, and batteries are inserted properly in battery compartment
- If problem persists, contact Pro-4 Tactical for technical advice
- See www.Pro-4Marketing.com for Warranty and Replacement Information

WARNING: This product can expose you to chemicals including Benzene and Ethylbenzene which are known to the State of California to cause cancer. For more information, go to www.p65Warnings.ca.gov
