

STAGING & STEEL PUMP JACK SYSTEMS

1 Pump Jack (2200)

- Accommodates two 2" x 10" wood planks with toe boards attached
- Foot action does all the work
- Raise to position & lower with the hand crank
- Positive double-lock system brake secures itself to wood poles
- For use with fabricated wood poles constructed of spliced 2 x 4's up to 30' high

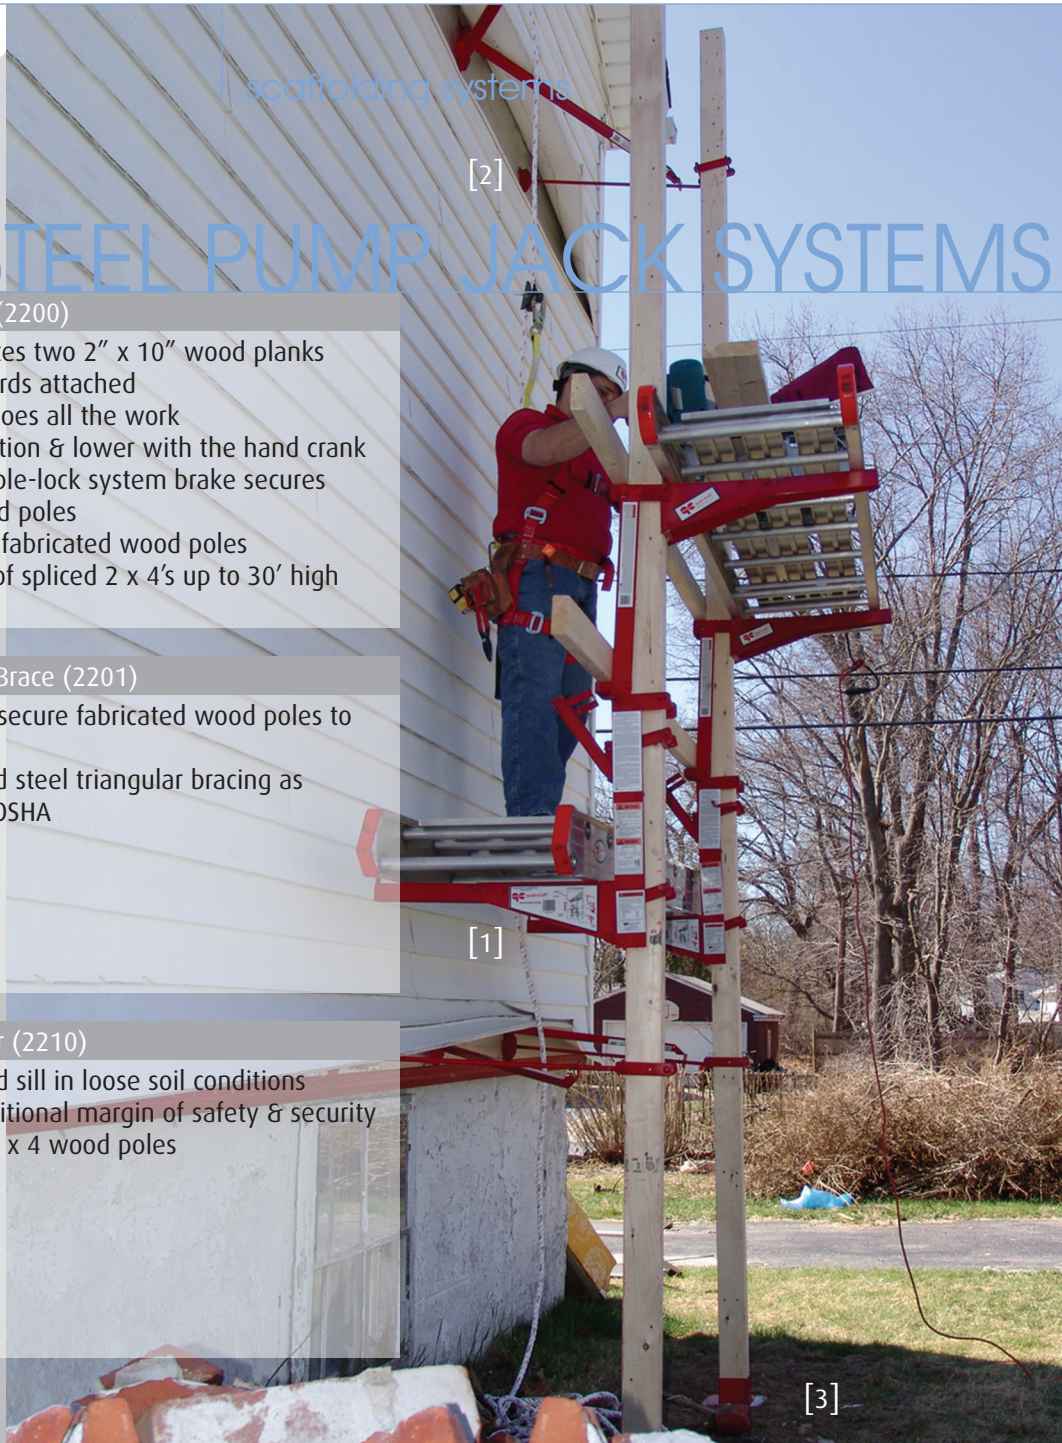

2 Pump Jack Brace (2201)

- Designed to secure fabricated wood poles to building
- Provides rigid steel triangular bracing as required by OSHA

3 Pole Anchor (2210)

- Provides mud sill in loose soil conditions
- Provides additional margin of safety & security
- Fits double 2 x 4 wood poles
