The One That Started It

is still swimming strong.

Rebel® Minnow

The 3 1/2-inch Rebel® Minnow (F10) was the first-hard plastic Rebel lure produced. Its success came almost overnight. Demand quickly grew for other sizes and styles of the now legendary Rebel Minnow. For traditional, dependable, true-running action, nothing compares to the one that started it all — the Rebel Minnow.

Jumpin' Minnow®

The 3 1/2-inch T10 Rebel Jumpin' Minnow has re-surfaced after a period of obscurity, during which time veteran anglers guarded every 3 1/2-inch Jumpin' Minnow vigilantly. A Jumpin' Minnow glides from side to side, skimming the surface like a baitfish fleeing a furious predator, and its old-style lead rattle creates a distinctive call that beckons fish from far away. It casts like a bullet and ranks among the easiest to work of all walking baits.

Saltwater Super Pop-R®

The Rebel Pop-R is no stranger to redfish or speckled trout in the Gulf, and it knows stripers and bluefish off the beaches in the Northeast, too. For years anglers replaced the freshwater hooks with saltwater grade trebles and threw their regular Pop-Rs in the Gulf and off the beach for big predator fish, and Rebel just did them one better. Not only is the Saltwater Super Pop-R equipped with tough, sharp saltwater grade hooks, but the colors were designed with big redfish, trout, stripers and other salty fish in mind.
