PRO PRIDE®

VINYL SIDING

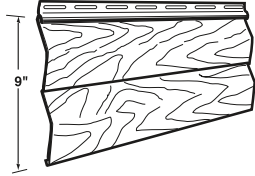

When durability and affordable features are as important as low maintenance and curb appeal, ProPride® is your vinyl siding of choice. ProPride® vinyl siding blends a crisp profile, in brushed cedar woodgrain finish, with the subtle drama of shadow lines for a look that gives any home new life.

The popular 4.5" dutchlap profile takes the guesswork out of ordering. Our ProPride® panels by Style Crest are available in 10 popular colors and meets or exceeds all industry testing standards.

SHAKES, STONE AND ACCENTS

NovikShake™ RS8 8' Roughsawn Cedar siding will give any home – new or remodeled – a classic look derived from the eastern shores. This stunning alternative to real wood shakes will deliver performance and low maintenance that will be appreciated for years to come.

Built to withstand the harsh effects Mother Nature can offer, the NovikShake RS8 panel is also surprisingly lightweight – so there's no need to worry about additional weight on the structure or exterior wall.

NOVIK's one-piece construction affords a seamless appearance. In addition, its single course design makes installation a breeze, allows for precise measurement and reduces overall waste of material.

Style Crest is now stocking several colors including Novik's Weathered & StainNatural styles. In addition we are offer matching colors of corners and j-channels for almost the entire RS8 color palette.

CREST WATER®

Cedar Shake

The CrestWater 7" Split Cedar Shake siding offers wood-grains that are textured to look authentic with the appearance of knots, gouges, and splits that are built in design features. CrestWater siding panels uses 20 different wood grains per panel by an eight panel series, which equals 40 feet of no repeat.

The deeply textured design is used by leading builders to break up very wide or tall spans on buildings or homes into smaller, more interesting areas to change the visual scale, or to improve how it looks and blends with the topography of its site.

Our CrestWater Cedar Shake program consists of 20 matching colors and 3 blends in a 7" PVC shake. All colors offered are formulated with acrylic capstock for lasting fade protection. Style Crest®, Inc. is now stocking several colors of the split shake siding panels.

We've also expanded the color offering in our 3/4" J-Channel to support the program in all of the matching colors. Shake corners are available for a limited time for the CrestWater Cedar Shake program in the same matching colors.

TIMBERMILL®

SIMULATED CEDAR SIDING

Nature Has A Way Of Bringing Out Its Beauty.

Timbermill® incorporates authentic-looking knots and veining to create a unique and unmatched natural wood grain appearance.

- Patented log cabin boards have insulating foam backing that provides impact resistance, resists moisture and is impervious to wood-boring insects.
- Authentic, low-maintenance siding available in two no-fade stunning stains that last the lifetime of the product. No need to sand and stain ever again!
- Less expensive and longer lasting than real wood.
- Features a KYNAR® PVDF film finish for outstanding durability and advanced color protection.
- Built with a TempRite® high-performance substrate for longevity and strength in any climate.
- Covered by a Limited Lifetime Warranty.

Timbermill® - It's Knot What You Think!
