Driveway Marker

Marker™ +Mount

Power up your
marker sales
with this
clever combo

Smart All-in-one Solution: Spike Base & Marker Combo

This innovative combo of durable base and fiberglass marker will increase your average marker ticket—up to 50% over basic markers. Marker Mount Plus addresses the two biggest consumer complaints about markers: they're hard to install and they don't stay put. Our rugged base will keep markers standing tall all season long.

- ▶ All-in-one solution: Base and marker combo
- ▶ Firm base keeps markers standing upright
- ▶ Huge hit area for easy install—20x more strike surface than standard marker
- ▶ Guaranteed not to crack when hammered
- ▶ Install and remove in seconds
- ▶ High-visibility orange
- ▶ Reduced marker breakage - markers can release from mount
- ▶ Mount high-impact polyethylene; rods ¼", 4'H, non-splintering fiberglass
- ▶ Patent pending

Available in packs of 25 or 50
Color tube display included for opening order

Model No. 15-001

Driveway Marker

Marker™ Mount

Sturdy Spike Keeps Markers Upright

The Marker Mount spike will make a profitable addition to your driveway marker assortment. It's a great add-on for customers with basic markers—or natural upsell for those buying new basics.

Customers who bought one of the millions of basic markers sold last season **often experience 30%+ breakage**. Our affordable plastic spike easily solves that problem, keeping markers upright. But if a marker is hit by a plow, it tends to dislodge from the spike instead of breaking. And with the Marker Mount fixed in the ground, it's much easier to reinstall a marker.

- ▶ Keeps markers upright all season long
- ▶ Dramatically reduces marker breakage, saving money on replacements
- ▶ Generous 2" strike area makes it easy to install
- ▶ Works with all fiberglass markers 1/4" or 5/16" diameter
- ▶ Guaranteed not to break when hammered
- ▶ Installs and removes in seconds
- ▶ Reusable
- ▶ Patent pending

Available in a 6-pack polybag with header card, including display clip strip
