†For complete information consult written warranty. *Add "G" to end of model for top T&P configuration. Example: 6 30 EORT becomes 6 30 EORT G.
**Side water connections. Δ Configured for 120V AC power.

Energy Factor and First Hour ratings shown for Hybrid Electric Heat Pump units are based on operation in the Hybrid mode. Recovery Ratings shown for Hybrid Electric Heat Pump units are based on back up heating element performance. All Hybrid Electric Heat Pump units are rated for both 208 VAC and 240 VAC single phase power supply.

Reliance® Water Heater Company reserves the right to make product changes or improvements without prior notice. Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement. Some models may not be available in all markets.

For propane gas water heaters, change “G” to “L” or “N” to “P” or “Y” to “H,” or “X” to “C,”in the model number. For example: 12 40 PACT, 6 50 HBDS, or 6 75 CRRS.

*Not available in propane gas. ‡Some propane gas models have slightly lower inputs than natural gas models, which may reduce First Hour Rating and recovery by up to 3 gallons on propane models.
†For complete information consult written warranty.

Mobile Home water heaters have side inlet and top outlet water connections.

6 75 YRVHTL and 6 75 HRVHTL Power Vent models are factory equipped with side taps for space heating applications where plumbing codes allow.

Reliance® Water Heater Company reserves the right to make product changes or improvements without prior notice. Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement. Some models may not be available in all markets.
