## Over 150 Years of Innovation.

When asked by a local priest to supply beeswax candles, A.I. Root's son, Huber, developed a superior beeswax candle using hand-rolled strips of beeswax from Root's own hives wrapped around a wick.

These pure beeswax candles from Root burned cleaner and longer, as they delivered the natural aroma of sweet honey. Root Candles has been a leading supplier of liturgical candles ever since.

# CELEBRATING OUR RICH HERITAGE

*It all started with a swarm of bees...*

More than 150 years ago, Amos Ives Root was inspired to start a beekeeping business when a swarm of bees landed on the window of his jewelry store. That simple event created a company that has become synonymous with beekeeping, honey, pure beeswax, and the highest quality candles.

### Amos Ives Root

(1839 - 1923)  
founded the A.I. Root Company.

### 1869

His name became synonymous with beekeeping, honey, pure beeswax, and the highest quality candles.

A.I. Root manufactured beekeeping equipment, that for the first time allowed the honey to be harvested without damaging the colony.

During the peak of our beekeeping supplies business, we shipped four freight train car loads of beekeeping equipment per day!

### 1879

A.I. Root published *The ABC & XYZ of Bee Culture*. Currently in its 41st edition, it is often referred to as "The Beekeeper's Bible."

In the late 1800s and early 1900s A.I. drove an electric car powered by a windmill on the top of his garage.

### 1891

A.I. Root became a life long friend of Helen Keller when in 1891, he received a letter of thanks for his kindness and contribution towards the education of blind and deaf children.

### 1904

A.I. witnessed Orville and Wilbur Wright's first flight and wrote about it in his magazine. His article is the first recorded flight of the Wright Brothers and is currently on display in the Smithsonian.

Our all natural beeswax blend produces a more superior, cleaner burning candle than any other on the market.

### 1970

Each Root Candle continues to be handcrafted to ensure the highest quality finish.

Root started adding color and fragrance to their candles in response to the Woodstock Generation.

Root Candles introduced the method of rolling the wax to prevent the candle from bending during the warmer summer months.

Root began manufacturing its own custom cotton wicks to ensure each candle burns flawlessly.

### 1928

Under the guidance of Huber Root, the Root Company turned to candle making at the request of a local priest looking for higher quality candles for his church. Today, Root is the largest supplier of liturgical candles to the Catholic Church in the U.S.

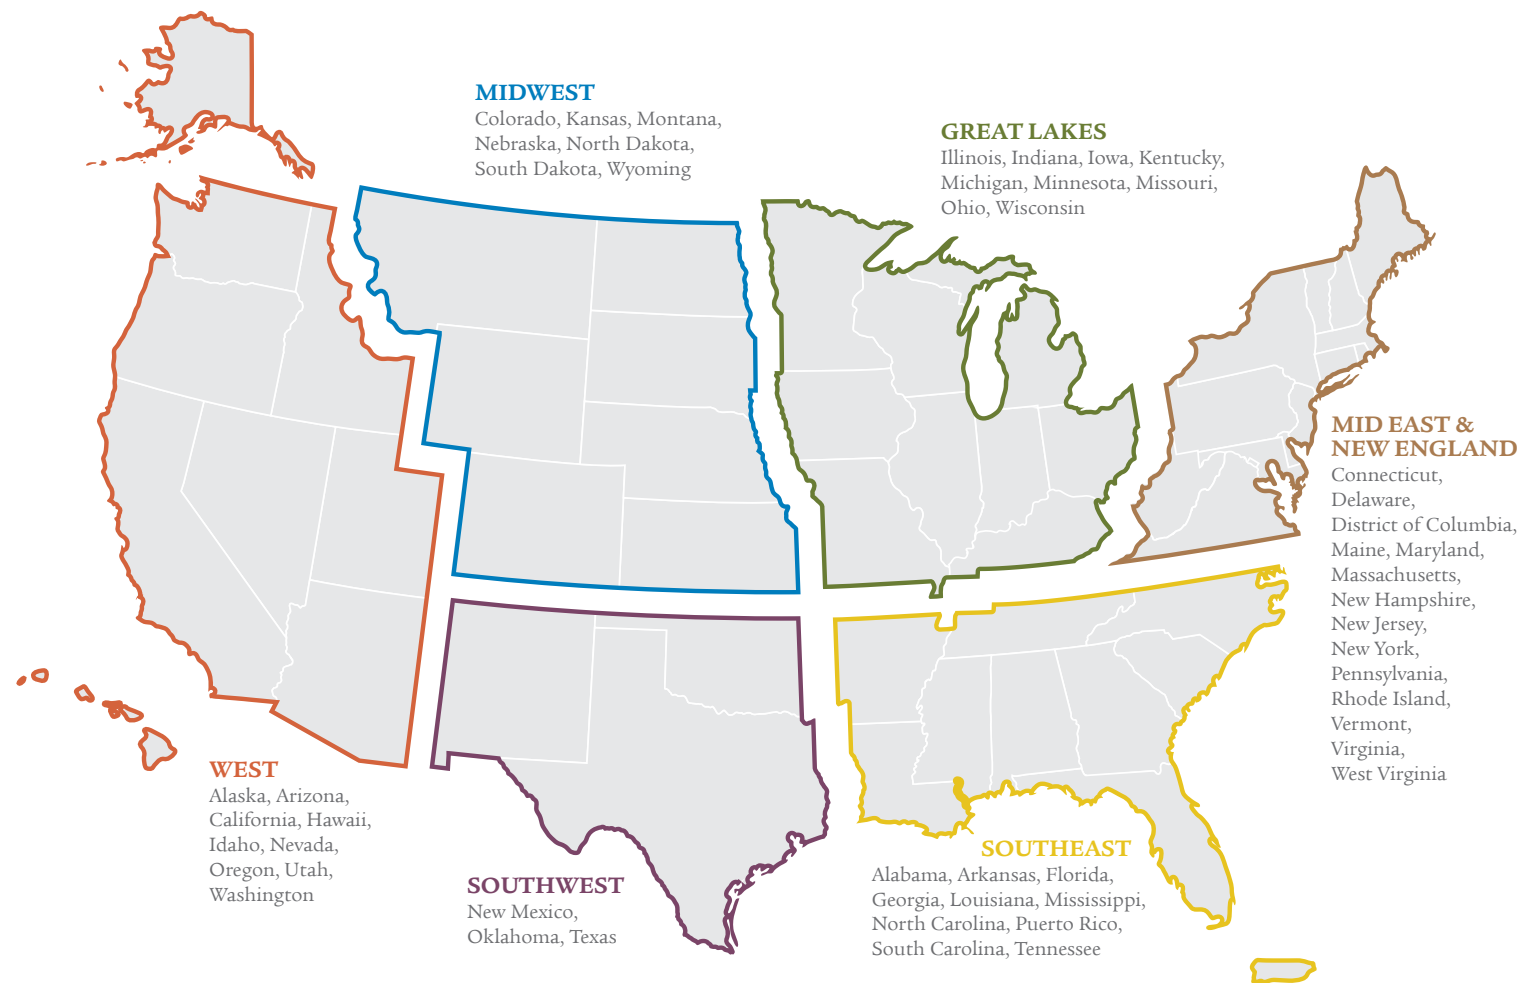

### 1920

Root Honey became known as the finest table grade honey on the market.

## TODAY

Now led by the family's fifth generation, the Root family continues to extol the virtues of honesty, integrity, and diligent craftsmanship, all qualities exemplified by founding father and American original, Amos Ives Root.

# ALTAR CANDLES

Root Altar Candles are our pride, our flagship product, the first product for church use that was produced by our founder, Amos Ives Root. Using beeswax from his own hives, he rolled sheets of pure beeswax around wicks. While the process has changed, the standards of quality set by our founder, A.I. Root, is still the cornerstone of our business. Our beeswax is domestically harvested and is filtered for purity, avoiding harsh chemicals or bleach. This pure, natural refining process gives our candles their authentic color and natural aroma of sweet, pure honey.

Root's pure, natural beeswax altar candles have been a part of sacred traditions in thousands of churches since the early 1900's.

*"The bee is more honored than other animals, not because it labors, but because it labors for others."*

- text of St. John Chrysostom

### The Bee, A Symbol of the Church

The bee is a symbol of wisdom, for it collects nectar from many flowers and turns it into nourishing and pleasing honey. We should do the same, take whatever we can and transform it through our labor into a superior element useful for us and our neighbor.

LITURGY BRAND ALTAR CANDLES

When a non-beeswax altar candle is desired, Root's Liturgy Brand candles are the suggested alternative to stearic candles. These candles have many of the properties of beeswax candles, burn longer than comparable stearic candles and are less expensive than stearic candles per burning inch. Nearly non-breakable Liturgy Brand candles are far less brittle and are white in color, as opposed to the natural hue of Root's beeswax candles.

# SANCTUARY LIGHTS

The use of Sanctuary Lights can be traced to the Book of Exodus in the Old Testament, when a light was always burning within the Temple to honor God. The use of Sanctuary Lights in Roman Catholic churches dates to the 12th Century – and shines permanently to indicate to all who visit, that Jesus is present in the Blessed Sacrament in the Tabernacle. Orthodox, Episcopalian and Lutheran Churches also honor the Real Presence of the Lord with a burning Sanctuary Light.

2CP	7-8 Day Perpetualite (plastic)	9.3”(h) x 2.9” (d)	24

Rubrical Lights contain Beeswax and other natural waxes conforming to Canon Law.

## Glass Globes

Sanctuary lights perform best when encased in a glass globe. This offers protection from drafts, fans and air-conditioning and also insulates the light in winter. Sanctuary Globes are traditionally red or clear, but we offer other colors as well.

## BOTTLE LIGHT PATENT

Pronounced Renew-A-Light, this system consists of glass globes that remain in your candle stand and renewable plastic inserts. Safe, clean burning and economical!

This innovative Devotional Light design, provides the security of a glass globe with the convenience, economy and lighter weight of a plastic light. When the light has finished burning, simply remove the plastic insert and replace it with a new one.

Colored glass globes are used with clear plastic inserts, or you can choose clear globes with colored plastic inserts. It is easy to coordinate the lights with the liturgical calendar, colors associated with a saint or a nationality, or just to match the church's décor. Designed for maximum performance when burned in Renuelite Globes.

- Fewer natural resources and energy are used when plastic is manufactured, compared to glass.
- Light-weight plastic reduces freight costs.
- Buy Renuelite™ plastic inserts - Root's most economical devotional light.

# RENUELITE™ SYSTEM

*“To this day, whenever I walk into a church aglow with candlelight and smell candles burning, I’m transported back to my childhood, standing next to my Mother or Dad, watching them light candles and whispering prayers for those we loved.”*

– Mary from Washington, DC

# DEVOTIONAL LIGHTS

The Budded Cross is a centuries-old symbol rich in meaning. It symbolizes both the Trinity and New Life in Christ bursting forth from the wood of the cross

# DEVOTIONAL LIGHTS

Candles or oil lamps were burned from the earliest days of Christianity, in the catacombs before the tombs of martyrs and before sacred images as well. “The light signifies our prayers offered in faith, coming into the light of God. . . The light also shows a special reverence and our desire to remain present to the Lord in prayer even though we may depart and go about our daily business.” (Father William Saunders, “The Arlington Herald”, July 14, 1994; courtesy, EWTN) Root has a rich tradition of providing the finest Devotional Candles in a wide variety of glass and plastic lights.

## Meditation Lights™

Root’s finest devotional light—steeped in tradition and nearly identical to the original patented bottle light. These lights feature a restricted mouth top with an embossed cross design.

## "Share Your Prayer"™

A beautiful way to build community and lift each other up in prayer, is to offer the opportunity to parishioners to write their prayers directly on a devotional candle. Our "Share Your Prayer" candles and stands will fit perfectly in the narthex or rear of the nave.

Please ask about our very popular "Share Your Prayer" candles, as well as our Candle Stand Program. Our Candle Stands are available in a variety of finishes, nine total to choose from.

## ALTAR CANDLE OIL

Beeswax, considered one of the purest waxes, suggests the purity of Christ. The candle, giving its life as it burns, suggests the sacrifice of the sinless Christ for sinful humanity. Root Candles has many candle offerings, but when candle oil is preferred, we do offer a highly pure liquid paraffin as an alternative.

Root Altar Candle Oil can be used with most oil burning products that utilize liquid paraffin as a fuel source. Root uses only 99.43% pure liquid paraffin with virtually no odor or smoke.

## PASCHAL CANDLES

The Paschal Candle is one of the most sacred and enduring symbols of the Light of Christ, dating to the earliest days of Christianity. Made of beeswax to represent the purity of Christ, the candle's wick signifies Christ's humanity, and the flame His Divine Nature.

With this sacred tradition, Root Candles takes great care in hand-crafting our made-to-order Paschal Candles right here in the USA.

With nearly 150 years of experience in the beeswax industry, our candle artisans are experts in individually hand-tooling and embellishing each unique design on a 51% pure beeswax candle.

Root Candles adorn churches and cathedrals across the country, providing superior burning candles and clean burning wax.

*One of Root's Artisans crafting the Christus Vincit Paschal Candle. See page 23.*

Under the guidance of Huber Root, the Root Company turned to candle making at the request of a local priest looking for higher quality candles for his church. Today, 90 years later, Root continues to craft high quality candles.

## LAMB OF GOD

1 Peter 1:18-19

### SERIES #68

As we celebrate Easter, we look to the Lamb who suffered, died, and rose again for our eternal salvation. Christ's perfect sacrifice delivers believers from the slavery of sin, shows us a clear path to salvation, and gives us the promise of everlasting life.

## WONDER COUNSELOR

Isaiah 9:5

### SERIES #37

We will be filled with wonder and awe at His miraculous power; He is the Source of Truth and Wisdom, guiding us all our days. Just as God is a mystery with no beginning and no end, so too are the Celtic knot bands which wrap around this Paschal candle.

## THE RESURRECTION AND THE LIFE

John 11:25-26

### SERIES #34

The cross features a fleur-de-lis, or lily flower, a symbol of the Trinity. Metallic gold represents majesty, joy and celebration, white signifies Christ's purity and red for the enormous suffering and death Jesus endured for us.

## Christ Candle

The Christ Candle is the centerpiece of the Advent wreath, lit on Christmas Eve to celebrate the arrival of the Christ Child, the Light of our lives. Often decorated with a Chi Rho, an early symbol for Christ, comprised of the first two letters of the Greek word for Christ. The pure white pillars are decorated with smooth gold foil Chi Rho decal.

## FOLLOWERS | BURNERS

Root's Compact Burners are solid brass and designed for use on larger diameter candles because they conduct heat to help with even burning, an excellent choice for Paschal candles. Root's Lined Draft Proof Burners, an original design, are the ultimate in combating severe draft problems. They are made with a special insulating lining to help candles burn properly and are designed to perform with Root 51%, 100% and Liturgy brand altar candles. Root's Lined Full Diameter Draft Proof Burners are designed to perform with Root's line of full diameter candles. Glass Followers/Burners are an aesthetic alternative to brass. Glass followers are heat resistant, attractive, easy to clean and allow the natural beauty of the candle to shine through.

## The Rich Heritage of Mont La Salle Altar Wines

In 1930, The Christian Brothers were looking for a site to relocate their winery that had been in operation since the early 1880's. They constructed a mission style complex on the site and in 1932, christened it Mont La Salle after St. John Baptist de la Salle, the French priest who founded their religious order. The Brothers successfully marketed commercial wines for the next 49 years, under The Christian Brothers' label with profits supporting their many schools, the formation program for new Brothers, and the care of aging Brothers. During this time, Brother Timothy Diener gained a name as one of the great winemakers of California and was cellar master for more than 45 years.

Mont La Salle, the oldest continuing producer of altar wines in the U.S., the most widely recognized and most preferred altar wine, a name you can trust.

## THEOLOGY OF A CANDLE

Beeswax candles are used for mass for a very important reason—they symbolize Christ.

**THE FLAME**  
represents Christ as the Light of the World.

**THE WICK**  
symbolizes Christ's divinity which is hidden by His humanity (symbolized by the wax).

**THE WAX**  
of the candle symbolizes Christ's humanity which hides His divinity (symbolized by the wick).

As the candle burns, it gets smaller and smaller, in a sense, it sacrifices itself, symbolizing how Christ sacrificed Himself on the cross of our salvation.

The wax itself is made by female worker bees who never mate (virgins) and further symbolizes Christ's perfect purity.

## CANDLE CARE

*Suggestions for burning Root's hand-crafted beeswax candles.*

Following these suggestions will ensure best burning performance on beeswax candles and will eliminate many of the common problems associated with burning candles under church conditions.

Root burners (Followers) save wax and extend burning time on Root Candles.

Air currents in average church conditions make Candle Burners necessary for all beeswax candles to prevent candles from overflowing. Root Beeswax Candles properly fitted with Root Burners will save wax and ensure maximum burning time.

In placing the burner on the candle, press tightly against the tip and then twist around so it will seal snugly against the candle. Remove burners while still warm or reheat in hot water.

### SEVERE DRAFT CONDITIONS

A badly flickering flame indicates a severe draft condition. Forced draft heaters, ventilators and air conditioners all tend to increase air movement. If the source of the draft cannot be reduced or eliminated use Root #13B DRAFT PROOF Burners (see page 39). These burners are especially designed for heavy draft conditions and will reduce dripping.

When extinguishing candles in drafty conditions allow more time (approximately 10 seconds) for the extinguishing bell to remain over the candle. This will help prevent after-glow and make relighting easier.

### PROPER BURNERS

Make sure to select a follower/burner size that correctly fits the candle diameter. Root Burners give maximum satisfaction on Root Candles. Some imitation burners will not function properly. High pressure extrusion makes Root candles the toughest on the market. This process, together with properly fitted Root Burners gives a truly superior candle burning experience. We recommend Root Compact Burner #9B for short 1-1/2", 1-3/4", 2", 2-1/2" diameters to expose the maximum candle length. These burners sometimes require slight straightening at the time candles are extinguished for best appearance.

### SHORT BURNING PERIOD (45 minutes)

Any of the Root Burners including 1-1/2" diameter will function well for short burning periods. The exception is the 1-1/2" burner in a heavy draft condition. In general the smaller sizes need little time to heat up. The larger sizes require a longer burning period.

For over 1-1/2" diameter candles burned for short periods, use Root Compact Burner #9B. Allow an hour or more burning time to permit the burner to settle properly.

### CARE OF BURNERS

Before placing burners on the candles all wax must be removed from the burner, preferably by dipping in hot water and wiping clean.

### CARE IN RE-LIGHTING CANDLES

When relighting a candle, the wick should not be disturbed and particular care used not to break the charred wick. The broken piece, if allowed to fall into the cup, may become attached to the candle wick by capillary attraction. This will then make a very large flame and cause the candle to run over. This extra debris in the candle cup may create a secondary ignition source.

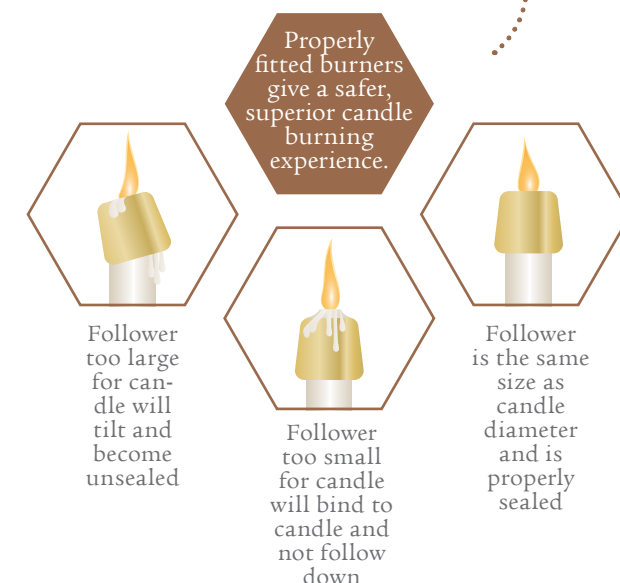

Also make sure the wax taper used in lighting the candle is not dragged across the tip of the candle so that it will break the wick or allow some of the taper to fall in the cup of the candle. This extra debris in the candle cup may create a secondary ignition source.

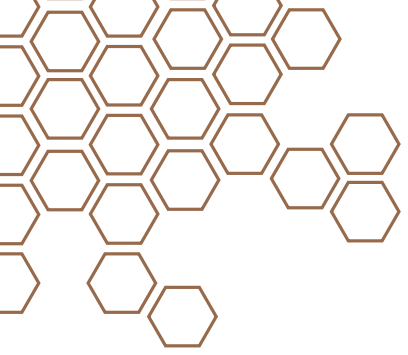

### CARE IN EXTINGUISHING A FLAME

Never blow a candle out. This can cause the wick to after-glow, leaving a short wick stub which is very difficult to relight. A bell type snuffer held over the flame for 10 seconds is best. Do not disturb the wick, or relighting may be difficult. Keep the snuffer bell clear of wax.

### TILTING OF COMPACT BURNER

We recommend using the #9B Compact Burners (see page 39) on the 1-1/2" and larger candles, to expose the most candle, and to settle properly in short burning periods. If tilting occurs this can be corrected at the time the candle is extinguished while the wax is soft.

## TERMS OF SALE AND RETURN POLICY

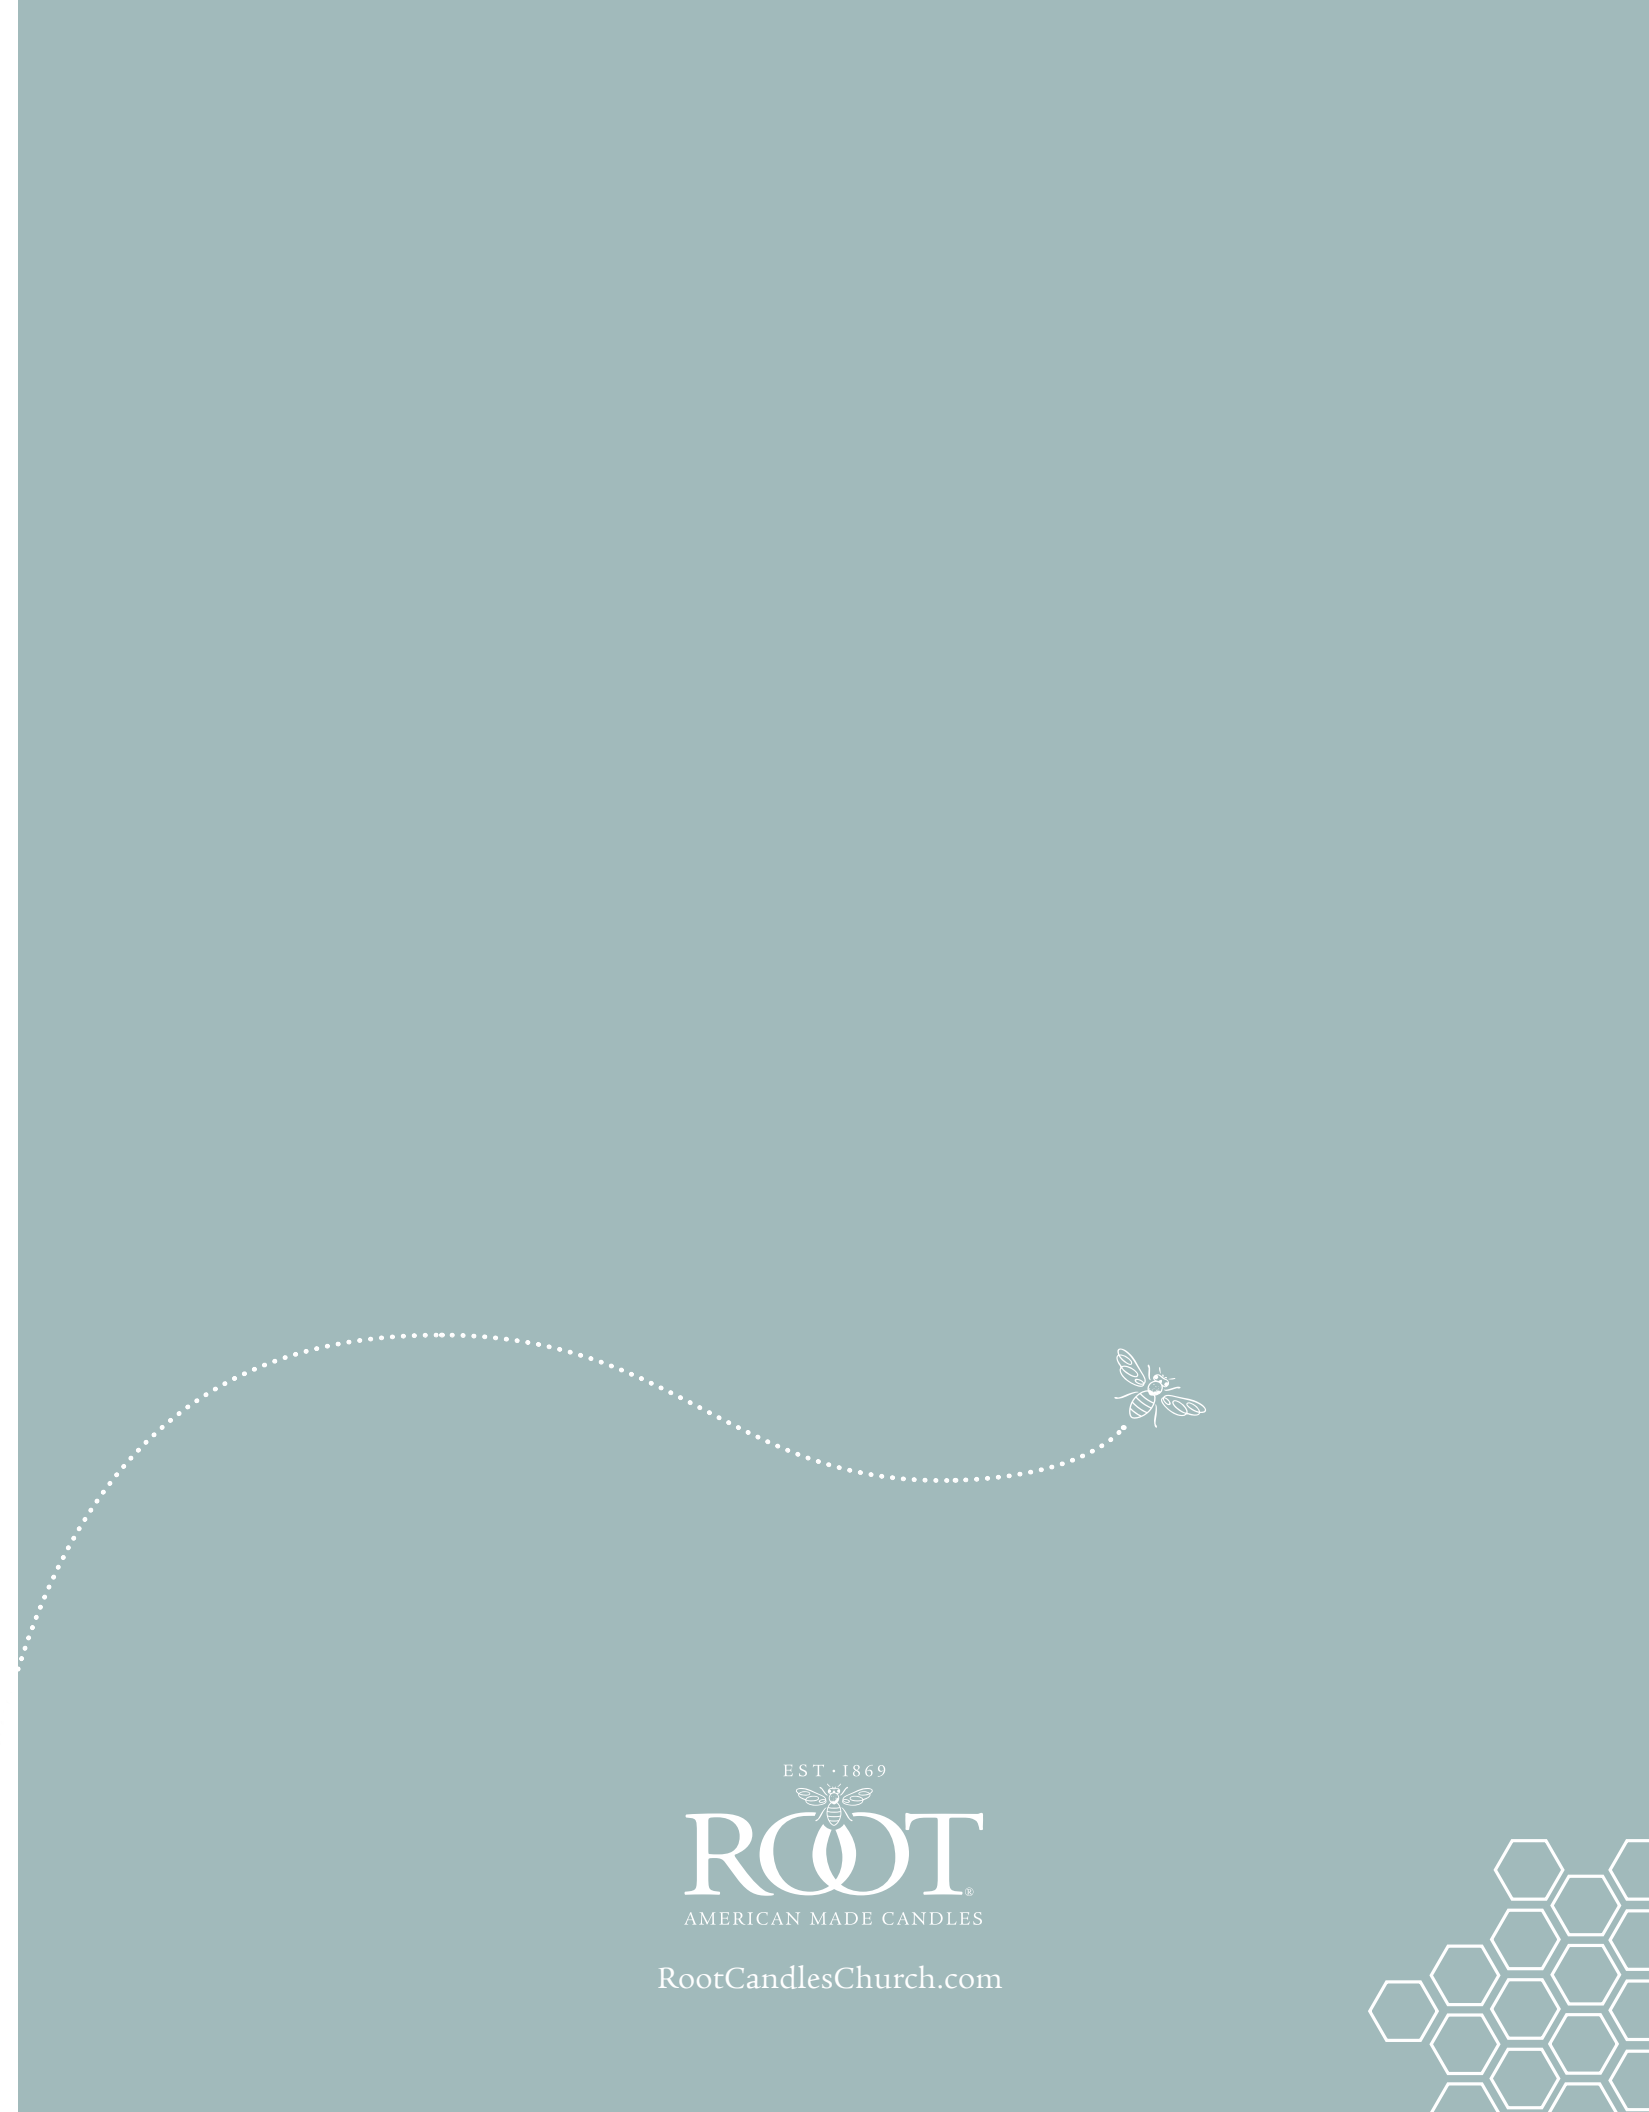

Root Candles strives to supply a premium quality product to our Church customers. We ask that all deliveries are checked on receipt for accuracy and that no damages have occurred in the shipping process. Any shortages, overages or damages should be noted at the time of the receipt with the carrier and notification sent to Root Candles Customer Service or your Church Sales Representative by phone or e-mail immediately. We will work promptly to correct any shipping errors or difficulties.

We recognize that not all problems or concerns with a delivery are evident upon receipt. We ask that you notify Root Candles or your Church Sales Representative immediately upon encountering a potential problem.

### RETURN POLICY FOR CHURCH GOODS

Root Candles provides a variety of products through our many Church Goods vendors. All shipping charges for these orders are the responsibility of the customer and do not qualify for any freight allowances. Once placed with Root Candles these orders cannot be cancelled without prior authorization by Root Candles and may be subject to a cancellation fee.

All Church Goods orders are subject to the policies and procedures of the specific vendor and supersede Root Candles' return policy. Returns will only be accepted in instances of damaged goods, order errors or defective product. The Root Candles' Customer Service Department will evaluate the situation and handle all correspondence and paperwork, making the final determination as to the disposition of the product. In instances where product is to be returned, credit will not be issued until the product is received by the vendor and inspected. Product must be received in saleable condition to receive credit. Replacement product will be invoiced at full price and a credit memo issued separately. The return of any product without prior knowledge or approval is subject to a delay or lack of credit.
