

SuperStrip[®] DCM Free Paint/Varnish Remover

Reformulated
for the Future

- Formulated without Methylene Chloride, NMP and Toluene
- VOC compliant
- Heavy-bodied formula clings to vertical, curved and rounded surfaces
- Cuts faster through tough finishes
- Will not harm woodwork, metal and masonry
- Water-rinsable for easy sludge removal and cleanup

SAVOGRAN

SuperStrip® DCM Free Paint/Varnish Remover

Description

A deeper cutting methylene chloride free stripper recommended for softening tough finishes: most enamels, epoxy and urethane coatings, paint, varnish, lacquers and marine finishes that removes paint, varnish and most finishes without harming wood, metal or masonry. Heavy-bodied for brush application. Made especially for tough jobs.

Application

Remove multiple layers of paint and varnish without damaging wood, metal and masonry. One gallon of remover covers approximately 100 square feet of surface area. SuperStrip® is easily removed with mineral spirits or a heavy-duty cleaner such as TSP and water.

Directions

Brush on a thick coat of remover. Allow remover to work for 15 minutes or more. Scrap test to see if finish is softened to base. If not, wait 15 minutes longer and re-test. Be patient and let the remover do the work. Remove sludge with scraper. Use nylon stripping pad and coarse rags to thoroughly wash off residue from stripped surface with mineral spirits or a water solution of heavy duty TSP cleaner.

Important label information

DANGER: POISON! FLAMMABLE – MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED. VAPOR HARMFUL. SKIN AND EYE IRRITANT. Before use, always read all information and warnings on container. Safety data sheet available upon request.
