Scorpion Color Guide Drywall

Bugle Head Drywall Laminator Screw	5
Type HT Bugle Head Drywall Screw	5
Bugle Head Construction Screw	5
Bugle Head Construction Screw	5
Flat Head Interior Grade Construction Screw	6

Light Gauge Metal Framing (25-20 ga.)

Type S/P Pan Head Framing Screw	6
Type S/P Low Profile Pan Head Framing Screw	6
Type S/P Bugle Head Drywall Screw, Gray Phosphate	6
Type S/P Bugle Head Drywall Screw, Zinc	7
Type SST Bugle Head Drywall Screw	7
Type SSTZ Bugle Head Drywall Screw	7
Type S/P Lath Head Screw	7
Type SPTR Trim Head Screw	8

Heavy Gauge Metal (20-12 ga.)

Type D/P Framing Screw, Clear Zinc	8
Type D/P Framing Screw, Gray Phosphate	8
Type D/P Low Profile Pan Head Framing Screw	8
Type D/P Super-Tek Framing Screw	8
Type D/P Low Profile Super-Tek Framing Screw	9
Type D/P Drywall Screw	9
Type DPXT Sheathing Exterior Screw	9
Type D/P Drywall Screw	10
Type D/P Lath Head Drywall Screw	10
Type DPTR Drywall Trim Head Screw	10

Cement Board to Wood & Metal

Type INSP Indenter High-Low Cement Board Screw	11
Type BBSP Wafer Head Backer Board Screw	11
Type INDP Indenter Cement Board Screw	11

Heavy Gauge Metal Framing

Type T2H Hex Washer Head Framing Screw	12
Type T2P Pan Head Framing Screw	12
Type T3P Pan Head Framing Screw	12
Type T3HH High Hex Head Framing Screw	12
Type T3H Hex Washer Head Framing Screw	13
Type T4H Hex Head Framing Screw	13
Type T5H Hex Head Framing Screw	14

Wood to Metal

PlyLite® Screw	14
Type T3PB Bugle Head PHB Sheathing Screw	15
Type T3PF Flat Head Winged Sheathing Screw	15
Type T3PW Flat Head Winged Sheathing Screw	15
Hex Head Neoprene Washer Metal Siding Screw	15
T3H Hex Neoprene Washer Head Metal Sheathing Screw	16
Type T4PF Flat Head Winged Sheathing Screw	16
Type T5PF Flat Head Sheathing Screw	16

Wood to Wood

Type XT Flat Head Exterior Deck and Fence Screw	17
Type XT Trim Head Exterior Deck and Fence Screw	17

**SCORPION COLOR GUIDE**

★ One (1) and Five (5) pound packs are estimated quantity piece counts.

Coarse Thread

Type HT (Coarse thread) drywall fasteners for wood studs and wood to wood applications.

**Type S/P — Fine Thread**

Type S/P (Fine Thread) drywall fasteners for light gauge metal studs and general purpose fastening up to 20 gauge.

**Type SST™ — SuperThread**

Type SST (SuperThread) drywall fasteners system for wood and metal studs up to 20 gauge.

**Type D/P — Drill Point Drywall**

Type D/P (Drill Point) drywall fasteners for metal studs up to 12 gauge.

**Self Drilling Construction**

General construction fasteners for steel up to 1/2-in thick.

**Ceramic Coated**

Type XT (Ceramic Coated) fasteners for outdoor use in fence and decking.

**Stainless Steel**

Type ST (Stainless Steel) fasteners for outdoor use in fence and decking.

**Acoustical**

Acoustical fasteners for attaching ceilings.

COARSE THREAD

Bugle Head Drywall Laminator Screw

For temporary fastening of gypsum to gypsum.

- No. 2 Phillips recess
- Bugle head
- Coarse thread

Coating: Gray phosphate

Bit: ZP2 (No. 2 Phillips)

CEMENT BOARD

Type INSP Indenter High-Low Cement Board Screw ◆ HIGH-LOW THREAD Cement Board to Wood or Light Gauge Metal

Type INSP Indenter High-Low cement board fasteners are designed for attaching cement type boards to wood or (up to 20 gauge) metal stud. Indenter screws have a large wafer head with countersinking nibs that allows flush seating.

The screws offer an increased bearing surface that provides greater pull-through resistance. It is the ideal attachment of cement board in interior high moisture areas.

- No. 2 Phillips recess
- Special wafer head
- High-Low thread
- Spoon point

Coating: NanoGard™

Bit: ZP2 (No. 2 Phillips)

**WOOD TO METAL****PlyLite® Screw** ◆

Fastening plywood to light gauge steel is difficult, if not impossible. Plylite fastens plywood to (up to 20 gauge) steel studs quickly, easily and securely.

With Plylite fasteners threaded points, smooth shanks and countersinking nibs, the interior contractor will find fastening plywood to light gauge studs as easy as applying gypsum wallboard. Plylite innovative design reduces ride-up.

SpringShot ♦

The patented SpringShot Acoustical Toggle is widely popular with the trades because of its ease of installation. Designers have recognized the SpringShot Acoustical toggle's features as a significant advancement to traditional overhead fastening toggle bolts rendering the old fashion toggles obsolete. The SpringShot's self-centering washer is a vast improvement over old style acoustical toggles, making correct installation effortless.

Self tightening & self-seating
One size fits all applications
Helps eliminate migrating sounds
Will not loosen under vibration
Project designer preferred

Clear Zinc

Salt spray results ASTM B117 24 hours, no red rust
Recommended for interior applications and exterior applications where the fastener will be encapsulated, i.e. the attachment of lathing prior to the application of stucco.

Yellow Zinc

Salt spray results ASTM B117 48 hours, no red rust
Recommended for interior applications and exterior applications where the fastener will be encapsulated, i.e. the attachment of lathing prior to the application of stucco.

Salt spray results ASTM B117 1000 hours, 15 cycles Kesternich per DIN 50018, no red rust

GrabberGard® metal finish is a high-grade proprietary metal surface processing technology that prevents corrosion. It is a duplex coating constituting a zinc substrate and organic polymer topcoat. The distinguishing feature of GrabberGard® is the joining and encapsulation the substrate with the fused organic surface coating. These layers are bonded together through thermal fusion, and this unique method of combining layers results in a combination of the coating films. GrabberGard® treatment does not attribute its anti-corrosion properties to any single material, but the synergy of these two layers, which when combined has superb corrosion resistant qualities. Suitable for use in non coastal areas with all pressure treated lumbars including ACQ.

305 Stainless Steel Non-Coastal Grade

305 stainless steel is a nickel chromium austenitic grade of stainless steel and is inherently non-magnetic. This material is not hardened by heat treatment and provides very good corrosion protection. Higher carbon content than the 304 series increases strength. Suitable for exterior grade that is not in coastal areas when used in conjunction with treated or untreated wood, including ACQ.

Mechanical Galvanized

Scorpion's Mechanical Galvanized screws are treated to meet or exceed the criterion outlined in ASTM B695 - 04(2009) standard specification coatings of zinc mechanically deposited on steel are Class 55, with a minimum thickness of 53 um, and are considered equivalent to ASTM A153 / A153M - 09 Hot Dipped Galvanized products. This cold-weld process is used to apply zinc coating without the introduction of hydrogen to the steel hardware for advanced corrosion protection, ductility and SST performance.

Salt spray results ASTM B117 1000 hours, 15 cycles Kesternich per DIN 50018, no red rust

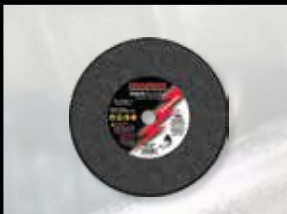

Grabber's NanoGard™ product is an innovative nano scale surface treatment technology providing, high quality and extreme corrosion resistance properties. Suitable for use in non coastal areas with all pressure treated lumbars including ACQ.

Chop Saw Blade

Particulate Masks

Sanding Sponges

Dump Bins

Fire Caulk

SuperDrive

Adhesives

SCORPION BRAND

INNOVATION SINCE 1975

Scorpion offers fasteners specifically designed for your applications:

**Drywall
Fasteners**

**Fine Thread
Fasteners**

**Drywall to Wood or
Light Gauge
Metal Fasteners**

**Drill Point
Drywall Fasteners**

**Self Drilling
Construction Fasteners**

**Landscaping
and Timber Fasteners**

**Ceramic Coated
Fasteners**

**Hex Head
Framing Screws**

**Stainless Steel Deck
Fasteners**

**Acoustical
Fasteners**

**Cement Board
Fasteners**

**Coarse Thread
Fasteners**
