**LESS • LIGHTWEIGHT**

# WHY STILETTO TITANIUM HAMMERS?

## POWERFUL

Titanium has a more efficient transfer of energy in comparison to the high carbon Steel hammers. Get more done with less effort!

## PAINLESS

Titanium provides 10 times greater damping of damaging recoil shock vibration than Steel. Less recoil means less pain.

## LIGHTWEIGHT

Titanium weighs 45% less than a Steel hammer of similar size. Less weight means less fatigue at the end of a long workday.

## PATENTED STILETTO TECHNOLOGY

Stiletto Titanium Tools are designed to reduce the harmful effects that nailing and prying can have on your body. Stiletto has combined the latest materials, patented technology & design innovations to create new tools that enable you to work *safer, faster and easier*.

*Patented Repl. Steel Face  
& 180° Nail Puller on  
TiBone™ models only*

*Patented Staple Puller  
on TI and Stainless  
15" & 11" Flatbars*

*Patented Dimpler™  
feature on ClawBar™  
model only*

## AIRGRIP WRAPS - FOR HICKORY HANDLES

### 8" AirGrip Cold-Shrink Grip

AG-102

Non-slip grip wrap increases your hand grip in wet or humid conditions. Decreases forearm strain & fatigue!

Since 1849, Stiletto has been the “Standard of the West”, and today we strive to preserve our tradition of providing the trades with the highest degree of quality in our products and our customer service.

Stiletto Titanium hammers give you the ability to work hard without risking potentially game-ending injury to your hand, wrist & elbow, & without the same old arm fatigue and the end of every day. You’ll have to feel the difference for yourself. Ask a Stiletto user about it, or read our user testimonials online. What’s *your arm* worth to you?
