

SAFETY DATA SHEET (SDS)

	Section 1. Iden	tification			
Product identifie	r THE TSPE READY TO USE				
Other means of identification BO-1985-2					
Recommended use and restrictions on use DEGREASER ECO READY TO USE					
Initial supplier identifier Kosmic Surf-Pro Inc. 530, rue Charbonneau RR 102, Saint-Amable, QC J0L 1N0					
450-649-3901 & 1-877-711-0711					
Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666					
	Section 2. Hazard	identification			
Classification of hazardous product (name of the category or subcategory of the hazard class)					
NOT REGULATED					
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)					
NONE					
Other hazards ki	nown None				
	Section 3. Composition/info	rmation on ingredients			
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)		
None					
	Section 4. First-a	id measures			
Inhalation	IF INHALED: Remove person to fresh air and keep comf		you feel unwell.		
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is				
ingestion	rapidly losing consciousness, or is unconscious or convuls				
	of water. If vomiting occurs naturally, have victim lean for		5		
Skin contact	IF ON SKIN: Wash with plenty of water (5-10 minutes).	I			
Eye contact IF IN EYES, Rinse cautiously with water for several minutes (5-10 minutes). Remove contact lenses, if present and easy to do.					
		ansient slight eye irritation.	· · · · ·		
		es, call a doctor. Do not forget this doct	iment.		
	Section 5. Fire-figh				
Specific hazards	of the hazardous product (hazardous combustion product				
	d other irritant/toxic gases and fumes.				
Suitable and unsuitable extinguishing media					
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.					
Special protective equipment and precautions for fire-fighters					
	ating/toxic smoke and fumes may be generated. Do not ent	er fire area without proper protection.	Firefighters should wear proper		
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.					
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.					
Section 6. Accidental release measures					
Personal precautions, protective equipment and emergency procedures					
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should					
wear the appropriate protective equipment (See Section 8).					
Methods and materials for containment and cleaning up					
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then					
place material into	a container for later disposal (see Section 13). Contaminate	ed absorbent material may pose the sam	e hazards as the spilled product.		
Notify the appropr	iate authorities as required.				
	Section 7. Handling	g and storage			
Precautions for s	afe handling				
Wear gloves/protective clothing/eye protection/face protection.					
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene					
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers					
for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid					
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep					
away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to					
Section 8.					
	fe storage, including any incompatibilities				
Store in a well-ve	ntilated place. Keep container tightly closed. Keep cool. S	tore locked up. Store away from incor	npatible materials (Section 10).		

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: ACGIH - TLV-TWA & PEL-TWA none.

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and c	hamiaal proportion				
	Vapour pressure	Not available			
Appearance, physical state/colour Yellow liquid Odour Fresh	Vapour pressure Vapour density	Not available			
Odour Fresh Odour threshold Not available	Relative density	Not available ~ 1			
pH Not available	Solubility Solubi				
Melting/freezing point Not available Solubility Solubility Solubility Solubility					
Initial boiling point/range Not available	Auto-ignition temperature Not available				
Flash point Not available	Decomposition temperature Not available				
Evaporation rate Not available	Viscosity Not available				
Flammability (solids and gases) Not available	VOC Not available				
Upper and lower flammability/explosive limits Not available Other None known					
Section 10. Stability and reactivity					
Reactivity	und reactivity				
Does not react under the recommended storage and handling conditions prescribed.					
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None					
Conditions to avoid (static discharge, shock or vibration)					
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					
Section 11. Toxicological information					
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)					
Causes transient slight eye irritation.					
Symptoms related to the physical, chemical and toxicological characteris	stics				
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing.					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity					
- No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available;					
Health Hazards Not Otherwise Classified – No data available.					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
No data available.					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
No data available.					
Persistence and degradability No data available					
Bioaccumulative potential No bioaccumulation is to be expected.					
Mobility in soil No data available					
Other adverse effects No data available					
Section 13. Disposal considerations					
Information on safe handling for disposal/methods of disposal/contaminated packaging					
Dispose of contents/container into safe container in accordance with local, regional or national regulations.					

Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
Not regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
Not regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
Not regulated				
Special precautions (transport/conveyance) None				
Environmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Possible				
Section 15. Regulatory information				
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance				
with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
Safety/health/environmental outside regulations specifics				
None				
Section 16. Other information				
Date of the latest revision of the safety data sheet September 14, 2018 version 1
