

SABRE®

#1 BRAND TRUSTED BY POLICE & CONSUMERS WORLDWIDE

Pepper Spray • Animal Attack Deterrents • Home Alarms • Personal Alarms

THE SABRE DIFFERENCE

Why SABRE?

- #1 Brand Trusted by Police and Consumers Worldwide
 - We believe pepper spray must be backed by HPLC technology because it must work in your time of need
 - We believe in preparing our customers to maximize their safety through product information, safety knowledge, videos & personal safety classes
 - We believe in protecting people in more ways than one by supporting three fantastic charities: *Kuros!*TM, NBCF & RAINN
 - Diverse product line includes...
 - Pepper sprays backed by an in-house lab guaranteeing maximum heat
 - Pepper gel (virtually eliminates wind blow-back) — only brand to offer a key ring (see page 6 for more on gel)
 - Dog sprays with the maximum heat allowed by the EPA
 - Bear sprays boasting the industry maximum 35 foot (10.6M) range
 - Home alarms that are the loudest on the market providing superior value
 - Personal alarms with dual siren that can be heard up to 600 feet (185M) away
 - Stun guns with exceptional stopping power and built-in LED flashlight
 - Personal safety training offering simple, affordable safety skills to help you maximize personal security
- International Certification — ISO 9001:2008
 - Environmentally Conscious — EPA & Health Canada establishment, Pure Power Platinum Leader
 - Enhanced Suspect Identification — UV marking dye included
 - Exceptional Performance — Products tested and checked for leakage
 - Top Selling — “Best Packaging Award” from the Institute of Packaging Professionals
 - Product Support — 2012 Hardline Vendor of the Year from Worldwide Distributors Inc.
 - Platinum Sponsor — National Breast Cancer Foundation
 - “Best Tactical Spray” — AZ Dept. of Public Safety & Phoenix PD OC Staff Study
 - “Safest Major Force Option” — Force Science Research Center (officers & offenders)

Police Worldwide Carry SABRE

SABRE is carried by thousands of police departments, including the New York Police Department, Chicago Police Department, and U.S. Federal Bureau of Prisons.

EXCLUSIVE HPLC GUARANTEE

Maximum Strength. Every Single Time. That's SABRE's Guarantee.

It's ultimately about peace of mind — we eliminate the 30% failures experienced by other brands due to bad batches!

What does HPLC mean? HPLC stands for *high performance liquid chromatography*. This technology is the only way to ensure there are no failures on the basis of heat inconsistency. It guarantees the maximum strength of SABRE products, every single time.

Why is HPLC so important? Our in-house lab eliminates the 30% heat failure rate you experience with other brands. This heat failure was reported by the University of Utah study "Quantitative Analysis of Capsaicinoids in Fresh Peppers, Oleoresin Capsicum and Pepper Spray Products." The study revealed:

- "OC variability could alter potency and ultimately jeopardize the safety and health of users and assailants."
- "Variability explains why pepper sprays have been shown to be only 70% effective in discouraging attacks by aggressive individuals."

Choose SABRE and you'll never have to worry about pepper spray failures due to bad batches.

Maximum Strength. Every Single Time. That's SABRE's Guarantee.

SABRE Red Awarded the Title of "The Best Tactical Spray" After 12-Month OC Staff Study

Several SABRE RED benefits contributed to this recognition from the Arizona Department of Public Safety and the Phoenix Police Department:

- Non-flammable contents
- Product effectiveness
- Non-toxic
- Financial savings
- Level III at 10% OC with 1.33% Major Capsaicinoids

Top 5 Reasons to Carry Pepper Spray

1. Protection at a safe distance — why go hands on?
2. Very practical — protection against multiple threats
3. Legal to carry in all 50 states
4. Doesn't require large physical size or great strength to use
5. Proven effective — police worldwide carry SABRE

SABRE

THE SABRE DIFFERENCE

Pepper Spray 101

Major Capsaicinoids *THE ONLY ACCURATE HEAT INDICATOR*

The pain-producing components that measure the pepper spray formulation's strength. Identify exact heat and are the only accurate measure of pepper spray pungency.

OC Percentages *NOT AN ACCURATE HEAT INDICATOR*

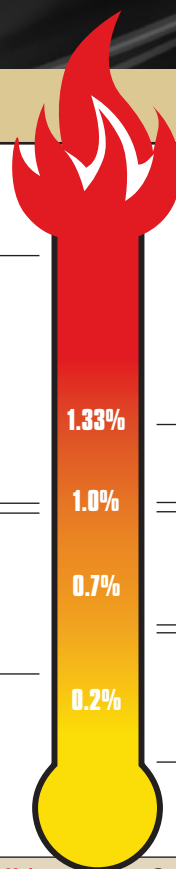

Only measure the amount of pepper within the formulation.

Scoville Heat Units *NOT AN ACCURATE HEAT INDICATOR*

Measure the strength of the raw OC, but do not indicate pepper spray strength — raw OC is diluted based on the other liquid ingredients which make up pepper spray and this makes the true SHU of your spray much less than what is typically advertised!

Bear Pepper Sprays
1.0% – 2.0%
Major Capsaicinoids

Dog Pepper Sprays
0.35% – 1.0%
Major Capsaicinoids

**Forget OC% & SHUs,
Major Capsaicinoids
Are the True
Measure of Heat!**

Level III Sprays
1.0% – 1.33%
Major Capsaicinoids

Level II Sprays
0.5% – 1.0%
Major Capsaicinoids

Level I Sprays
Up to 0.5%
Major Capsaicinoids

	Level	Major Capsaicinoids	Raw Pepper SHUs	OC Percentage	Pepper Spray SHUs
SABRE RED	III	1.33%	2,000,000	10% OC	200,000
Other Sprays	II	1.0%	15,000,000	1% OC	150,000
Other Sprays	II	0.7%	5,300,000	2% OC	106,000
Other Sprays	I	0.2%	300,000	10% OC	30,000

Major Capsaicinoids are the only true indicator of a pepper spray's strength.

National Media Exposure

SABRE is regularly advertised in national magazines and featured on local and national broadcast news and programs. A few of the magazines and networks to feature SABRE include:

SABRE makes extensive use of social media to connect with and educate consumers.

SabreRed1

Heat, Strength & the Law — Choose Your Ideal Formulation

SABRE Advanced 3-IN-1

Pepper spray, CS military tear gas and UV marking dye. Maximum stopping power! Can't be sold in MI, NY or WI.

SABRE RED

1.33% Major Capsaicinoids! Strongest available single ingredient pepper spray. Contains UV marking dye. Can't be sold in NY.

SABRE RED PEPPER GEL

Virtually eliminates wind blow-back with no airborne particles — only affects the target/person it directly contacts! 1.33% major capsaicinoids. Can't be sold in NY.

SABRE RED NEW YORK

0.7% major capsaicinoids, the strongest formulation legal in New York. 3.5x stronger than level 1 police pepper sprays.

Ingredient	Primary Effect
Red Pepper	Inflammation causes the capillaries of the eyes to swell and eyes to slam shut. It can also cause the mucous membranes within the nasal passage way to swell resulting in shortness of breath.
CS Tear Gas	Irritation causes a severe burning sensation to the facial area and tightness of the chest.
Pepper Gel	Virtually eliminates wind blow-back with no airborne particles — only affects the target/person it directly contacts! Also safe to use indoors as it will not contaminate HVAC and is easy to clean up.

Personal Safety Academy

Our expansive network of police officers and personal safety experts offer Personal Safety Academy classes across the nation. Class attendees learn how to...

- Identify and handle distraction techniques
- Discourage dangerous threats to stop attacks before they occur
- Identify and avoid potentially dangerous situations
- Deter dangerous personal threats
- Protect themselves at a safe distance
- Use pepper spray effectively and responsibly
- Escape an attacker

Become an Instructor — Do you want to help others Be Smart, Be Ready, Be Safe? Be a leader in your community by maximizing others' safety. Call (800) 325-9568 or info@sabrered.com

SABRE College Safety Program

Unfortunately, 1 in 5 women will become a victim of sexual assault during her college career. SABRE wants to help fix this. Specifically tailored to address student life on campus, especially for freshman students who are new to the college environment, the SABRE College Safety Program teaches...

- How to be a "hard" target
- Engagement & presence to deter threats
- Identifying and handling distraction techniques
- Verbal commands — why they work
- 10 seconds to safety
- Best practices for staying safe in the dorm and on the go
- How to use SABRE pepper gel and the benefits

Email info@sabrered.com to learn how to schedule a campus safety presentation at your school.

All classes support the charity RAINN, so you can increase your own safety while helping sexual assault survivors.

PEPPER GEL

The Future of Pepper Spray is Here!

Gel virtually eliminates wind blow-back with no airborne particles — only affects the target/person it directly contacts! This makes pepper gel ideal for both indoor and outdoor use, as it helps prevent wind blow-back and makes indoor clean up much easier. Pepper gel also offers a greater range — up to 20% farther than pepper spray.

PEPPER GEL DUATHLETE WITH ADJUSTABLE ARM BAND

The new Pepper Gel Duathlete features all of the benefits of pepper gel and the armband design with reflective bands of the original Duathlete in a smaller, more compact size.

Model Number: D35-PG

Formulation: SABRE RED

Weight: 1.25 oz / 35 gr / 37.5 ml

Contents: Approximately 45 Bursts

Distance: 12 Feet (4M)

Spray Pattern: Powerful Stream of Gel

TACTICAL PEPPER GEL WITH FLIP TOP AND BELT HOLSTER

This is the most popular size pepper spray used by police worldwide, this pepper gel model includes a nylon belt holster.

PEN PEPPER SPRAY

Protect yourself against multiple threats at a safe distance with the pen model, which offers an attractive design and ideal discreet protection.

Model Number: PEN-14-OC

Formulation: SABRE RED

Weight: 0.36 oz / 10.2 gr / 10.6 ml

Contents: Approximately 15 Bursts

Distance: 8 Feet (2M)

Spray Pattern: Cone Delivery

WARNING: Although these test strips are designed to detect the presence of GHB and Ketamine, two of the most common drugs used for drug-facilitated sexual assault (DFSA), more than 20 different drugs have been detected or suspected in cases of DFSA. Some substances found in alcoholic drinks such as tonic water, fruit juices, milk products, oily liqueurs and certain wines can hinder the GHB/Ketamine reaction with the test strips. Perform the test in a well-lit area and make sure both tests are dry prior to testing. Finally, it can take 5 minutes or longer for the detection process to occur for some drinks. Wait until test spots are dry to get a final result. Never leave your drink unattended. When possible drink from a bottle over a glass or cup. If you suspect someone has tampered with your drink or you feel unusually sick, seek help immediately. Remember to always drink responsibly. Watch out for one another. Though these test strips will not detect GHB and Ketamine in the above mentioned drinks, we still believe that this product is beneficial because it will detect these drugs in dozens of additional drinks. By detecting the presence of these drugs, these strips can help prevent sexual assault or even death. Simply carrying the Drink Test Kit with you will help serve as a reminder to be more cautious with your beverages when in public.

Drink Test Kit also available without SABRE RED Pepper Spray, model number DRC-5P.

THE RUNNER DEFENSE SPRAY WITH ADJUSTABLE HAND STRAP

Running early in the morning or evening, often times when it's dark outside, creates the demand for the Runner Pepper Spray. The adjustable hand strap puts police strength protection at your fingertips and is by far the easiest pepper spray to carry and use while running.

Model Number: P-22J

Formulation: SABRE 3-IN-1

Weight: 0.75 oz / 22 gr / 23.7 ml

Contents: 35 Bursts (up to 5x the competition)

Distance: 10 Feet (3M)

Spray Pattern: Powerful Stream

Protector Dog Spray

PROTECTOR DOG SPRAY WITH BELT CLIP

Protector's larger, professional size includes a belt clip for convenient access so you can walk confidently knowing you're carrying an EPA certified product to protect yourself and your pet.

Model Number: SRP-MK3

Formulation: Protector, 1.0% Major Capsaicinoids

Weight: 1.8 oz / 50.4 gr / 54 ml

Contents: Approximately 7 1-Second Bursts

Distance: 15 Feet (4.5M)

Spray Pattern: Powerful Stream

" When I read a story of a dog attack, it's clear that a product like this could have made all the difference. And here's the best part: The spray is all-natural, making it a humane way to deter a dog without causing any long-term pain or injury."

— Run Intended (Amanda Shannon-Verrengia)

PROTECTOR DOG SPRAY WITH KEY RING

Available in black and pink, this compact size includes a key ring attachment for convenient access so you can walk confidently with EPA certified protection.

Model Numbers: SRP-KR-02 • SRP-NBCF-KR-02 (Supports NBCF)

Weight: 0.75 oz / 22 gr / 23.7 ml

Contents: Approximately 14 1-Second Bursts

Distance: 12 Feet (4M)

Spray Pattern: Powerful Stream

Point-of-Purchase displays available.

Keeping You & Your Best Friend Safe

- Safe — humane, effective and all-natural pepper spray for use against attacking dogs
- Reliable — maximum strength heat allowed by the EPA, guaranteed via in-house lab
- Protection at a safe distance — 12 to 15 foot range, includes 14 to 18 one-second bursts

Have You Heard the Stats?

- 4.5 million Americans are bitten by dogs each year
- In 2012, more than 27,000 people needed reconstructive surgery due to dog bites
- 1 in 5 people who are bitten require medical attention for their injuries
- 12 fatalities occur from dog attacks each year in the U.S.

**FRONTIERSMAN
BEAR ATTACK DETERRENT**

EPA Reg. No. 72265-1

WHICH BEAR SPRAY HAS THE GREATEST RANGE?

Certainly you want as much space between yourself and a charging bear as possible. The 9.2 oz Frontiersman canister provides an industry-topping 35 foot range — outperforming the competition by up to 20 feet!

MAXIMUM DELIVERY

When you're faced with an aggressive bear, you don't want your bear spray in the can — you want it putting a large barrier between you and the animal as quickly as possible!

Frontiersman delivers and industry max 52 grams of spray per second — that's up to 40% more than other brands!

Frontiersman allows you to explore confidently knowing you have the best bear spray on the market with you.

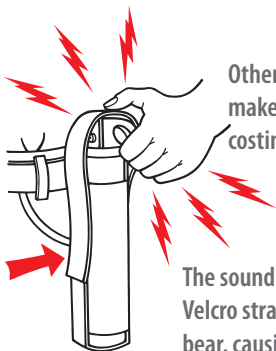

- Maximum Stopping Power — Maximum strength (2.0% major capsaicinoids) allowed by the EPA — Guaranteed via in-house lab
- Greater Protection — Industry maximum 35 foot range allows for greatest distance between you and a bear
- Proven — Field tested and proven effective by the Elmendorf Air Force Base (Elmendorf, AK) and Brown Bear Resources (Missoula, MT)
- Biggest Barrier — High emission system releases the maximum product (up to 52 grams per second) to provide optimal protection
- Immediately Accessible — Hip & chest holster do not have cumbersome straps to restrict immediate access to your canister or scare the bear

Belt Holster

Chest Holster

Other brands' holsters make canister hard to access, costing you precious seconds.

The sound created by removing Velcro straps can aggravate the bear, causing it to charge!

FRONTIERSMAN ACCESSORIES

FRONTIERSMAN PRACTICE SPRAY

This practice canister deploys with the exact same firing mechanism and spray pattern as Frontiersman bear spray and is designed to help users become familiar with the spray, maximizing safety, confidence and peace of mind. DOES NOT CONTAIN PEPPER IRRITANT — FOR PRACTICE ONLY.

Model Number: FBAD-00

Formulation: Inert / Water Filled

Weight: 7.9 oz / 224 gr / 233 ml

Contents: Approximately 8

1-Second Bursts

Distance: 30 Feet (9M)

" Just as advertised. Perfect for home defense."

— PC, a SABRE Home Series customer

HOME ALARM SIREN INDOOR

Add this additional powerful siren to your wireless home alarm system to increase volume when any alarm is triggered. Requires 3 x AAA batteries (not included).

Model Number: WP-IS

Decibel: 100 dB

Range: Can be heard up to 300 Feet (100M)

MOTION SENSOR

Provide additional security within your home or office with the motion sensor. This model has a 120 degree angle detection and will signal your home alarm system of movement to trigger the security alarms. Requires 1 x 9V battery (not included).

Model Number: WP-MS

DOOR AND WINDOW SENSOR

Help secure additional doors and windows around your home or office with this accessory that will alert the home alarm system when a door or window is opened. Requires 2 x AAA Batteries (not included).

Model Number: WP-DWS

The Next Generation in Wireless Home Alarms

Gen 1 wireless alarms — such as the SABRE WP-100 — do not automatically call out to others when an alarm is triggered. Gen 2 wireless alarms require a landline for outbound notifications — this can be an issue as more and more households do away with a traditional land-based phone. Gen 3 wireless alarms — such as the SABRE WP-300 — are Wi-Fi and cloud enabled; they can be controlled via a smartphone app and send push, email and text notifications when the system is triggered.

KEY FOB REMOTE CONTROL

Simple and practical, provide additional control of your wireless home alarm system with this key fob that allows you to arm and disarm your system up to 300 feet (100M) away. Requires 1 x 12V battery (included).

Model Number: WP-KFRC

WIRELESS KEYPAD CONTROL

Add a second keypad to your wireless home alarm system, perfect for your back door, garage, master bedroom etc. that will allow you to manage and test the system as well as utilize a panic feature for emergency situations. Requires 2 x CR2032 batteries (included).

Model Number: WP-WKC

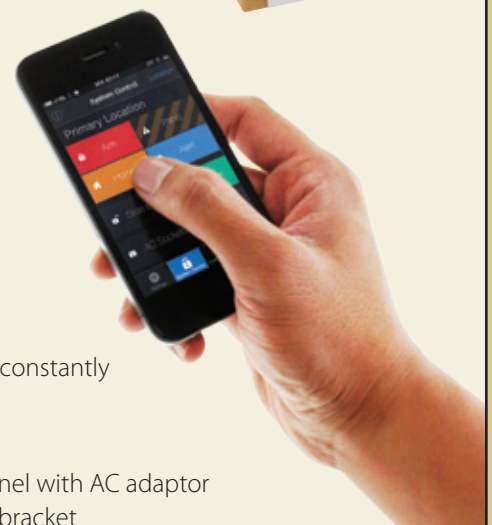

Wi-Fi & Cloud Enabled Wireless Home Security System / WP-300

- Notifications instantly sent to your smartphone
- Control system with smart phone
- Fully expandable system with WP-300 add-ons
- No monthly monitoring fees
- Easy to set up & use
- Totally wire-free
- App controlled
- Cloud enabled
- Smart touch panel
- Push notification, SMS, email
- Two-way sensors
- Professional grade system
- User-friendly, intuitive interface
- Heart-beat enabled sensors keep users constantly updated on the status of their homes

Kit includes:

- 1 LED illuminated LCD display smart panel with AC adaptor
- 1 motion sensor with swivel mounting bracket
- 2 door / window sensors
