

SABRE®

#1 BRAND TRUSTED BY POLICE & CONSUMERS WORLDWIDE

SABRE — Global Leader in Personal & Professional Safety Products

Pepper Spray • Animal Attack Deterrents • Home Alarms • Personal Alarms

THE SABRE DIFFERENCE

1. #1 Brand Trusted by Police and Consumers Worldwide

- International Standards Organization (ISO) certified
- Top selling “Best Packaging Award” from the Institute of Packaging Professionals
- 2012 Hardline Vendor of the Year from Worldwide Distributors, Inc.
- “Best Tactical Spray” from Arizona Department of Public Safety & Phoenix PD OC Staff Study
- “Safest Major Force Option” for officers and offenders from Force Science Research Center
- Exclusive High Performance Liquid Chromatography laboratory (see next page)
- Eye, skin, and inhalation testing

2. Education. Expertise. Product Support.

- Personal Safety Academy with 600+ instructors nationwide
- Free safety tips at sabrered.com/blog

3. Changing the World

- National Breast Cancer Foundation – more than \$1.25 million donated so far (Platinum Sponsor)
- Kuros!™ – providing free pepper spray to women at high risk of sexual assault in developing nations
- Rape, Abuse & Incest National Network – the nation's largest anti-sexual assault organization

Comprehensive Safety For All Walks of Life

PEPPER SPRAY — Backed by in-house lab guaranteeing maximum heat, eliminating the 30% heat failure rate experienced with other brands (University of Utah study)

PEPPER GEL — Virtually eliminates wind blowback with no airborne particles; won't affect others in the immediate area — 20% greater range

DOG SPRAY — Maximum heat allowed by the EPA to provide stopping power without leaving lasting harm — helps protect you from injuries

BEAR SPRAY — Industry maximum 35-foot (10.6 m) range; emits up to 40% more spray/second than other brands to put a greater barrier between you and an attacking bear

HOME SECURITY ALARMS — Loudest & most user-friendly available, audible up to 1,000 feet (300 m) away

PERSONAL ALARMS — Stylish and discreet, yet extremely loud, audible up to 1,000 feet (300 m) away

STUN GUNS — Including the industry's highest pain inducing model, independently tested to verify the true strength, which is quantified with charge and measured in microCoulombs (μC), the correct indicator of strength

PERSONAL SAFETY ACADEMY — Practical & vital safety skills to help you and your family maximize your personal security

EXCLUSIVE HPLC GUARANTEE

Maximum Strength: SABRE's Exclusive Guarantee

It's ultimately about peace of mind — we eliminate the 30% failures experienced by other brands due to bad batches!

What does HPLC mean? HPLC stands for *high performance liquid chromatography*. This technology is the only way to ensure there are no failures on the basis of heat inconsistency. It guarantees the maximum strength of SABRE products.

Why is HPLC so important? Our in-house lab eliminates the 30% heat failure rate experienced with other brands. This heat failure was reported by the University of Utah study "Quantitative Analysis of Capsaicinoids in Fresh Peppers, Oleoresin Capsicum and Pepper Spray Products." The study revealed:

"OC variability could alter potency and ultimately jeopardize the safety and health of users and assailants."

"Variability explains why pepper sprays have been shown to be only 70% effective in discouraging attacks by aggressive individuals."

Choose SABRE and you'll never have to worry about pepper spray failures due to bad batches!

Maximum Strength. That's SABRE's Guarantee.

SABRE Red Awarded the Title of "The Best Tactical Spray" After 12-Month OC Staff Study

Several SABRE Red benefits contributed to this recognition from the Arizona Department of Public Safety and the Phoenix Police Department:

- Non-flammable contents
- Product effectiveness
- Non-toxic
- Financial savings
- Level III at 10% OC with 1.33% major capsaicinoids

Top 5 Reasons to Carry Pepper Spray

1. Protection at a safe distance — why go hands on?
2. Very practical — protection against multiple threats
3. Legal to carry in all 50 states
4. Doesn't require large physical size or great strength to use
5. Proven effective — police worldwide carry SABRE

SABRE

THE SABRE DIFFERENCE

Pepper Spray 101

Major Capsaicinoids THE ONLY ACCURATE HEAT INDICATOR

The pain-producing components that measure the pepper spray formulation's strength. Identify exact heat and are the only accurate measure of pepper spray pungency.

OC Percentages NOT AN ACCURATE HEAT INDICATOR

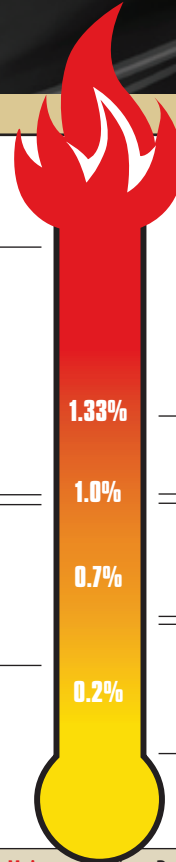

Only measure the amount of pepper within the formulation.

Scoville Heat Units NOT AN ACCURATE HEAT INDICATOR

Measure the strength of the raw OC, but do not indicate pepper spray strength — raw OC is diluted based on the other liquid ingredients which make up pepper spray and this makes the true SHU of your spray much less than what is typically advertised!

Bear Pepper Sprays
1.0% – 2.0%
Major Capsaicinoids

Dog Pepper Sprays
0.35% – 1.0%
Major Capsaicinoids

**Forget OC% & SHUs,
Major Capsaicinoids
Are the True
Measure of Heat!**

Level III Sprays
1.0% – 1.33%
Major Capsaicinoids

Level II Sprays
0.5% – 1.0%
Major Capsaicinoids

Level I Sprays
Up to 0.5%
Major Capsaicinoids

	Level	Major Capsaicinoids	Raw Pepper SHUs	OC Percentage	Pepper Spray SHUs
SABRE RED	III	1.33%	2,000,000	10% OC	200,000
Other Sprays	II	1.0%	15,000,000	1% OC	150,000
Other Sprays	II	0.7%	5,300,000	2% OC	106,000
Other Sprays	I	0.2%	300,000	10% OC	30,000

Major Capsaicinoids are the only true indicator of a pepper spray's strength.

Heat, Strength & the Law — Choose Your Ideal Formulation

SABRE ADVANCED 3-IN-1

Pepper spray, CS military tear gas and UV marking dye. Maximum stopping power! Can't be sold in MI, NY or WI.

SABRE RED

1.33% major capsaicinoids! Strongest available single ingredient pepper spray. Contains UV marking dye. Can't be sold in NY.

SABRE RED PEPPER GEL

Virtually eliminates wind blowback with no airborne particles — only affects the target/person it directly contacts! 1.33% major capsaicinoids. Can't be sold in NY.

SABRE RED NEW YORK

0.7% major capsaicinoids, the strongest formulation legal in New York. 3.5x stronger than level I police pepper sprays.

Ingredient	Primary Effect
Red Pepper	Inflammation causes the capillaries of the eyes to swell and eyes to slam shut. It can also cause the mucous membranes within the nasal passageway to swell resulting in shortness of breath.
CS Tear Gas	Irritation causes a severe burning sensation to the facial area and tightness of the chest.
Pepper Gel	Virtually eliminates wind blowback with no airborne particles — only affects the target/person it directly contacts! Also safe to use indoors as it will not contaminate HVAC and is easy to clean up. Pepper gel's primary effects are the same as red pepper.

Education Is Empowerment

SABRE's Personal Safety Academy and College Safety Program classes are available nationwide and teach attendees how to...

- Identify, discourage, deter and escape threats
- Handle distraction techniques
- Avoid dangerous situations
- Correctly use pepper spray

Learn more. Email info@sabrered.com to...

- Become an instructor: Do you want to help others Be Smart, Be Ready, Be Safe? Be a leader in your community by maximizing others' safety.
- Schedule a safety presentation at your school or workplace.

All classes support the charity RAINN, so you can increase your own safety while helping sexual assault survivors.

PEPPER GEL

The Future of Pepper Spray Is Here!

Boasting the same police-strength protection you've come to expect from SABRE, our pepper gel also offers additional benefits. To maximize your comfort and safety, pepper gel virtually eliminates wind blowback with no in-air atomization, meaning it only affects the target/person it directly contacts. Gel also offers a 20% greater range than traditional pepper spray for protection at a safer distance.

PEPPER GEL DUATHLETE WITH ADJUSTABLE ARM BAND

This innovative model straps to your bicep to keep your hands free whether exercising on two feet or two wheels. The reflective material increases visibility for roadside safety.

Weight: 2.2 oz / 62 grams / 62 ml

Contents: 14 Bursts

Safety: Flip Top

Drink Test Kit also available without SABRE Red Pepper Spray, model number DRC-5P.

PEPPER SPRAY & DRINK TEST KIT

SABRE's popular key case pepper spray with Quick Release Key Ring is partnered with a booklet of 5 drink tests, providing security and peace of mind on the go. Tests for the presence of GHB and Ketamine in alcoholic and non-alcoholic beverages. Simply place a drop of your beverage on both spots of one test, smear, wait until dry. If either spot turns a darker blue color, possible "date rape" drugs have been detected.*

Model Numbers: GNO-BK (Black) • GNO-PK (Pink)

Formulation: SABRE Red

Weight: 0.54 oz / 15 gr / 16.2 ml

Contents: 25 Bursts (up to 5x the competition)

Distance: 10 Feet (3 m)

Spray Pattern: Powerful Stream

Safety: Twist Lock

* WARNING: Although these test strips are designed to detect the presence of GHB and Ketamine, two of the most common drugs used for drug-facilitated sexual assault (DFSA), more than 20 different drugs have been detected or suspected in cases of DFSA. Some substances found in alcoholic drinks such as tonic water, fruit juices, milk products, oily liqueurs and certain wines can hinder the GHB/Ketamine reaction with the test strips. Perform the test in a well-lit area and make sure both tests are dry prior to testing. Finally, it can take 5 minutes or longer for the detection process to occur for some drinks. Wait until test spots are dry to get a final result. Never leave your drink unattended. When possible drink from a bottle over a glass or cup. If you suspect someone has tampered with your drink or you feel unusually sick, seek help immediately. Remember to always drink responsibly. Watch out for one another. Though these test strips will not detect GHB and Ketamine in the above mentioned drinks, we still believe that this product is beneficial because it will detect these drugs in dozens of additional drinks. By detecting the presence of these drugs, these strips can help prevent sexual assault or even death. Simply carrying the Drink Test Kit with you will help serve as a reminder to be more cautious with your beverages when in public.

Safety at Home

HOME AND AWAY PROTECTION KITS

Protect yourself at home and on the go with this dual pepper spray kit. At home you can place the glow-in-the-dark unit near you for immediate accessibility in the case of an emergency. Frontiersman Bear Spray – *When Only the Best Will Do!*

Frontiersman allows you to explore confidently knowing you have the best bear spray on the market with you.

- Maximum Stopping Power — Maximum strength (2.0% major capsaicinoids) allowed by the EPA — Guaranteed via in-house lab
- Greater Protection — Industry maximum 35-foot (10.6 m) range allows for greatest distance between you and a bear
- Proven — Field tested and proven effective by the Elmendorf Air Force Base (Elmendorf, AK) and Brown Bear Resources (Missoula, MT)
- Biggest Barrier — High emission system releases the maximum product (up to 52 grams per second) to provide optimal protection
- Immediately Accessible — Hip & chest holster do not have cumbersome straps to restrict immediate access to your canister or scare the bear

FRONTIERSMAN[®]

BEAR ATTACK DETERRENT

EPA Reg. No. 72265-1

WHICH BEAR SPRAY HAS THE GREATEST RANGE?

Certainly you want as much space between yourself and a charging bear as possible. The 9.2 oz Frontiersman canister provides an industry-topping 35 foot (10.6 m) range — outperforming the competition by up to 20 feet (6 m)!

**MAXIMUM
DELIVERY**

When you're faced with an aggressive bear, you don't want your bear spray in the can — you want it putting a large barrier between you and the animal as quickly as possible!

Frontiersman delivers and industry max 52 grams of spray per second — that's up to 40% more than other brands!

SABRE

Frontiersman Bear Spray Accessories

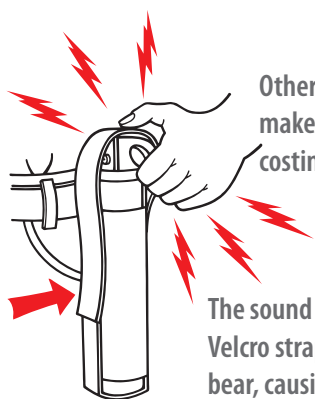

Part of Your Comprehensive Bear Safety Plan

FRONTIERSMAN BEAR SPRAY HOLSTER

Frontiersman holsters, available in both belt holster or a chest holster models, fit both 7.9 oz and 9.2 oz bear spray sizes. Bear spray sold separately.

Model Numbers: 454-NH (Belt) / H-454-CH (Chest)

Other brands' holsters make canister hard to access, costing you precious seconds.

The sound created by removing Velcro straps can aggravate the bear, causing it to charge!

Frontiersman hip and chest holsters do not have cumbersome straps to restrict immediate access to your canister or scare the bear.

FRONTIERSMAN BEAR SAFE

The Frontiersman Bear Safe reduces the likelihood that bears will enter your camp by helping restrict access to your food. This container meets the U.S. Forest Service specifications for use in national parks and areas requiring food storage.

Model Number: FBS-01

Individual Weight: 35.27 oz

Individual Dimensions: 8.5" x 8.5" x 10"

Frontiersman Bear Safe Carrying Bag (Sold Separately)

Model Number: FBS-02

Individual Weight: 2.99 oz

NEW! FRONTIERSMAN BEAR HORN

A must-have for bear country, the Frontiersman Bear Horn is audible up to ½ mile (805 m) away. Use the bear horn to warn animals of your presence, reducing your risk of startling a bear into aggressive behavior.

Model Number: F-HORN-01

Range: Can be heard up to ½ Mile (805 m)

Contents: Up to 50 – 1/4 Second Bursts or Up to 25 – 1/2 Second Bursts

BEAR BELL WITH MAGNETIC SILENCER

Available in five different color options, the bear bell with magnetic silencer helps prevent you from startling bears during your hike. Carrying one of these can reduce the likelihood a bear will attack.

Model Numbers: BB-01-BK (black), BB-01-RD (red), BB-01-GN (green), BB-01-BL (blue), BB-01-YW (yellow)

FRONTIERSMAN BIKE HOLSTER FOR BEAR SPRAY

The Frontiersman Bike Holster for Bear Spray is perfect for those who prefer to explore bear country on two wheels. Fits all standard bicycles — simply insert into the water bottle carrier on the bike's frame. Lightweight yet durable, this 1.75 oz holster is made of Polyethylene.

Model Number: FBH-01

Protector Dog Spray

“ When I read a story of a dog attack, it’s clear that a product like this could have made all the difference. And here’s the best part: The spray is all-natural, making it a humane way to deter a dog without causing any long-term pain or injury.”

— Run Intended (Amanda Shannon-Verrengia)

PROTECTOR DOG SPRAY WITH BELT CLIP

Protector’s larger, professional size includes a belt clip for convenient access so you can walk confidently knowing you’re carrying an EPA certified product to help protect yourself.

Model Number: SRP-MK3

Formulation: Protector, 1.0% Major Capsaicinoids

Weight: 1.8 oz / 50.4 gr / 54 ml

Contents: 7 1-Second Bursts

Distance: 15 Feet (4.6 m)

Spray Pattern: Powerful Stream

Safety: Flip Top

PROTECTOR DOG SPRAY WITH KEY RING

Available in black and pink, this compact size includes a key ring attachment for convenient access so you can walk confidently with EPA certified protection.

Model Numbers: SRP-KR-02 • SRP-NBCF-KR-02 (Supports NBCF)

Formulation: Protector, 1.0% Major Capsaicinoids

Weight: 0.75 oz / 22 gr / 23.7 ml

Contents: 14 1-Second Bursts

Distance: 12 Feet (4 m)

Spray Pattern: Powerful Stream

Safety: Twist Lock

Point-of-Purchase displays available.

Keeping You & Your Best Friend Safe

- Safe — humane, effective and all-natural pepper spray for use against attacking dogs
- Reliable — maximum strength heat allowed by the EPA, guaranteed via in-house lab
- Protection at a safe distance — 12 to 15 foot (4 to 4.6 m) range, includes 7 to 14 one-second bursts

Have You Heard the Stats?

- 4.5 million Americans are bitten by dogs each year
- In 2012, more than 27,000 people needed reconstructive surgery due to dog bites
- 1 in 5 people who are bitten require medical attention for their injuries
- 12 fatalities occur from dog attacks each year in the U.S.

SABRE

Personal Alarms

SPORT & SAFETY HORN

A must-have for all outdoor pursuits, this air horn calls for help when needed. Use the horn to warn animals of your presence, reducing your risk of startling a bear into aggressive behavior; attract attention during boating emergencies [meets U.S. Coast Guard recommendations for boats up to 39' (12 m)]; and cheer on your team at sporting events. To sound, press button.

Model Number: SSH-01

Batteries: Requires 4 x LR41 batteries (included).

NEW! PERSONAL ALARM WITH MAGNET, MOTION SENSOR & KEY RING

Ideal for use at home, a hotel room or while out and about, this personal alarm doubles as a motion detector with magnetic backing. To sound, pull pin from metal base.

Model Number: PA-MDM-BK (black) • PA-MDM-TQ (turquoise)

Decibel: 120 dB

Range: 600 Feet (185 m)

Batteries: Requires 3 x LR44 batteries.

The Personal Alarm with Key Ring is available for export as model numbers FD-PK-01 (pink) and FD-RD-01 (red).

" This thing is freakishly loud! Overall I am very satisfied. A+."

— Leo, a SABRE Home Series customer

Standalone Home Security

Sold Separately as Elite Door Alarm (See Below)

Sold Separately as Door/Window Alarm (See Below)

WIRELESS ALARM KIT

These 3 door and window alarms provide an inexpensive way to secure a living space and are audible up to 750 feet (230 m) away. Setup takes just seconds, with self-adhesive pads included. The main, 4-digit code activated keypad alarm features entry/exit delays, while all four units in the system boast chime mode and low battery indicators. The main keypad door alarm does not control the 3 smaller door/window alarms.

Model Number: HS-WAK

Decibel: 120 dB

Range: Can be heard up to 750 Feet (230 m)

Batteries: Door/window alarms require 4 x LR44 batteries per alarm (included). Keypad door alarm requires 3 x AAA batteries (not included).

Sold Separately as Door Stop Alarm (See Below)

DORM/APARTMENT ALARM KIT

This affordable solution for young adults living on their own includes one 120 dB Door Stop Alarm, which helps prevent the door from opening with a non-skid pad. The kit also offers a 120 dB door or window alarm and a mini personal alarm sounding 110 dB, audible up to 500 feet (150 m) away.

Model Number: HS-DAK

Decibel: 120 dB Door Stop Alarm, 120 dB Window Alarm, 110 dB Personal Alarm

Range: Window alarm can be heard up to 750 Feet (230 m), Door stop alarm can be heard up to 1,000 Feet (300 m), Personal alarm can be heard up to 500 Feet (150 m)

Batteries: Door stop alarm requires 1 x 9V battery (not included). Personal alarm requires 3 x LR44 batteries (included). Window alarm requires 4 x LR44 batteries (included).

DOOR OR WINDOW ALARM

This 120 dB magnetic alarm installs in seconds, as self-adhesive pads are included and the sensor can be placed on either side of the alarm. The chime setting is perfect for keeping track of little ones and visitors. (Shown above as part of the Wireless Alarm Kit.)

Model Numbers: HS-DWA (Single Alarm), HS-DWA2 (2-Pack), HS-DWA4 (4-Pack)

Decibel: 120 dB

Range: Can be heard up to 750 Feet (230 m)

Batteries: Four LR44 batteries (included).

ELITE DOOR ALARM

Armed via number keypad, this versatile 120 dB alarm includes entry and exit delays to prevent false triggering. (Shown above as part of the Wireless Alarm Kit.)

Model Number: HS-EDA (Also packaged as the Shed & Garage Alarm, Model Number: HS-SGA)

Decibel: 120 dB

Range: Can be heard up to 750 Feet (230 m)

Batteries: Alarm requires 3 x AAA batteries (not included).

DOOR STOP ALARM

This portable door stop alarm has a non-skid pad to prevent inward-facing doors from opening, and helps alert you to the intrusion with a piercing 120 dB alarm. (Shown above as part of the Dorm/Apartment Kit.)

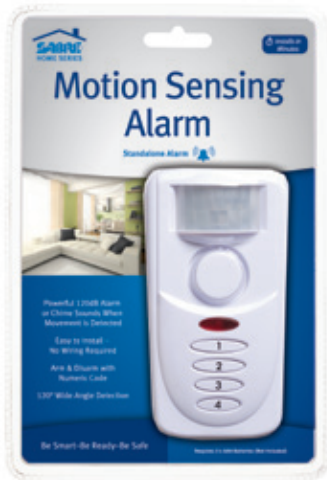

Model Number: HS-DSA

Decibel: 120 dB

Range: Can be heard up to 1,000 Feet (300 m)

Batteries: Requires 1 x 9V battery (not included).

Easy to Use, Quick to Set Up and Perfect for Dorm, Apartment, House and even Hotel Applications

MOTION SENSOR ALARM

At 120 dB, this motion sensor alarm detects movement up to 20 feet (6 m) away. Take advantage of the number keypad, chime mode and entry/exit delays to maximize security without false triggering.

Model Number: HS-MSA

Decibel: 120 dB

Range: Can be heard up to 750 Feet (230 m)

Batteries: Requires 3 x AAA batteries (not included).

NEW! DOOR HANDLE ALARM

Turn any door into its own security system by simply hanging this alarm over the doorknob from the inside of the room. The innovative unit detects vibration if and when the door handle is touched from the outside.

Model Numbers: HS-DHA

Decibel: 110 dB

Range: Can be heard up to 600 Feet (186 m)

MOTION SENSOR CEILING ALARM

Assuming the shape of a standard smoke detector and controlled by a remote, this 120 dB sensor alerts you to motion within a 20-foot (6 m) range. Arm and disarm with included key fob remote.

Model Number: HS-MSCA

Decibel: 120 dB

Range: Can be heard up to 750 Feet (230 m)

Batteries: Sensor requires 3 x AA batteries (not included).

Remote Requires 1 x CR2032 battery (included).

WINDOW GLASS ALARM

Find out if glass is tampered with or broken by choosing this 100 dB alarm, which is ideal for placement on glass windows and sliding glass doors. The warning decal — visible from your home's exterior — lets would-be burglars know your home is protected.

Model Number: HS-GA (Single Alarm), HS-GA2 (2-Pack)

Decibel: 100 dB

Range: Can be heard up to 300 Feet (90 m)

Batteries: Requires 2 x CR2032 batteries (included).
