

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point **OFF**.
3. Unfold the arms of the fixture body (A) to locations.
4. Attach the ring (B) and L-arm (C) to fixture body (A) by aligning and passing mounting stud on bottom side of fixture body (A) trough the mounting hole at side of ring (B) and L-arm (C), then secure with the finial (D) as shown in the diagram.
5. Locate the ring (B) and L-arm (C), aligning the holes of the ring (B) and L-arm (C) with the fixture body (A), then secure with the finial (D) as shown in the diagram.
6. Place the glass shade (E) over the socket of the fixture body (A).
7. Install proper bulbs (not provided) to each socket referring to the markings and / or labels on the fixture for maximum wattage.
8. Referring to the installation instruction with the product for the wiring and installation.
9. Retain power to the installation point ON and retain this sheet for future reference.
