

Scepter Continues to Set the Standard for Jerry Cans

Always the leader in portable fuel can technology, Scepter developed the original plastic Jerry Can and changed the industry forever. For almost half a century Scepter has continued to set the standard with evolving product features that are breaking new ground in away-from-the-pump fuel transport and transfer like our new Child Resistant Closures (CRC's) available on our full line. All of our Jerry Cans feature an extra Large, durable, molded-in handle that provides superior comfort, pouring and carrying ability. Scepter is your single source solution for Jerry Cans.

The Evolution of the "Original" Self Venting Fueling Systems

- Scepter Jerry Cans are virtually indestructible, manufactured from high-density, unbreakable polyethylene that is rustproof, crush-resistant and non-corroding.
- Features a reversible self-venting spout – no need to worry about separate vent closures.
- Scepter manufactures the only complete line available for gasoline, diesel, kerosene and water in a wide variety of sizes.
- All sizes easily attach to the patented Flo n' Go™ hand pump.
 - "Available with UN, CSA and Standards Australia Approvals"

EPA Approved Spill Proof CARB Fueling Systems

- Ecologically friendly, the Scepter line of "ECO" spill proof Jerry Cans are the safest products available and provide 100% compliance with California's Air Resource Board (CARB) emission and spill control regulations.
- Feature CRC's and a patented automatic shut-off spout that stops overflows, closes automatically and self-seals to guard against unwanted vapor emissions when not in use.

Military Use Jerry Can

- UN approved.
- Used by most NATO countries.
- Fits standard military bracket.
- Flouro-elastomer gasket doesn't swell.
- Can be used with blended fuels.

Spill Proof Spout

- Stops overflows, closes automatically and self-seals to guard against unwanted vapor emissions when not in use.
 - Ecologically friendly.
 - Automatic shut off.
